Advances in Electronic Business
Volume II

Table of Contents

Preface .......................................................................................................................... vi

Chapter I
From World Wide Web to Semantic Web ................................................................. 1
    Charles Ling-yu Chou, The Chinese University of Hong Kong, Hong Kong, China

Chapter II
Semantic Descriptions of Web Services ................................................................. 31
    Farshad Hakimpour, UK
    Suo Cong, University of Zurich, Switzerland
    Daniela E. Damm, Zuhlke Engineering Ltd., UK

Chapter III
Developing Intelligent Semantic Web Services ...................................................... 74
    Sam Lee, Texas State University - San Marcos, USA

Chapter IV
Semantic Web Support for Customer Services ...................................................... 93
    Quan Thanh Tho, Nanyang Technological University, Singapore
    Hui Siu Cheung, Nanyang Technological University, Singapore
    A. C. M. Fong, Nanyang Technological University, Singapore
Chapter V
A Tutorial on RDF with Jena .............................................................. 116
Wan-Yeung Wong, The Chinese University of Hong Kong, Hong Kong,
China
Tak-Pang Lau, The Chinese University of Hong Kong, Hong Kong, China
Irwin King, The Chinese University of Hong Kong, Hong Kong, China
Michael R. Lyu, The Chinese University of Hong Kong, Hong Kong, China

Chapter VI
A Semantic Web Service Architecture for Learning Object Repositories .......... 141
José-Manuel López-Cobo, Atos Origin SAE, Spain
Simhé Arroyo, Digital Enterprise Research Institute, Austria
Miguel-Angel Sicilia, University of Alcalá Polytechnic School, Spain
Salvador Sánchez-Alonso, University of Alcalá, Spain

Chapter VII
Using Semantic Web to Facilitate Agent-to-Agent Argumentation for E-Commerce ... 159
Shiu-li Huang, Ming Chuan University, Taiwan
Fu-ren Lin, National Tsing Hua University, Taiwan

Chapter VIII
Building Dynamic Business Process in P2P Semantic Web ......................... 180
Timon C. Du, The Chinese University of Hong Kong, Hong Kong, China
Eldon Y. Li, National Chengchi University, Taiwan & California Polytechnic
State University, USA

Chapter IX
An Intelligent Metasearch Engine with Link Prediction and Page Clipping
Generation Capabilities ................................................................. 199
Cheng-Jye Luh, Yuan-Ze University, Taiwan
Lin-Chih Chen, National Taiwan University of Science and Technology,
Taiwan

Chapter X
Access Control for Web Service Applications: An Example in Collaborative
Auditing ......................................................................................... 245
Timon C. Du, The Chinese University of Hong Kong, Hong Kong, China
Richard Hwang, California State University at San Marcos, USA
Charles Ling-yu Chou, The Chinese University of Hong Kong,
Hong Kong, China

Chapter XI
Semantics and the Medical Search ...................................................... 267
Amanda Spink, Queensland University of Technology, Australia
Robert M. Wolfe, Northwestern University, USA
Bernard J. Jansen, The Pennsylvania State University, USA
Chapter XII
Web Mining for Protein-to-Protein Interaction Information ............................... 280
Hsi-Chieh Lee, Yuan Ze University, Taiwan & National Kinmen Institute of Technology, Taiwan
Szu-Wei Huang, Yuan Ze University, Taiwan
Eldon Y. Li, National Chengchi University, Taiwan & California Polytechnic State University, USA

Chapter XIII
SWAP: A Framework for Ontology Support in Semantic Web Applications ........ 310
Arijit Sengupta, Wright State University, USA
Henry Kim, York University, Canada

About the Authors ..................................................................................................... 321
