# Table of Contents

Foreword ..............................................................................................................................xii

Preface ..................................................................................................................................xiv

Acknowledgment...................................................................................................................xx

## Section 1
### Interactive Practice

**Chapter 1**
Sound in Electronic Gambling Machines: A Review of the Literature and its
Relevance to Game Sound........................................................................................................1
  Karen Collins, University of Waterloo, Canada
  Holly Tessler, University of East London, UK
  Kevin Harrigan, University of Waterloo, Canada
  Michael J. Dixon, University of Waterloo, Canada
  Jonathan Fugelsang University of Waterloo, Canada

**Chapter 2**
Sound for Fantasy and Freedom...........................................................................................22
  Mats Liljedahl, Interactive Institute, Sonic Studio, Sweden

**Chapter 3**
Sound is Not a Simulation: Methodologies for Examining the
Experience of Soundscapes.................................................................................................44
  Linda O’Keeffe, National University of Ireland, Maynooth, Ireland

**Chapter 4**
Diegetic Music: New Interactive Experiences......................................................................60
  Axel Berndt, Otto-von-Guericke University, Germany
Section 2
Frameworks & Models

Chapter 5
Time for New Terminology? Diegetic and Non-Diegetic Sounds in Computer Games Revisited... 78
Kristine Jørgensen, University of Bergen, Norway

Chapter 6
A Combined Model for the Structuring of Computer Game Audio... 98
Ulf Wilhelmsson, University of Skövde, Sweden
Jacob Wallén, Freelance Game Audio Designer, Sweden

Chapter 7
An Acoustic Communication Framework for Game Sound: Fidelity, Verisimilitude, Ecology 131
Milena Droumeva, Simon Fraser University, Canada

Chapter 8
Perceived Quality in Game Audio 153
Ulrich Reiter, Norwegian University of Science and Technology, Norway

Section 3
Emotion & Affect

Chapter 9
Causing Fear, Suspense, and Anxiety Using Sound Design in Computer Games... 176
Paul Toprac, Southern Methodist University, USA
Ahmed Abdel-Meguid, Southern Methodist University, USA

Chapter 10
Listening to Fear: A Study of Sound in Horror Computer Games... 192
Guillaume Roux-Girard, University of Montréal, Canada

Chapter 11
Uncanny Speech 213
Angela Tinwell, University of Bolton, UK
Mark Grimshaw, University of Bolton, UK
Andrew Williams, University of Bolton, UK

Chapter 12
Emotion, Content, and Context in Sound and Music 235
Stuart Cunningham, Glyndŵr University, UK
Vic Grout, Glyndŵr University, UK
Richard Picking, Glyndŵr University, UK
Chapter 13
Player-Game Interaction Through Affective Sound... .............................................................. 264
  Lennart E. Nacke, University of Saskatchewan, Canada
  Mark Grimshaw, University of Bolton, UK

Section 4
Technology

Chapter 14
Spatial Sound for Computer Games and Virtual Reality... ...................................................... 287
  David Murphy, University College Cork, Ireland
  Flaithri Neff, Limerick Institute of Technology, Ireland

Chapter 15
Behaviour, Structure and Causality in Procedural Audio... ................................................ 313
  Andy Farnell, Computer Scientist, UK

Chapter 16
Physical Modelling for Sound Synthesis... .............................................................................. 340
  Eoin Mullan, Queen's University Belfast, N. Ireland

Section 5
Current & Future Design

Chapter 17
Guidelines for Sound Design in Computer Games... ................................................................ 362
  Valter Alves, University of Coimbra, Portugal & Polytechnic Institute of Viseu, Portugal
  Licinio Roque, University of Coimbra, Portugal

Chapter 18
New Wine in New Skins: Sketching the Future of Game Sound Design... .......................... 384
  Daniel Hug, Zurich University of the Arts, Switzerland

Appendix ............................................................................................................................... 416
Compilation of References .................................................................................................. 427
About the Contributors ....................................................................................................... 467
Index .................................................................................................................................... 473
