Publication of this book would not have been possible without the cooperation and assistance of the authors, reviewers, and the publishing team at IGI Global. The contributions of the reviewers of the book chapters are appreciated. Certainly, the quality could not have been maintained without their insightful reviews. We also thank our universities for affording us the time to work on this project and our colleagues and students for many stimulating discussions. Finally, we are grateful to our families for their patience and support during the preparation of the book.
