Table of Contents

Preface .................................................................................................................................................. xv

Acknowledgment.................................................................................................................................. xx

Section 1
Challenges of Future E-Health Systems

Chapter 1
Patient Centered Medicine and Technology Adaptation................................................................. 1
   Brett Harnett, University of Cincinnati, USA

Chapter 2
Privacy and Security in e-Health Applications .............................................................................. 23
   Milan Petković, Philips Research Europe & Eindhoven University of Technology, The Netherlands
   Luan Ibraimi, University of Twente, The Netherlands

Chapter 3
Foundations of Trust for e-Health .................................................................................................... 49
   Cynthia L. Corritore, Creighton University, USA
   Beverly Kracher, Creighton University, USA
   Susan Wiedenbeck, Drexel University, USA
   Robert Marble, Creighton University, USA

Chapter 4
A Multi-Disciplinary Approach to Ambient Assisted Living ......................................................... 76
   Martina Ziefle, RWTH Aachen University, Germany
   Carsten Röcker, RWTH Aachen University, Germany
   Wiktoria Wilkowska, RWTH Aachen University, Germany
   Kai Kasugai, RWTH Aachen University, Germany
   Lars Klack, RWTH Aachen University, Germany
   Christian Möllering, RWTH Aachen University, Germany
   Shirley Beul, RWTH Aachen University, Germany
Chapter 5
Security in e-Health Applications .............................................................. 94
Victor Pomponiu, University of Torino, Italy

Section 2
User-Centered Design of Assistive Technologies

Chapter 6
An Approach to Participative Personal Health Record System Development ........................................ 119
Vasso Koufi, University of Piraeus, Greece
Flora Malamateniou, University of Piraeus, Greece
George Vassilacopoulos, University of Piraeus, Greece

Chapter 7
How Knowing Who, Where and When Can Change Health Care Delivery ..................................... 139
William D. Kearns, University of South Florida, USA
James L. Fozard, University of South Florida, USA
Rosemarie S. Lamm, University of South Florida Polytechnic, USA

Chapter 8
Integrating Telehealth into the Organization’s Work System .......................................................... 161
Joachim Jean-Jules, Université de Sherbrooke, Canada
Alain O. Villeneuve, Université de Sherbrooke, Canada

Chapter 9
Acceptance of Ambient Assisted Living Solutions in Everyday Life................................................. 195
Annette Spellerberg, University of Kaiserslautern, Germany
Lynn Schelisch, University of Kaiserslautern, Germany

Section 3
Applications for Assisted Living

Chapter 10
Iterative User Involvement in Ambient Assisted Living Research and Development Processes:
Does it Really Make a Difference? ............................................................................... 217
Sonja Müller, empirica, Germany
Ingo Meyer, empirica, Germany
Ilse Bierhoff, Stichting Smart Homes, The Netherlands
Sarah Delaney, Work Research Centre, Ireland
Andrew Sixsmith, Simon Fraser University, Canada
Sandra Sproll, University of Stuttgart, Germany
Chapter 11
Wearable Systems for Monitoring Mobility Related Activities: From Technology to Application for Healthcare Services ................................................................. 244  
Wiebren Zijlstra, University Medical Center Groningen, The Netherlands  
Clemens Becker, Robert Bosch Gesellschaft für medizinische Forschung, Germany  
Klaus Pfeiffer, Robert Bosch Gesellschaft für medizinische Forschung, Germany

Chapter 12
Med-on-@ix: Real-Time Tele-Consultation in Emergency Medical Services – Promising or Unnecessary? ................................................................. 268  
In-Sik Na, University Hospital Aachen, Germany  
Max Skorning, University Hospital Aachen, Germany  
Arnd T. May, University Hospital Aachen, Germany  
Marie-Thérèse Schneiders, RWTH Aachen University, Germany  
Michael Protogerakis, RWTH Aachen University, Germany  
Stefan Beckers, University Hospital Aachen, Germany  
Harold Fischermann, University Hospital Aachen, Germany  
Nadia Frenzel, University Hospital Aachen, Germany  
Tadeusz Brodziak, P3 Communications GmbH, Germany  
Rolf Rossaint, University Hospital Aachen, Germany

Chapter 13
The Smart Condo Project: Services for Independent Living ................................................................. 289  
Nicholas M. Boers, University of Alberta, Canada  
David Chodos, University of Alberta, Canada  
Pawel Gburzynski, University of Alberta, Canada  
Lisa Guirguis, University of Alberta, Canada  
Jianzhao Huang, University of Alberta, Canada  
Robert Lederer, University of Alberta, Canada  
Lili Liu, University of Alberta, Canada  
Ioannis Nikolaidis, University of Alberta, Canada  
Cheryl Sadowski, University of Alberta, Canada  
Eleni Stroulia, University of Alberta, Canada
