Table of Contents

Preface .................................................................................................................................................. xv

Acknowledgment .................................................................................................................................. xx

Section 1

Chapter 1
Techniques for Content-Based Multimedia Retrieval ........................................................................ 1
  Chia-Hung Wei, Ching Yun University, Taiwan
  Sherry Y. Chen, Brunel University, UK

Chapter 2
Metrical Properties of Nested Partitions for Image Retrieval............................................................... 18
  Dmitry Kinoshenko, Kharkiv National University of Radio Electronics, Ukraine
  Vladimir Mashtalir, Kharkiv National University of Radio Electronics, Ukraine
  Vladislav Shlyakhov, Kharkiv National University of Radio Electronics, Ukraine
  Elena Yegorova, Kharkiv National University of Radio Electronics, Ukraine

Chapter 3
R*-Tree Based Similarity and Clustering Analysis for Images ............................................................. 50
  Jiaxiong Pi, University of Nebraska at Omaha, USA
  Yong Shi, University of Nebraska at Omaha, USA
  Zhengxin Chen, University of Nebraska at Omaha, USA

Chapter 4
Face Recognition Based on Manifold Learning and SVM Classification of 2D and 3D Geodesic Curves ................................................................................................................................. 62
  Stefano Berretti, University of Firenze, Italy
  Alberto Del Bimbo, University of Firenze, Italy
  Pietro Pala, University of Firenze, Italy
  Francisco José Silva Mata, Advanced Technologies Application Center, Cuba
Chapter 5
Trademark Image Retrieval

Wing-Yin Chau, University of Warwick, UK
Chia-Hung Wei, Ching Yun University, Taiwan
Yue Li, Nankai University, China

Section 2

Chapter 6
Discovering Semantics from Visual Information

Zhiyong Wang, University of Sydney, Australia
Dagan Feng, University of Sydney, Australia & Hong Kong Polytechnic University, China

Chapter 7
Collaborative Bayesian Image Annotation and Retrieval

Rui Zhang, Ryerson University, Canada
Ling Guan, Ryerson University, Canada

Chapter 8
A Highly Scalable and Adaptable Co-Learning Framework on Multimodal Data Mining in a Multimedia Database

Zhongfei (Mark) Zhang, SUNY Binghamton, USA
Zhen Guo, SUNY Binghamton, USA
Christos Faloutsos, Carnegie Mellon University, USA
Jia-Yu (Tim) Pan, Google Inc., USA

Chapter 9
Non-Topical Classification of Query Logs Using Background Knowledge

Isak Taksa, Baruch College, City University of New York, USA
Sarah Zelikovitz, The College of Staten Island, City University of New York, USA
Amanda Spink, Queensland University of Technology, Australia

Section 3

Chapter 10
Temporal-Based Video Event Detection and Retrieval

Min Chen, University of Montana, USA
Chapter 11
Analyzing Animated Movie Contents for Automatic Video Indexing .................................................. 228
Bogdan Ionescu, University Politehnica of Bucharest, Romania
Patrick Lambert, University of Savoie, France
Didier Coquin, University of Savoie, France
Alexandru Marin, University Politehnica of Bucharest, Romania
Constantin Vertan, University Politehnica of Bucharest, Romania

Chapter 12
Sports Video Analysis ........................................................................................................................ 261
Hua-Tsung Chen, National Chiao-Tung University, Taiwan
Suh-Yin Lee, National Chiao-Tung University, Taiwan

Section 4

Chapter 13
Adaptive Indexing for Semantic Music Information Retrieval .......................................................... 287
Clement H.C. Leung, Hong Kong Baptist University, Hong Kong
Jiming Liu, Hong Kong Baptist University, Hong Kong
Alfredo Milani, University of Perugia, Italy & Hong Kong Baptist University, Hong Kong
Alice W.S. Chan, Hong Kong Baptist University, Hong Kong

Chapter 14
Music Content Analysis in MP3 Compressed Domain.................................................................... 301
Antonello D’Aguanno, Università degli Studi di Milano, Italy

Chapter 15
Acoustic Analysis of Music Albums ................................................................................................... 322
Kristoffer Jensen, Aalborg University Esbjerg, Denmark

Compilation of References .................................................................................................................. 341

About the Contributors ...................................................................................................................... 374

Index .................................................................................................................................................. 382
