Table of Contents

Preface .............................................................................................................................................. xxiii
Acknowledgment ............................................................................................................................ xxxiii

Section 1
Supporting Technologies and Tools

Chapter 1
Video Games as Aggregating Mediums and Resulting Products of Several Visual
Communication Languages ........................................................................................................ 1
  Paula Cristina Almeida Tavares, Polytechnic Institute of Cávado and Ave, Portugal
  Pedro Mota Teixeira, Polytechnic Institute of Cávado and Ave, Portugal
  Leonardo Pereira, Polytechnic Institute of Cávado and Ave, Portugal
  Maria Manuela Cruz-Cunha, Polytechnic Institute of Cávado and Ave, Portugal

Chapter 2
AI Design for Believable Characters via Gameplay Design Patterns ........................................... 15
  Petri Lankoski, Aalto University, Finland
  Anja Johansson, Linköping University, Sweden
  Benny Karlsson, Fabrication Games Europe AB, Sweden
  Staffan Björk, Chalmers University of Technology, Sweden
  Pierangelo Dell’Acqua, Linköping University, Sweden

Chapter 3
A Practice-Based Analysis of Social Interaction in a Massively Multiplayer Online
Gaming Environment ..................................................................................................................... 32
  Giannis Milolidakis, Technological Education Institution of Crete, Greece & Euromed
  Management, France
  Chris Kimble, Euromed Management, France
  Corinne Grenier, Euromed Management, France
Chapter 4
Character Animation: Past, Present and Future ................................................................. 49
Verónica Costa Orvalho, Universidade do Porto, Portugal
João Orvalho, Face In Motion, Portugal

Chapter 5
Enhancing Online Games with Agents ............................................................................... 65
Agostino Poggi, Università degli Studi di Parma, Italy

Chapter 6
Questing for Standards: Role Playing Games in Second Life ........................................... 81
Mark G. Elwell, Hakusan International School, Japan

Chapter 7
Artificial Intelligence in Games Evolution
Murillo Guimarães Carneiro, Federal University of Uberlândia, Brazil ............................. 98

Chapter 8
Once Upon a Time: The Convergence of Interactive Storytelling and Computer Games ....... 115
Jouni Smed, University of Turku, Finland

Section 2
Human Computer Interaction

Chapter 9
Game Led HCI Improvements............................................................................................ 126
Michael Barlow, The University of New South Wales at the Australian Defence Force Academy, Australia

Chapter 10
Human-Computer Interaction in Games Using Computer Vision Techniques .................. 146
Vladimir Devyatkov, Bauman Moscow State Technical University, Russia
Alexander Alfimtsev, Bauman Moscow State Technical University, Russia

Chapter 11
Human-Computer Interaction and Artificial Intelligence: Multidisciplinarity Aiming
Game Accessibility .................................................................................................................. 168
Sarajane Marques Peres, University of São Paulo, Brazil
Clodis Boscarioli, Western Paraná State University, Brazil
Jorge Bidarra, Western Paraná State University, Brazil
Marcelo Fantinato, University of São Paulo, Brazil
Chapter 12
Mobile Gaming: Exploring Spaces and Places ................................................................. 185
   Blaine Hoffman, The Pennsylvania State University, USA

Section 3
Psychological, Behavioral and Social Effects

Chapter 13
A Multiplayer Team Performance Task: Design and Evaluation ........................................ 201
   Henry H. Emurian, UMBC, USA
   Gerald C. Canfield, UMBC, USA
   Peter G. Roma, Institutes for Behavior Resources, USA
   Zabecca S. Brinson, Institutes for Behavior Resources, USA
   Eric D. Gasior, Institutes for Behavior Resources, USA
   Robert D. Hienz, Johns Hopkins University School of Medicine, USA
   Steven R. Hursh, Johns Hopkins University School of Medicine, USA
   Joseph V. Brady, Johns Hopkins University School of Medicine, USA

Chapter 14
Emotional Journeys in Game Design Teams ........................................................................ 220
   Patrick Stacey, Imperial College London, UK
   Joe Nandhakumar, University of Warwick, UK

Chapter 15
The Contribution of Videogames to Anti-Social Attitudes and Behaviours amongst Youngsters ........237
   Olga Albuquerque, Escola Secundária Dr Jaime Magalhães Lima, Portugal
   Gillian Grace Moreira, University of Aveiro, Portugal

Chapter 16
Gamer Talk: Becoming Impenetrably Efficient .................................................................... 252
   Matthew Sharritt, Situated Research, LLC, USA
   R. Kelly Aune, University of Hawaii at Manoa, USA
   Daniel D. Suthers, University of Hawaii at Manoa, USA

Chapter 17
   Patrícia Arriaga, ISCTE-IUL, Cis-IUL, Portugal
   Augustas Gaspar, ISCTE-IUL, Cis-IUL, Portugal
   Francisco Esteves, ISCTE-IUL, Cis-IUL, Portugal
Chapter 18
Knowing the Game: A Review of Videogames and Entertainment Software in the United States:
Trends and Future Research Opportunities................................................................. 293
   Julio Angel Ortiz, Harvard University, USA

Chapter 19
Meaningful Video Games: Drama-Based Video Games as Transformational Experience .......... 312
   Stephen Brock Schafer, Digipen Institute of Technology, USA
   Gino Yu, Hong Kong Polytechnic University, Hong Kong

Section 4
Business Opportunities and Applications

Chapter 20
Application of Serious Games in Industrial Contexts.................................................. 331
   Heiko Duin, BIBA Bremer Institut für Produktion und Logistik GmbH, Germany
   Jannicke Baalsrud Hauge, BIBA Bremer Institut für Produktion und Logistik GmbH, Germany
   Felix Hunecker, BIBA Bremer Institut für Produktion und Logistik GmbH, Germany
   Klaus-Dieter Thoben, BIBA Bremer Institut für Produktion und Logistik GmbH, Germany

Chapter 21
Building Customer Relationship through Game Mechanics in Social Games .................... 348
   Juho Hamari, Helsinki Institute for Information Technology HIIT, Finland
   Aki Järvinen, Digital Chocolate, Inc., Finland

Chapter 22
Games and Advertising ................................................................................................. 366
   Inês de Seixas Duarte, Universidade Católica Portuguesa – Porto, Portugal
   António Manuel Valente de Andrade, Universidade Católica Portuguesa – Porto, Portugal

Chapter 23
Business Process Management in the Computer Games Industry .................................... 383
   Fernando Belfo, Polytechnic Institute of Coimbra, Portugal

Chapter 24
New Business Models for the Computer Gaming Industry: Selling an Adventure ............ 401
   Martin Heitmann, Technische Universität Berlin, Germany
   Kay Tidten, Technische Universität Berlin, Germany

Chapter 25
Pluralistic Coordination ............................................................................................... 416
   Peter J. Denning, Naval Postgraduate School, USA
   Fernando Flores, Pluralistic Networks, Inc., USA
   Gloria Flores, Pluralistic Networks, Inc., USA
Chapter 26
Business Opportunities in Social Virtual Worlds .......................................................... 432
   Danny Pannicke, Berlin Institute of Technology, Germany
   Jonas Repschläger, Berlin Institute of Technology, Germany
   Rüdiger Zarnekow, Berlin Institute of Technology, Germany

Chapter 27
How Has the Internet Evolved the Videogame Medium? ................................................ 448
   Kostas Anagnostou, Ionian University, Greece

Section 5
Property Rights

Chapter 28
Computer Games and Intellectual Property Law: Derivative Works, Copyright and Copyleft .... 464
   Pedro Pina, ESTGOH – Polytechnic Institute of Coimbra, Portugal

Chapter 29
Law, Architecture, Gameplay, and Marketing ................................................................. 476
   Peter J. Wasilko, The Institute for End User Computing, Inc., USA

Compilation of References .............................................................................................. 494
