Foreword .......................................................................................................................................... xviii

Preface ................................................................................................................................................. xx

Acknowledgment ............................................................................................................................. xxvi

## Section 1

### Innovations Supporting Ageing in Place

**Chapter 1**
Ubiquitous Computing for Independent Living...................................................................................... 1  

*Neil W. Bergmann, University of Queensland, Australia*

**Chapter 2**
Ageing, Chronic Disease, Technology, and Smart Homes: An Australian Perspective....................... 15  

*Jeffrey Soar, University of Southern Queensland, Australia*

**Chapter 3**
A User-Driven Approach to Developing Ambient Assisted Living Systems for Older People:  
The SOPRANO Project ........................................................................................................................ 30  

*Andrew Sixsmith, Simon Fraser University, Canada*  
*Sonja Mueller, empirica Gesellschaft fur Kommunikations und Technologieforschung, Germany*  
*Felicitas Lull, empirica Gesellschaft fur Kommunikations und Technologieforschung, Germany*  
*Michael Klein, CAS Software AG, Germany*  
*Ilse Bierhoff, Smart Homes, The Netherlands*  
*Sarah Delaney, Work Research Centre, Ireland*  
*Paula Byrne, University of Liverpool, UK*  
*Sandra Sproll, University Stuttgart, Germany*  
*Robert Savage, Simon Fraser University, Canada*  
*Elena Avatangelou, Exodus, SA, Greece*
Chapter 4
Falls Prevention in the Home: Challenges for New Technologies ................................................................. 46
  Rose A. Kenny, Trinity College, Ireland
  Cliodhna Ni Scanaill, Intel, Ireland
  Michael McGrath, Intel, Ireland

Chapter 5
The Use of Assistive Technology to Support the Wellbeing and Independence of People with Memory Impairments ................................................................................................................. 65
  Claire Huijnen, Smart Homes, The Netherlands

Chapter 6
Meeting the Needs of Diverse User Groups: Benefits and Costs of Pluggable User Interfaces in Designing for Older People and People with Cognitive Impairments................................................................. 80
  Gottfried Zimmermann, Access Technologies Group, Germany
  Jan Alexandersson, DFKI GmbH, Germany
  Cristina Buiza, INGEMA, Spain
  Elena Urdaneta, INGEMA, Spain
  Unai Diaz, INGEMA, Spain
  Eduardo Carrasco, VICOMTech, Spain
  Martin Klima, Czech Technical University Prague, Czech Republic
  Alexander Pfalzgraf, SemVox GmbH, Germany

Chapter 7
A Robotic Arm for Electric Scooters ............................................................................................................... 94
  Samuel N. Cubero, The Petroleum Institute, UAE

Section 2
Innovations Supporting Engagement with Daily Life

Chapter 8
Thinking Outside the Box: Novel Uses of Technology to Promote Well-Being in Older Populations ................................................................................................................................. 111
  Nancy A. Pachana, The University of Queensland, Australia
  Emma E. Poulsen, The University of Queensland, Australia

Chapter 9
U3A Online and Successful Aging: A Smart Way to Help Bridge the Grey Digital Divide....................... 122
  Richard Swindell, Griffith University, Australia
  Peter Grimbeek, Griffith University, Australia
  Jan Heffernan, Queensland University of Technology, Australia
Chapter 10
Promoting Active Ageing through Technology Training in Korea

Donghee Han, Research Institute Science for the Better Living of the Elderly, Korea
Kathryn L. Braun, University of Hawai’i, USA

Chapter 11
Intelligent Transportation Systems for Older Drivers: A Systems Approach to Improving Safety and Extending Driving Longevity

Christopher G. Hatherly, The Australian National University, Australia

Chapter 12
Low Usage of Intelligent Technologies by the Aged: New Initiatives to Bridge the Digital Divide

John Heng, Nanyang Technological University, Singapore
Subhasis Banerji, Nanyang Technological University, Singapore

Chapter 13
Building a Mutual Assistance Community for Elderly People

Hong Sun, University of Antwerp, Belgium & Interdisciplinary Institute for Broadband Technology (IBBT), Belgium
Vincenzo De Florio, University of Antwerp, Belgium & Interdisciplinary Institute for Broadband Technology (IBBT), Belgium
Ning Gui, University of Antwerp, Belgium & Interdisciplinary Institute for Broadband Technology (IBBT), Belgium
Chris Blondia, University of Antwerp, Belgium & Interdisciplinary Institute for Broadband Technology (IBBT), Belgium

Chapter 14
Preventative Healthcare: A Proposed Holistic Assistive Technology Model Based on Industry Practice

James Barrientos, LifeTec Queensland, Australia
Michele Barry, LifeTec Queensland, Australia

Section 3
Innovations Supporting the Frail Elderly and Aged Care Providers

Chapter 15
Attitudes toward Intelligent Technologies: Elderly People and Caregivers in Nursing Homes

Lorenza Tiberio, Institute for Cognitive Sciences and Technologies (ISTC-CNR), Italy
Massimiliano Scopelliti, Libera Università Maria Ss. Assunta (Lumsa), Italy
Maria Vittoria Giuliani, Institute for Cognitive Sciences and Technologies (ISTC-CNR), Italy
Chapter 16
Supporting Family-Based Care for Aged Patients with Chronic Illness

Lemai Nguyen, Deakin University, Australia

Chapter 17
Telenursing in Aged-Care: Systematic Evidence of Practice

Sisira Edirippulige, University of Queensland, Australia
Rohana Basil Marasinghe, University of Sri Jayewardenepura, Sri Lanka

Chapter 18
Health Insurance Systems as Models for Managing the Increasing Elderly Populations of Japan and Korea

Seungwon Jeong, Nihon Fukushi University, Japan
Yusuke Inoue, Nihon Fukushi University, Japan

Chapter 19
Assistive Technologies as Aids to Family Caregivers in Taiwan

Szu-Yao (Zoe) Wang, Australian Catholic University, Australia
