Acknowledgment

Completing a book of this magnitude has proven to be a major undertaking. The book could not have come to fruition without the dedication and support of many individuals. We would like to thank the members of the International Advisory Board for their invaluable support throughout the venture. We would also like to acknowledge the great effort by many Arab and Non-Arab academics and practitioners who submitted proposals to participate in the book. However, our appreciation and gratitude is to the distinguished scholarly work of the authors of the books, who have also helped in the review of some chapters. We also extend a special thanks to our dear colleague Dr. Ashraf Khalil, who was one of the editors at the early development stages of the textbook. Our appreciation and gratitude also goes to the College of Research and Graduate Studies at Abu Dhabi University for their grant to support the completion of this book.

We would like to acknowledge the efforts of the following members for contributing valuable advice, authoring and reviewing chapters:

Advisory Board

Edward A. Stohr, Stevens Institute of Technology, USA
Khalid Soliman, Hofstra University, USA
Ernest Jordan, Macquarie University, Australia
Gerald Grant, Carleton University, Canada
