Table of Contents

Preface .............................................................................................................................................. xxii
Acknowledgment ............................................................................................................................... xxii

Section 1
Instructional and Learning Design Foundations

Chapter 1
An Ontological Approach to Online Instructional Design ............................................................... 1
   Robert Z. Zheng, University of Utah, USA
   Laura B. Dahl, University of Utah, USA

Chapter 2
Constructivist Instructional Design: A Blueprint for Online Course Design ............................... 24
   Carlos R. Morales, Lock Haven University, USA

Chapter 3
Classroom-in-a-Box: Rethinking Learning Community Classroom Environment
   Needs within Three-Dimensional Virtual Learning Environments .............................................. 43
   Caroline M. Crawford, University of Houston – Clear Lake, USA
   Virginia Dickenson, (the famed Xenon Darrow in Second Life) eLumenata, USA
   Marion S. Smith, Texas Southern University, USA

Chapter 4
Three Contexts Methodology: Strategies to Bring Reality to the Classroom ............................... 63
   Antonio Santos, Universidad de las Américas Puebla, México

Chapter 5
Creating Supportive Multimedia Learning Environments .............................................................. 88
   Bobbe Gaines Baggio, La Salle University, USA
Chapter 6
Using CPS to Promote Active Learning ......................................................... 106
  Youmei Liu, University of Houston, USA
  Shari Mauthner, University of Houston, USA
  Lindsay Schwarz, University of Houston, USA

Section 2
Instructional Technology Applications

Chapter 7
Wired for Learning—Web 2.0 for Teaching and Learning: Trends, Challenges, and Opportunities for Education ................................................. 119
  Irene Chen, University of Houston-Downtown, USA
  Terry T. Kidd, Texas A&M University, USA

Chapter 8
Revisit Planning Effective Multimedia Instructions ........................................ 131
  Chien Yu, Mississippi State University, USA
  Angela Williams, Mississippi State University, USA
  Chun Fu Lin, Minghsin University of Science & Technology, Taiwan
  Wei-Chieh Yu, Chang Gung Institute of Technology, Taiwan

Chapter 9
Applications of Second Life ......................................................................... 149
  Nicole Buzzetto-More, University of Maryland Eastern Shore, USA

Chapter 10
Using Concept Maps to Enhance Students’ Prior Knowledge in Complex Learning .............. 163
  Robert Z. Zheng, University of Utah, USA
  Laura B. Dahl, University of Utah, USA

Chapter 11
Interface Design, Positive Emotions and Multimedia Learning ...................... 182
  Chaoyan Dong, New York University, USA

Chapter 12
Blogging Minds on Web-Based Educational Projects .................................... 195
  Harrison Hao Yang, State University of New York at Oswego, USA
Chapter 13
Language Simulations for Fostering Language Acquisition and Communicative Competence in Adult Second-Language Learners ................................................................. 210
  Angelene McLaren, Wayne State University, USA

Chapter 14
Amateur Radio in Education ........................................................................................ 223
  Miroslav Skoric, University of Novi Sad, Serbia

Section 3
E-Learning

Chapter 15
My Experience Tells the Story: Exploring Technology Adoption from a Qualitative Perspective - A Pilot Study ................................................................. 247
  Terry T. Kidd, Texas A&M University, USA

Chapter 16
Framing Pedagogy, Diminishing Technology: Teachers Experience of Online Learning Software ................................................................. 263
  Julia Thornton, RMIT University, Australia

Chapter 17
Online Studio Design Pedagogy: Community, Personality, Graphic Design, Usability .... 284
  Bridget Zalewski Sullivan, Towson University, USA

Chapter 18
Using Ontology for Personalized E-Learning in K-12 Education ................................ 301
  Petek Askar, Hacettepe University, Turkey
  Arif Altun, Hacettepe University, Turkey
  Kağan Kalinyazgan, Yuce Schools, Turkey
  S. Serkan Pekince, Yuce Information Systems, Turkey

Chapter 19
A Framework for Developing and Implementing u-Learning Models ............................. 310
  Des Casey, Monash University, Australia
  Janet Fraser, Monash University, Australia

Chapter 20
A Practical Guide to Evaluate Quality of Online Courses ............................................ 324
  Yungwei Hao, National Taiwan Normal University, Taiwan
  Gary Borich, University of Texas at Austin, USA
Chapter 21
Web Accessibility Essentials for Online Course Developers .............................................................. 344

Jozenia Torres Colorado, Emporia State University, USA
Jane H. Eberle, Emporia State University, USA

Chapter 22
Web Accessibility Policy for Students with Disabilities in U.S. Postsecondary Distance Education ................................................................. 357

Heidi L. Wilkes, Northeastern University, USA

Chapter 23
Pulse!!: Designing Medical Learning in Virtual Reality ......................................................................... 374

Claudia L. McDonald, Texas A&M University-Corpus Christi, USA
Jan Cannon-Bowers, University of Central Florida, Orlando, USA
Clint Bowers, University of Central Florida, Orlando, USA

Section 4
Sociocultural Aspects of Instructional Technology

Chapter 24
Multicultural e-Education: Student Learning Style, Culture and Performance ........................................ 392

Kenneth David Strang, Central Queensland University, Australia

Chapter 25
Adaptation-Oriented Culturally-Aware Tutoring Systems: When Adaptive Instructional Technologies Meet Intercultural Education ............................................................ 413

Emmanuel G. Blanchard, ATLAS Laboratory, Canada

Chapter 26
Asian American Perspectives on Education and Technology ............................................................ 431

Deepak Prem Subramony, Grand Valley State University, USA

Section 5
Human Performance

Chapter 27
Key Capabilities, Components, and Evolutionary Trends in Corporate E-Learning Systems ................. 446

Hyo-Joo Han, Georgia Southern University, USA
Geoffrey Dick, University of New South Wales, Australia
Tom Case, Georgia Southern University, USA
Craig Van Slyke, Saint Louis University, USA
Chapter 28
Developing a Model for Information Society Competencies Required by Managers in the Information Society .......................................................... 470
Elizabeth Broos, Netherlands Defence Academy, The Netherlands

Chapter 29
How People Learn with Computer Simulations .......................................................... 485
Douglas L. Holton, Utah State University, USA

Chapter 30
The MORE Model for Faculty Development .......................................................... 505
Walter Wager, Florida State University, USA

Chapter 31
Object-Oriented Faculty Development: Training Teachers with Learning Objects .......... 517
Karen Walsh, Consultant, USA

Chapter 32
Integrated Design of Web-Platform, Offline Supports, and Evaluation System for the Successful Implementation of University 2.0 .......................................................... 533
Soyoung Kim, Yonsei University, Korea
Minyoung Kim, Yonsei University, Korea
Junhee Hong, Kyungwon University, Korea

Compilation of References .................................................................................. 552

About the Contributors ...................................................................................... 608
