Table of Contents

Preface .................................................................................................................................................. xiv

Chapter 1
A Meta-Analysis of the Direction and State of Sociotechnical Research in a Range of Disciplines: For Practitioners and Academics ................................................................. 1
   Elayne Coakes, University of Westminster, UK
   Jim Coakes, University of Westminster, UK

Chapter 2
Commentary: My Top Ten Lessons on Learned Systems .............................................................. 42
   Jay Liebotwitz, University of Maryland University College, USA

Chapter 3
Leadership Can Bridge the User-Developer Gap ........................................................................ 46
   David Tuffley, Griffith University, Australia

Chapter 4
Socially-Aware Design: The ‘Slanty’ Approach ............................................................................ 57
   Russell Beale, University of Birmingham, UK

Chapter 5
Externalized Design: Expressing Social Ideas in Software .......................................................... 64
   Anders I. Mørch, University of Oslo, Norway

Chapter 6
Before the Internet: The Relevance of Socio-Technical Systems Theory to Emerging Forms of Virtual Organisation ............................................................... 85
   Ken Eason, Loughborough University, UK

Chapter 7
Sociotechnical Uses of Social Web Tools During Disasters ...................................................... 97
   Liza Potts, Old Dominion University, USA
Chapter 8
Extending Sociotechnical Design to Project Conception: Knowledge Communication Processes for Situating Technology .......................................................... 109

Constance Kampf, University of Aarhus, Denmark

Chapter 9
Online Friction: Studying Micro-Level Sociotechnical Conflicts to Elicit User Experience .......... 123

Jörgen Skågeby, Stockholm University, Sweden

Chapter 10
Socio-Technical Issues of Participatory Design in the Developing World .................................. 136

Lynne Dunckley, Thames Valley University, UK
Souleymane Boundaouda Camara, Thames Valley University, UK
José Abdelnour Nocera, Thames Valley University, UK
Timothy Mwololo Waema, University of Nairobi, Kenya

Chapter 11
Integrating the Semiotic into UML via Enhancing and Cross-Validating Use Case with an Enriched Domain Model .................................................. 147

Samia Oussena, Thames Valley University, UK
Tim French, University of Bedfordshire, UK

Chapter 12
The Implementation of Knowledge Management in Service Businesses .................................. 160

Pei-Di Shen, Ming Chuan University, Taiwan
Tsang-Hsiung Lee, National Chengchi University, Taiwan
Chia-Wen Tsai, Ming Chuan University, Taiwan
Yi-Fen Chen, Yuan Christian University, Taiwan

Chapter 13
Commentary: Research Needed on Cross-Cultural Generational Knowledge Flows ............... 177

Emil Ivanov, Johns Hopkins University, USA
Jay Liebotwitz, University of Maryland University College, USA

Chapter 14
The Essence of Organizational Knowledge: A Social Epistemology Perspective .................. 185

Fei Gao, East China University of Science and Technology Business School, China

Chapter 15
Shifting Legitimation along Information Infrastructures Growth: Local Social Embeddedness, Global Organizational Fields, and Full Scale Coverage .................................................. 195

Gianluca Miscione, University of Twente, The Netherlands
Chapter 16
The Techno Politics of the Ethiopian Nation ................................................................. 206
   Iginio Gagliardone, London School of Economics, UK

Chapter 17
Research on a Case of Technology Transfer Between France and China......................... 223
   Clément Ruffier, ATER Lyon 2 University, France

Chapter 18
Office on the Move: Mobile Phones and Entrepreneurship in China ................................. 232
   Mei Wu, University of Macau, China
   Haiyun Lin, University of Macau, China

Chapter 19
A Deeply Embedded Sociotechnical Strategy for Designing ICT for Development .............. 248
   Andy Dearden, Sheffield Hallam University, UK
   Syed Mohammed Haider Rizvi, Sheffield Hallam University, UK

Chapter 20
Affective Factors for Successful Knowledge Management .............................................. 266
   Peter A.C. Smith, The Leadership Alliance Inc., UK

Compilation of References .......................................................................................... 277

About the Contributors ................................................................................................. 304

Index .............................................................................................................................. 310
