# Table of Contents

Preface ............................................................................................................................................. xvii

Acknowledgment .............................................................................................................................. xxiii

Chapter 1
Simulation: Body of Knowledge ........................................................................................................ 1
   Istvan Molnar, Bloomsburg University of Pennsylvania, USA

Chapter 2
Simulation Environments as Vocational and Training Tools ................................................................. 15
   Evon M. O. Abu-Taieh, Civil Aviation Regulatory Commission and Arab Academy for
       Financial Sciences, Jordan
   Jeihan M. O. Abutayeh, World Bank, Jordan

Chapter 3
Agent-Based Modeling: A Historical Perspective and a Review of Validation and
Verification Efforts ............................................................................................................................... 28
   Brian L. Heath, Wright State University, USA
   Raymond R. Hill, Air Force Institute of Technology, USA

Chapter 4
Verification and Validation of Simulation Models ................................................................................. 58
   Sattar J. Aboud, Middle East University for Graduate Studies, Jordan
   Mohammad Al-Fayoumi, Middle East University for Graduate Studies, Jordan
   Mohamed Alnuaimi, Middle East University for Graduate Studies, Jordan

Chapter 5
DEVS-Based Simulation Interoperability .............................................................................................. 75
   Thomas Wutzler, Max Planck Institute for Biogeochemistry, Germany
   Hessam Sarjoughian, Arizona Center for Integrative Modeling and Simulation, USA
Chapter 6
Experimental Error Measurement in Monte Carlo Simulation

Lucia Cassettari, University of Genoa, Italy
Roberto Mosca, University of Genoa, Italy
Roberto Revetria, University of Genoa, Italy

Chapter 7
Efficient Discrete Simulation of Coded Wireless Communication Systems

Pedro J. A. Sebastião, Instituto de Telecomunicações, Portugal
Francisco A. B. Cercas, Instituto de Telecomunicações, Portugal
Adolfo V. T. Cartaxo, Instituto de Telecomunicações, Portugal

Chapter 8
Teaching Principles of Petri Nets in Hardware Courses and Students Projects

Hana Kubátová, Czech Technical University in Prague, Czech Republic

Chapter 9
An Introduction to Reflective Petri Nets

Lorenzo Capra, Università degli Studi di Milano, Italy
Walter Cazzola, Università degli Studi di Milano, Italy

Chapter 10
Trying Out Reflective Petri Nets on a Dynamic Workflow Case

Lorenzo Capra, Università degli Studi di Milano, Italy
Walter Cazzola, Università degli Studi di Milano, Italy

Chapter 11
Applications of Visual Algorithm Simulation

Ari Korhonen, Helsinki University of Technology, Finland

Chapter 12
Virtual Reality: A New Era of Simulation and Modelling

Ghada Al-Hudhud, Al-Ahlyia Amman University, Jordan

Chapter 13
Implementation of a DES Environment

Gyorgy Lipovszki, Budapest University of Technology and Economics, Hungary
Istvan Molnar, Bloomsburg University of Pennsylvania, USA

Chapter 14
Using Simulation Systems for Decision Support

Andreas Tolk, Old Dominion University, USA
Chapter 15
The Simulation of Spiking Neural Networks.................................................................337
David Gamez, Imperial College, UK

Chapter 16
An Integrated Data Mining and Simulation Solution ..................................................359
Mouhib Alnoukari, Arab Academy for Banking and Financial Sciences, Syria
Asim El Sheikh, Arab Academy for Banking and Financial Sciences, Jordan
Zaidoun Alzoabi, Arab Academy for Banking and Financial Sciences, Syria

Chapter 17
Modeling and Simulation of IEEE 802.11g using OMNeT++ ....................................379
Nurul I. Sarkar, AUT University, Auckland, New Zealand
Richard Membarth, University of Erlangen-Nuremberg, Erlangen, Germany

Chapter 18
Performance Modeling of IEEE 802.11 WLAN using OPNET: A Tutorial ..................398
Nurul I. Sarkar, AUT University, New Zealand

Chapter 19
On the Use of Discrete-Event Simulation in Computer Networks Analysis and Design ....418
Hussein Al-Bahadili, The Arab Academy for Banking & Financial Sciences, Jordan

Chapter 20
Queuing Theory and Discrete Events Simulation for Health Care: From Basic Processes to
Complex Systems with Interdependencies .................................................................443
Alexander Kolker, Children's Hospital and Health Systems, USA

Chapter 21
Modelling a Small Firm in Jordan Using System Dynamics........................................484
Raed M. Al-Qirem, Al-Zaytoonah University of Jordan, Jordan
Saad G. Yaseen, Al-Zaytoonah University of Jordan, Jordan

Chapter 22
The State of Computer Simulation Applications in Construction ..............................509
Mohamed Marzouk, Cairo University, Egypt

Compilation of References .......................................................................................535

About the Contributors ............................................................................................570

Index .......................................................................................................................578
