Preface .................................................................................................................................................. xv

Acknowledgment.................................................................................................................................. xxi

## Section 1

### System Design

**Chapter 1**
Wireless Networking Credibility, Device Interoperability & Other Important Issues
to Take into Consideration for the Deployment of a Homecare Service Provision Model .............. 1
  
Konstantinos Perakis, National Technical University of Athens, Greece
Dimitris Koutsouris, National Technical University of Athens, Greece

**Chapter 2**
Sensor Networks in Pervasive Healthcare Computing........................................................................ 24
  
Zhilbert Tafa, Belgrade University, Serbia

**Chapter 3**
Next Generation Body Area Networks and Smart Environments for Healthcare .......................... 46
  
Paul Fergus, Liverpool John Moores University, UK
Mark Taylor, Liverpool John Moores University, UK
John Haggerty, University of Salford, UK
Lorna Bracegirdle, Newcastle University, UK & NHS North Liverpool Primary Care Trust, UK
Madjid Merabti, Liverpool John Moores University, UK

**Chapter 4**
From Idea to Use: Lessons Learned from a Participatory ICT Healthcare Case Study...................... 75
  
Henrik Enquist, Sweden

**Chapter 5**
Smart Lifelogging Technology for Episodic Memory Support ............................................................ 92
  
Matthew L. Lee, Carnegie Mellon, USA
Anind K. Dey, Carnegie Mellon, USA
Section 2
Frameworks and Applications

Chapter 6
Resolving and Mediating Ambiguous Contexts in Pervasive Environments ........................................ 122
   Nirmalya Roy, Institute for Infocomm Research, Singapore
   Sajal K. Das, University of Texas at Arlington, USA
   Christine Julien, University of Texas at Austin, USA

Chapter 7
Supporting the Ubiquitous Doctor ........................................................................................................... 148
   Carlos Ferraz, Universidade Federal de Pernambuco, Brazil
   Juliana Diniz, Universidade Federal Rural de Pernambuco, Brazil

Chapter 8
mVITAL: A Standards Compliant Vital Sign Monitor ............................................................................... 174
   Yusuf Ozturk, San Diego State University, USA
   Jayesh Sharma, San Diego State University, USA

Chapter 9
A Highly-Interactive and User-Friendly PHR Application for the Provision of Homecare Services .......... 197
   Vasso Koufi, University of Piraeus, Greece
   Flora Malamateniou, University of Piraeus, Greece
   George Vassilacopoulos, University of Piraeus, Greece

Section 3
Prototypes and Research Infrastructures

Chapter 10
The Portal Monitor: A Privacy-Aware Event-Driven System for Elder Care ........................................... 219
   John F. Duncan, Indiana University, USA
   L. Jean Camp, Indiana University, USA
   William R. Hazlewood, Indiana University, USA

Chapter 11
Interactivating Rehabilitation through Active Multimodal Feedback and Guidance ............................ 236
   Bert Bongers, University of Technology, Australia
   Stuart Smith, Prince of Wales Medical Research Institute, Australia

Chapter 12
Mapping Input Technology to Ability ....................................................................................................... 261
   Ainara Garzo, Fatronik Foundation, Spain
   Stefan P. Carmien, Fatronik Foundation, Spain
   Xabier Madina, XMadina Tecnologia Adaptativa, S.L., Spain
Chapter 13
Restoring Balance: Replacing the Vestibular Sense with Wearable Vibrotactile Feedback .......... 283

Maria Júlia S. Benini, Eindhoven University of Technology, The Netherlands
Marijn Bruinink, Eindhoven University of Technology, The Netherlands
Atike D. Pekel, Eindhoven University of Technology, The Netherlands
Walter A. Talbott, Eindhoven University of Technology, The Netherlands
Albertine Visser, Eindhoven University of Technology, The Netherlands
Panos Markopoulos, Eindhoven University of Technology, The Netherlands

Chapter 14
A Home-Based System to Support Delivery of Health and Social Care ................................. 302

Kenneth J. Turner, University of Stirling, UK

Compilation of References ........................................................................................................ 317

About the Contributors ............................................................................................................. 348

Index ........................................................................................................................................ 357
