Acknowledgment

The editors would like to acknowledge the help of all involved in the reviewing process of the chapters. We greatly appreciate individual authors of the included chapters for their thorough technical reviews, constructive criticisms, and many valuable suggestions as they served as reviewers for chapters written by others.

Special thanks go to the management and staff of IGI Global for their valuable contribution, suggestions, recommendations, and encouragements from inception of initial ideas to the final publication of the book. In particular, we would like to thanks Mike Killian for his various contributions and support. And most importantly, we are grateful to Beth Ardner for the great help initially received from her throughout the previous stages.

Deep appreciation goes to Dr. Umar Al-Turki for providing us with a constructive and comprehensive foreword.

We also thank all the people who assisted us in the reviewing process.

The editors wish to acknowledge King Fahd University of Petroleum and Minerals (KFUPM) Saudi Arabia and Hafr Al-Batin Community College for their support in providing the various facilities utilized in the process of production of this book.

This work was supported by Deanship of Scientific Research program of King Fahd University of Petroleum and Minerals (KFUPM), under Project Number: # IN101001.
