Acknowledgment

The editors would like to acknowledge the help of all involved in the elaboration and review process of the handbook, without whose support the project could not have been satisfactorily completed.

We wish to thank all of the authors for their insights, effort and excellent contributions to this handbook. Thanks go also to all those who provided constructive and comprehensive reviews. Most of the authors of chapters included in this handbook also served as referees for chapters written by other authors. Special mention has to be done of Aino Kianto, Igor Hawryszkiewycz, Jon Landeta, Judi Sandrock and Peter Tobin, who served also as referees in the review process.

Special thanks go to the publishing team at IGI Global, whose contributions throughout the whole process from inception of the initial idea to final publication have been invaluable. In particular to Julia Mosemann, who continuously prodded via e-mail for keeping the project on schedule.

And last but not least, Mari Paz Redondo, Nagore Ageitos and Laida Agote, for their unfailing support in the edition process during the months it took to give birth to this handbook.
