Table of Contents

Preface .................................................................................................................................................. xiii

Section 1

Chapter 1
Visual Support for Use Case Modeling: An Experiment to Determine
the Effectiveness of Use Case Diagrams .................................................................................................... 1
Andrew Gemino, Simon Fraser University, Canada
Drew Parker, Simon Fraser University, Canada

Chapter 2
Applying Learner-Centered Design Principles to UML Sequence Diagrams .............................................. 20
Debra VanderMeer, Florida International University, USA
Kaushik Dutta, Florida International University, USA

Chapter 3
Ontology Based Object-Oriented Domain Modeling: Representing Behavior ........................................... 37
Joerg Evermann, Memorial University of Newfoundland, Canada
Yair Wand, The University of British Columbia, Canada

Section 2

Chapter 4
General Strategy for Querying Web Sources in a Data Federation Environment ...................................... 62
Aykut Firat, Northeastern University, USA
Lynn Wu, Massachusetts Institute of Technology, USA
Stuart Madnick, Massachusetts Institute of Technology, USA
Chapter 5
Information Privacy: Understanding How Firms Behave Online .................................................. 81
  Gerald Kane, Boston College, USA
  Kathy Stewart Schwaig, Kennesaw State University, USA
  Veda Storey, Georgia State University, USA

Chapter 6
Reverse Engineering from an XML Document into an Extended DTD Graph............................. 101
  Herbert Shiu, City University of Hong Kong, Hong Kong
  Joseph Fong, City University of Hong Kong, Hong Kong

Chapter 7
Scalable XML Filtering for Content Subscriptions .................................................................... 120
  Ryan Choi, KAIST, Korea
  Raymond Wong, The University of New South Wales, Australia

Section 3

Chapter 8
Towards Autonomic Workload Management in DBMSs............................................................. 154
  Baoning Niu, Taiyuan University of Technology, China & Queen’s University, Canada
  Patrick Martin, Queen’s University, Canada
  Wendy Powley, Queen’s University, Canada

Chapter 9
XTEngine: A Twin Search Engine for XML................................................................................ 174
  Kamal Taha, The University of Texas at Arlington, USA

Chapter 10
Towards Structured Flexibility in Information Systems Development:
Devising a Method for Method Configuration........................................................................... 214
  Fredrik Karlsson, Örebro University, Sweden
  Pär J. Ägerfalk, Uppsala University, Sweden & University of Limerick, Ireland

Chapter 11
On Efficient Evaluation of XML Queries ..................................................................................... 239
  Sherif Sakr, University of New South Wales, Australia
Section 4

Chapter 12
Cost Modeling and Range Estimation for Top-k Retrieval in Relational Databases

Anteneh Ayanso, Brock University, Canada
Paulo Goes, University of Arizona, USA
Kumar Mehta, George Mason University, USA

Chapter 13
Document SQL (DSQL): A Conservative Extension to SQL as an Ad-hoc Querying Frontend

Arijit Sengupta, Wright State University, USA
V. Ramesh, Indiana University, USA

Chapter 14
Range-Sum Queries over High Dimensional Data Cubes Using a Dynamic Grid File

Feng Yu, Southern Illinois University, USA
Cheng Luo, Coppin State University, USA
Xiaoguang Yu, Southern Illinois University, USA
Wen-Chi Hou, Southern Illinois University, USA
Chih-Fang Wang, Southern Illinois University, USA
Michael Wainer, Southern Illinois University, USA
