Acknowledgment

Peoples from different sectors have extended their help in the development of concepts and organization of the studies presented in this book. We take this opportunity to convey our regards and gratitude to those scholars who have guided and supported us at various stages of development of this work.

This book would not have been possible without the cooperation and assistance of the authors, advisors, reviewers, our colleagues, and the staff at IGI Global Publishing. The editors would like to thank the people at IGI Global, namely: Kristin M. Klinger for handling the book proposal, Jan Travers for managing the contract, and Joel A. Gamon for managing this project, especially for answering queries and keeping the project on schedule. A special word of thanks also goes to reviewers for their useful and constructive comments that have been incorporated in the final versions of the chapters. We are highly grateful to Dr. Vikas Jain and Dr. Lemuria Carter for providing the forewords.

We bestow our unbounded gratitude and deepest sense of respect to our families whose blessing, concerted efforts, constant encouragement, and wholehearted co-operation enabled us to reach this milestone.
