Table of Contents

Preface................................................................................................................................................... xvii

Acknowledgment................................................................................................................................ xxii

Section 1
Assistive Technologies

Chapter 1
Assistive Technologies, Tools and Resources for the Access and Use of Information
and Communication Technologies by People with Disabilities........................................................ 1

Betania Groba, University of A Coruña, Spain
Thais Pousada, University of A Coruña, Spain
Laura Nieto, University of A Coruña, Spain

Chapter 2
Nascent Access Technologies for Individuals with Severe Motor Impairments .......................... 16

Sarah Power, University of Toronto, Canada
Saba Moghimi, University of Toronto, Canada
Brian Nhan, University of Toronto, Canada
Tom Chau, University of Toronto, Canada

Chapter 3
Elderly People, Disability, Dependence and New Technologies...................................................... 36

José C. Millán-Calenti, University of A Coruña, Spain
Ana Maseda, University of A Coruña, Spain

Chapter 4
Augmentative and Alternative Communication Devices: The Voices of Adult Users....................... 46

Martine Smith, Trinity College Dublin, Ireland
Janice Murray, Manchester Metropolitan University, UK
Chapter 5
Innovative Smart Sensing Solutions for the Visually Impaired

Bruno Andò, University of Catania, Italy
Salvatore Baglio, University of Catania, Italy
Salvatore La Malfa, University of Catania, Italy
Vincenzo Marletta, University of Catania, Italy

Chapter 6
An Advanced Concept of Altered Auditory Feedback as a Prosthesis-Therapy for Stuttering
Founded on a Non-Speech Etiologic Paradigm

Manuel Prado-Velasco, University of Seville, Spain
Carlos Fernández-Peruchena, University of Seville, Spain

Chapter 7
The Role of Sensory Rhythmic Stimulation on Motor Rehabilitation in Parkinson’s Disease (PD)

Pablo Arias, University of A Coruña, Spain
Javier Cudeiro, University of A Coruña, Spain

Chapter 8
Transcranial Magnetic Stimulation (TMS) as a Tool for Neurorehabilitation in Parkinson’s Disease

Pablo Arias, University of A Coruña, Spain
Nelson Espinosa, University of A Coruña, Spain
Javier Cudeiro, University of A Coruña, Spain

Chapter 9
A Feedback Controlled FES in Rehabilitation

Yu-Luen Chen, National Taipei University of Education, Taiwan
Tê-Son Kuo, National Taiwan University, Taiwan

Chapter 10
Human-Centered Metal Hydride Actuator Systems for Rehabilitation and Assistive Technology

Shuichi Ino, National Institute of Advanced Industrial Science and Technology (AIST), Japan
Mitsuru Sato, Showa University, Japan
Section 3
Internet Accessibility

Chapter 11
Web Accessibility: Current Trends ................................................................. 172
Simon Harper, University of Manchester, UK
Yeliz Yesilada, University of Manchester, UK

Chapter 12
Catering for Personal Autonomy with E-Mentoring Supported by Recommendations ............... 191
Olga C. Santos, UNED, Spain
Carmen Barrera, UNED, Spain
Emanuela Mazzone, UNED, Spain
Jesus G. Boticario, UNED, Spain

Section 4
Computer Access

Chapter 13
Blind User Interfacing: Requirements, Models and a Framework ...................................................... 205
Fernando Alonso, Technical University of Madrid, Spain
José L. Fuertes, Technical University of Madrid, Spain
Ángel L. González, Technical University of Madrid, Spain
Loïc Martínez, Technical University of Madrid, Spain

Chapter 14
Sensors in Assistive Technology ............................................................................. 224
Yu-Luen Chen, National Taipei University of Education, Taiwan
Walter H. Chang, Chung Yuan Christian University, Taiwan
Te-Son Kuo, National Taiwan University, Taiwan

Chapter 15
Non-Manual Control Devices: Direct Brain-Computer Interaction ...................................................... 233
Reinhold Scherer, University of Washington, USA, Graz University of Technology, Austria, &
Judendorf-Strassengel Clinic, Austria
Rajesh P. N. Rao, University of Washington, USA

Chapter 16
Wireless Sensor Networks and Systems ....................................................................... 251
Jaime Lloret, Polytechnic University of Valencia, Spain
Miguel Garcia, Polytechnic University of Valencia, Spain
Hugo Coll, Polytechnic University of Valencia, Spain
Miguel Edo, Polytechnic University of Valencia, Spain
Chapter 17
Model-Based Approaches for Scanning Keyboard Design: Present State and Future Directions .......... 264
Samit Bhattacharya, Indian Institute of Technology Guwahati, India

Section 5
Experiences and Applications

Chapter 18
Projects from the Orange Foundation in Favour of People with Obstacles to Communication .......... 284
Verónica Pensoosi, Orange Foundation, Spain
Blanca Villamía, Orange Foundation, Spain
Manuel Gimeno, Orange Foundation, Spain

Chapter 19
Occupational Therapists’ Perceptions about the Non-Use of Recommended Assistive Technology (AT) ........................................................................................................... 293
Patricia M. Wielandt, University of Alberta, Canada

Chapter 20
Sensors and their Application for Disabled and Elderly People ......................................................... 311
Jesus Tomas, Polytechnic University of Valencia, Spain
Jaime Lloret, Polytechnic University of Valencia, Spain
Diana Bri, Polytechnic University of Valencia, Spain
Sandra Sendra, Polytechnic University of Valencia, Spain

Chapter 21
Telegerontology®: A New Technological Resource for Elderly Support .............................................. 331
José C. Millán-Calenti, University of A Coruña, Spain
Ana Maseda, University of A Coruña, Spain

Chapter 22
Experiences Using Information and Communication Technologies with Elderly People ................. 346
Laura Nieto, University of A Coruña, Spain
Betania Groba, University of A Coruña, Spain
Francisco Servia, University of A Coruña, Spain

Chapter 23
Experiences Using Information and Communication Technologies with Children Affected by Cerebral Palsy ........................................................................................................... 358
Thais Pousada, University of A Coruña, Spain
Miriam Piñeiro, ASPACE Coruña, Spain
Yolanda Vizcaya, ASPACE Coruña, Spain
Compilation of References ................................................................. 371

About the Contributors ........................................................................ 422

Index................................................................................................... 433
