Table of Contents

Foreword.......................................................................................................................................................xxvii
Preface ........................................................................................................................................................xxvi
Acknowledgment .........................................................................................................................................xxxix

Section I
Theory Development and Extension

Chapter I
Theoretical Constructs and Relationships in Information Systems Research......................... 1
  Brent Furneaux, York University, Canada
  Michael Wade, York University, Canada

Chapter II
Adapting the Structurationist View of Technology for Studies at the Community/Societal Levels..... 18
  Marlei Pozzebon, HEC Montréal, Canada
  Eduarado Diniz, Fundaçao Getulio Vargas, Brazil
  Martin Jayo, Fundaçao Getulio Vargas, Brazil

Chapter III
Employing a Grounded Theory Approach for MIS Research.................................................... 34
  Susan Gasson, The iSchool at Drexel, Drexel University, USA

Chapter IV
Critical Realism........................................................................................................................................... 57
  Sven A. Carlsson, Lund University, Sweden

Chapter V
Theory Development in Information Systems Research Using Structural Equation Modeling:
Evaluation and Recommendations.............................................................................................................. 77
  Nicholas Roberts, Clemson University, USA
  Varun Grover, Clemson University, USA
Chapter VI
An Evidence-Based Health Information System Theory

Daniel Carbone, University of Melbourne, Australia

Section II
Information System Development

Chapter VII
Language-Action Perspective (LAP)

Karthikeyan Umapathy, University of North Florida, USA

Chapter VIII
Research Directions on Incorporating Work System Method Ideas in Systems Analysis and Design

Ram B. Misra, Montclair State University, USA
Doncho Petkov, Eastern Connecticut State University, USA
Olga Petkova, Central Connecticut State University, USA

Chapter IX
The Value of Flexibility

Rodrigo Castelo, OutSystems, Portugal
Miguel Mira da Silva, Instituto Superior Técnico, Portugal

Chapter X
The Theory of Deferred Action: Informing the Design of Information Systems for Complexity

Nandish V. Patel, Brunel University, UK

Section III
Innovation, Adoption and Diffusion

Chapter XI
Diffusion of Innovation and Capability Theory in the Context of E-Government

Mahmud Akhter Shareef, Carleton University, Canada
Vinod Kumar, Carleton University, Canada
Uma Kumar, Carleton University, Canada
Ahsan Akhter Hasin, Bangladesh University of Engineering & Technology, Bangladesh

Chapter XII
Evolutionary Diffusion Theory

Linda Wilkins, RMIT University, Australia
Paula Swatman, University of South Australia, Australia
Duncan Holt, RAYTHEON, Australia
Chapter XIII
Contemporary Information Systems Alternative Models to TAM: A Theoretical Perspective .......... 229
Ahmed Y. Mahfouz, Prairie View A&M University, USA

Chapter XIV
Diffusion of Innovations Theory: Inconsistency Between Theory and Practice ................................. 242
Francisco Chia Cua, University of Otago, New Zealand
Tony C. Garrett, Korea University, Republic of Korea

Chapter XV
The Technology Acceptance Model and Other User Acceptance Theories ...................................... 277
Joseph Bradley, University of Idaho, USA

Section IV
Management Theories

Chapter XVI
A Resource-Based Perspective on Information Technology, Knowledge Management, and Firm Performance .......................................................................................................................... 296
Clyde W. Holsapple, University of Kentucky, USA
Jiming Wu, California State University–East Bay, USA

Chapter XVII
Reconfiguring Interaction Through the E-Marketplace: A Transaction Cost Theory Based Approach .................................................................................................................................. 311
Cecilia Rossignoli, University of Verona, Italy
Lapo Mola, University of Verona, Italy
Antonio Cordella, LSE-London School of Economics and Political Science, UK

Chapter XVIII
Applying Social Network Theory to the Effects of Information Technology Implementation ........ 325
Qun Wu, University of Arkansas-Little Rock, USA
Jiming Wu, California State University, East Bay, USA
Juan Ling, Georgia College & State University, USA

Chapter XIX
Competing Commitments Theory ........................................................................................................... 336
John McAvoy, University College Cork, Ireland
Tom Butler, University College Cork, Ireland
Chapter XX
Researching IT Capabilities and Resources: An Integrative Theory of Dynamic Capabilities and Institutional Commitments ........................................................................................................... 348
  
  Tom Butler, University College Cork, Ireland
  Ciaran Murphy, University College Cork, Ireland

Section V
Marketing Theory

Chapter XXI
Toward a Theory of IT-Enabled Customer Service Systems ................................................................. 364
  Tsz-Wai Lui, Cornell University, USA
  Gabriele Piccoli, Università di Sassari, Italy

Chapter XXII
Expectation-Confirmation Theory: Capitalizing on Descriptive Power .................................................. 384
  James J. Jiang, University of Central Florida, USA & National Taiwan University, ROC
  Gary Klein, The University of Colorado at Colorado Springs, USA

Section VI
Sociological and Cultural Theories

Chapter XXIII
Actor Network Theory and IS Research ....................................................................................................... 403
  Amany Elbanna, Loughborough University, UK

Chapter XXIV
Social Capital Theory .......................................................................................................................... 420
  Hossam Ali-Hassan, York University, Canada

Chapter XXV
Cultural Historical Activity Theory ........................................................................................................ 434
  Faraja Teddy Igira, University of Oslo, Norway & Institute of Finance Management, Tanzania
  Judith Gregory, Institute of Design, IIT, USA

Chapter XXVI
Hofstede’s Dimensions of National Culture in IS Research ...................................................................... 455
  Dianne P. Ford, Memorial University of Newfoundland, Canada
  Catherine E. Connelly, McMaster University, Canada
  Darren B. Meister, University of Western Ontario, Canada
Chapter XXVII
What Use is Domestication Theory to Information Systems Research? .................................................. 482
Deirdre Hynes, Manchester Metropolitan University, UK
Helen Richardson, University of Salford, UK

Section VII
Psychological and Behavioral Theories

Chapter XXVIII
Personal Construct Theory .................................................................................................................. 496
Peter Caputi, University of Wollongong, Australia
M. Gordon Hunter, University of Lethbridge, Canada
Felix B. Tan, Auckland University of Technology, New Zealand

Chapter XXIX
Coping with Information Technology ............................................................................................... 516
Anne Beaudry, Concordia University, Canada

Chapter XXX
Holland's Vocational Theory and Personality Traits of Information Technology Professionals ....... 529
John W. Lounsbury, University of Tennessee, Knoxville & eCareerFit.Com, USA
R. Scott Studham, Oak Ridge National Laboratory, USA
Robert P. Steel, University of Michigan-Dearborn, USA
Lucy W. Gibson, eCareerFit.com & Resource Associates, USA
Adam W. Drost, eCareerFit.com, USA

Chapter XXXI
Theory of Planned Behavior and Reasoned Action in Predicting Technology Adoption Behavior .................................................. 544
Mahmud Akhter Shareef, Carleton University, Canada
Vinod Kumar, Carleton University, Canada
Uma Kumar, Carleton University, Canada
Ahsan Akhter Hasin, Bangladesh University of Engineering & Technology, Bangladesh

Compilation of References .................................................................................................................. 563

About the Contributors ....................................................................................................................... 640

Index .................................................................................................................................................. 654
