Table of Contents

Preface ........................................................................................................................................................................xiv

Acknowledgment ..........................................................................................................................................................xix

Section 1
Concepts, Algorithms, and Theory

Chapter 1
Towards the Notion of Typical Documents in Large Collections of Documents .......................... 1
Mieczysław A. Klopotek, Polish Academy of Sciences, Poland & University of Natural
and Human Sciences, Poland
Sławomir T. Wierzchoń, Polish Academy of Sciences & University of Gdańsk, Poland
Krzysztof Ciesielski, Polish Academy of Sciences, Poland
Michał Dramiński, Polish Academy of Sciences, Poland
Dariusz Czerski, Polish Academy of Sciences, Poland

Chapter 2
Data Mining Techniques for Outlier Detection.................................................................................. 19
N N R Ranga Suri, Centre for Artificial Intelligence and Robotics, India
M Narasimha Murty, Indian Institute of Science, India
G Athithan, Centre for Artificial Intelligence and Robotics, India

Chapter 3
Using an Ontology-Based Framework to Extract External Web Data for the Data Warehouse ......... 39
Charles Greenidge, University of the West Indies, Barbados
Hadrian Peter, University of the West Indies, Barbados

Chapter 4
Dimensionality Reduction for Interactive Visual Clustering: A Comparative Analysis .................. 60
P. Alagambigai, Easwari Engineering College, India
K. Thangavel, Periyar University, India
Chapter 5
Database Analysis with ANNs by Means of Graph Evolution ................................................................. 79
  Daniel Rivero, University of A Coruña, Spain
  Julián Dorado, University of A Coruña, Spain
  Juan R. Rabuñal, University of A Coruña, Spain
  Alejandro Pazos, University of A Coruña, Spain

Chapter 6
An Optimal Categorization of Feature Selection Methods for Knowledge Discovery ....................... 94
  Harleen Kaur, Hamdard University, India
  Ritu Chauhan, Hamdard University, India
  M. A. Alam, Hamdard University, India

Chapter 7
From Data to Knowledge: Data Mining .................................................................................................. 109
  Tri Kurniawan Wiayya, Sekolah Tinggi Teknik Surabaya, Indonesia

Section 2
Applications of Mining and Visualization

Chapter 8
Patent Infringement Risk Analysis Using Rough Set Theory ......................................................... 123
  Chun-Che Huang, National Chi Nan University, Taiwan
  Tzu-Liang (Bill) Tseng, The University of Texas at El Paso, USA
  Hao-Syuan Lin, National Chi Nan University, Taiwan

Chapter 9
Visual Survey Analysis in Marketing ..................................................................................................... 151
  Marko Robnik-Šikonja, University of Ljubljana, Slovenia
  Koen Vanhoof, University of Hasselt, Belgium

Chapter 10
Assessing Data Mining Approaches for Analyzing Actuarial Student Success Rate ..................... 169
  Alan Olinsky, Bryant University, USA
  Phyllis Schumacher, Bryant University, USA
  John Quinn, Bryant University, USA

Chapter 11
A Robust Biclustering Approach for Effective Web Personalization ........................................... 186
  H. Hannah Inbarani, Periyar University, India
  K. Thangavel, Periyar University, India
Chapter 12
Web Mining and Social Network Analysis ................................................................. 202
Roberto Marmo, University of Pavia, Italy

Section 3
Visual Systems, Software and Supercomputing

Chapter 13
iVAS: An Interactive Visual Analytic System for Frequent Set Mining ..................... 213
Carson Kai-Sang Leung, The University of Manitoba, Canada
Christopher L. Carmichael, The University of Manitoba, Canada

Chapter 14
Mammogram Mining Using Genetic Ant-Miner ........................................................... 232
K. Thangavel, Periyar University, India
R. Roselin, Sri Sarada College for Women, India

Chapter 15
Use of SciDBMaker as Tool for the Design of Specialized Biological Databases ........ 251
Riad Hammami, Université Laval, Canada
Ismail Fliss, Université Laval, Canada

Chapter 16
Interactive Visualization Tool for Analysis of Large Image Databases ....................... 266
Anca Doloc-Mihu, Emory University, USA

Chapter 17
Supercomputers and Supercomputing ................................................................. 282
Jeffrey S. Cook, Arkansas State University, USA

Compilation of References .................................................................................. 295

About the Contributors ....................................................................................... 328

Index ................................................................................................................... 337
