# Table of Contents

Foreword ........................................................................................................................................... xix

Preface ................................................................................................................................................ xxi

Acknowledgment ................................................................................................................................ xxvi

## Section 1
### Ideas, Perspectives, and Education

**Chapter 1**
Overcoming Objections to MUVEs in Education ................................................................. 1  
*Daniel Laughlin, University of Maryland Baltimore County, USA*

**Chapter 2**
The Recursive Knowledge Development Model for Virtual Environments.......................... 15  
*Nan B. Adams, Southeastern Louisiana University, USA*

*Thomas A. DeVaney, Southeastern Louisiana University, USA*

**Chapter 3**
The Techno-Pedagogical Context of Distance Learning: Conceptual Roots............................ 27  
*Timothy F. Duruz, Independent Higher Education Consultant, USA*

**Chapter 4**
ICT Applications in U.S. Higher Education .............................................................................. 47  
*Michelle O. Crosby-Nagy, George Washington University, USA*

*John M. Carfora, Loyola Marymount University and the Immersive Education Initiative, USA*

**Chapter 5**
Digital Intelligence: A New Way of Knowing .............................................................................. 59  
*Nan B. Adams, Southeastern Louisiana University, USA*
Chapter 6
Faculty Professional Learning: An Examination of Online Development and Assessment Environments

Olga M. Alegre, University of La Laguna, Spain
Luis M. Villar, University of Seville, Spain

Section 2
Elements of Education in Virtual Environments

Chapter 7
The Affordances of Second Life for Education

Craig A. Cunningham, National-Louis University, USA
Kimball Harrison, Virginia Beach City Public Schools, USA

Chapter 8
Learning in Virtual Worlds: A Situated Perspective

Antonio Santos, Universidad de las Américas Puebla, México

Chapter 9
CSCL Techniques in Collaborative Virtual Environments: The Case of Second Life

Thrasyvoulos Tsiatsos, Aristotle University of Thessaloniki, Greece
Andreas Konstantinidis, Aristotle University of Thessaloniki, Greece
Theodouli Terzidou, Aristotle University of Thessaloniki, Greece
Lazaros Ioannidis, Aristotle University of Thessaloniki, Greece
Chrysanthi Tseloudi, Aristotle University of Thessaloniki, Greece

Chapter 10
Designing Web-Based Educational Virtual Reality Environments

Kosmas Dimitropoulos, University of Macedonia, Greece
Athanasios Manitsaris, University of Macedonia, Greece

Chapter 11
Teaching in the Virtual Theatre Classroom

Stephen A. Schrum, University of Pittsburgh at Greensburg, USA

Chapter 12
Case Study of ASCIT: Fostering Communication through Interactive Technologies for Long Term Sick Children

Fabian Di Fiore, Hasselt University, Belgium
Peter Quax, Hasselt University, Belgium
Wim Lamotte, Hasselt University, Belgium
Frank Van Reeth, Hasselt University, Belgium
Chapter 13
Staging Second Life in Real and Virtual Spaces .......................................................... 217
Russell Fewster, University of South Australia, Australia
Denise Wood, University of South Australia, Australia
Joff Chafer, Coventry University, UK

Chapter 14
The Benefits and Unanticipated Challenges in the Use of 3D Virtual Learning Environments in the Undergraduate Media Arts Curriculum ........................................ 236
Denise Wood, University of South Australia, Australia

Section 3
Perspectives of Language Learning

Chapter 15
Task Design for Language Learning in an Embodied Environment ................................ 259
Paul Sweeney, Independent Consultant in E-Learning, UK
Cristina Palomeque, University of Barcelona, Spain
Dafne González, Universidad Simón Bolívar, Venezuela
Chris Speck, Languagelab.com, UK
Douglas W. Canfield, University of Tennessee, USA
Suzanne Guerrero, Richmond Publishing, Mexico
Pete MacKichan, Freelance Consultant in E-Learning, Greece

Chapter 16
Multi-User Virtual Environments: User-Driven Design and Implementation for Language Learning ........................................................................................................... 283
Julie M. Sykes, University of New Mexico, USA

Chapter 17
Foreign Language Instruction in a Virtual Environment: An Examination of Potential Activities ...................................................................................................................... 306
Regina Kaplan-Rakowski, Southern Illinois University Carbondale, USA

Chapter 18
Education-Oriented Research Activities Conducted in Second Life ................................ 326
Jiuguang Feng, Towson University, USA
Liyan Song, Towson University, USA
Section 4
Techniques, Applications, and Designs for Education Using Virtual Environments

Chapter 19
Enhancing Tertiary Healthcare Education through 3D MUVE-Based Simulations ....................... 341
Charlynn Miller, University of Ballarat, Australia
Mark J. W. Lee, University of Ballarat, Australia
Luke Rogers, University of Ballarat, Australia
Grant Meredith, University of Ballarat, Australia
Blake Peck, University of Ballarat, Australia

Chapter 20
New Augmented Reality Applications: Inorganic Chemistry Education ...................................... 365
Manuela Núñez Redó, Universitat Jaume I de Castelló, Spain
Arturo Quintana Torres, Universitat Jaume I de Castelló, Spain
Ricardo Quirós, Universitat Jaume I de Castelló, Spain
Inma Núñez Redó, Universitat Jaume I de Castelló, Spain
Juan B. Carda Castelló, Universitat Jaume I de Castelló, Spain
Emilio Camahort, Universidad Politécnica de Valencia, Spain

Chapter 21
Interactive Models Based on Virtual Reality Technology Used in Civil Engineering Education ...... 387
Alcínia Zita Sampaio, University of Lisbon, Portugal
Pedro Gameiro Henriques, University of Lisbon, Portugal
Carlos Oliveira Cruz, University of Lisbon, Portugal
Octávio Peres Martins, University of Lisbon, Portugal

Chapter 22
Subject Matter Content Creation for Second Life Delivery: Teaching GIS in Second Life .......... 414
Michael DeMers, New Mexico State University, USA

Chapter 23
New Life for Corporate Training ................................................................................................. 433
David R. Dannenberg, Virginia Tech, USA

Chapter 24
Self-Developing a MUVE for Research and Educational Innovations .................................... 453
Nick V. Flor, University of New Mexico, USA
Chapter 25
Collaborative Learning through Flexible Web CVE: The Experience of WebTalk
Ugo Barchetti, University of Salento, Italy
Alberto Bucciero, University of Salento, Italy
Luca Mainetti, University of Salento, Italy
