Foreword ................................................................................................................................................................. ix
Preface ........................................................................................................................................................................ xii

Section I
Perspectives on Technological Literacy

Chapter I
New Paradigm of Learning and Teaching in a Networked Environment: Implications for ICT
Literacy / Yin Cheong Cheng ................................................................................................................................. 1

Chapter II
Technologies Challenging Literacy: Hypertext, Community Building, Reflection, and Critical Literacy /
Agni Stylianou-Georgiou, Charalambos Vrasidas, Niki Christodoulou, Michalinos Zembylas,
and Elena Landone ........................................................................................................................................... 21

Chapter III
Technological Literacy, Perspectives, Standards, and Skills in the USA / Jared V. Berrett ................. 34

Chapter IV
Globalization, At-Risk Students, and the Reconceptualization of Technological Literacy /
Leonard J. Waks .................................................................................................................................................. 55

Chapter V
ICT in Schools: What is of Educational Value? / Aidan Mulkeen ................................................................. 73

Chapter VI
Web-Based Technologies, Technology Literacy, and Learning / Wan Ng .................................................... 94

Chapter VII
New Media Pathways: Navigating the Links between Home, School, and the Workplace /
Helen Nixon, Stephen Atkinson, and Catherine Beavis .................................................................................. 118

Chapter VIII
Responsible Technologies and Literacy: Ethical and Legal Issues / Elizabeth A. Buchanan and
Tomas A. Lipinski .................................................................................................................................................. 137
| Chapter IX | Internet Chatrooms: E-Space for Youth of the Risk Society / Cushla Kapitzke | 158 |
| Chapter X  | Re-Schooling and Information Communication Technology: A Case Study of Ireland / Roger Austin and John Anderson | 176 |
| Chapter XI | Transforming the K-12 Classroom with ICT: Recognizing and Engaging New Configurations of Student Learning / Colin Baskin | 195 |
| Chapter XII | The Complexities of Measuring Technological Literacy / Marcie J. Bober | 217 |
| Chapter XIII | Systemic Innovations and the Role of Change-Technology: Issues of Sustainability and Generalizability / Chee-Kit Looi, Wei-Ying Lim, Thiam-Seng Koh, and Wei-Loong David Hung | 234 |

**Section II**

Teaching and Learning with Technology

| Chapter XIV | Digital Video in the K-12 Classroom: A New Tool for Learning / Christopher Essex | 247 |
| Chapter XV  | Technology as a Classroom Tool: Learning with Laptop Computers / Ann E. Barron, J. Christine Harmes, and Katherine J. Kemker | 271 |
| Chapter XVI | Tapping into Digital Literacy: Handheld Computers in the K-12 Classroom / Mark van ’t Hooft | 287 |
| Chapter XVII | Digital Literacy and the Use of Wireless Portable Computers, Planners, and Cell Phones for K-12 Education / Virginia E. Garland | 308 |
| Chapter XVIII | Using WebQuests to Support the Development of Digital Literacy and Other Essential Skills at the K-12 Level / Susan E. Gibson | 322 |
| Chapter XIX | Let Them Blog: Using Weblogs to Advance Literacy in the K-12 Classroom / David A. Huffaker | 337 |
| Chapter XX  | Information Problem-Solving Using the Internet / Steven C. Mills | 357 |
| Chapter XXI | How to Teach Using Today’s Technology: Matching the Teaching Strategy to E-Learning Approach / Moti Frank | 372 |
Chapter XXII
Integrating Computer Literacy into Mathematics Instruction / Allan Yuen and Patrick Wong ............... 394

Chapter XXIII
Teaching and Learning with Tablet PCs / Wee Hin Leo Tan and R. Subramaniam ....................... 410

Chapter XXIV
Using Technology to Create Children’s Books for Students by Students / Lyn C. Howell .............. 425

Chapter XXV
Electronic Portfolios and Education: A Different Way to Assess Academic Success / Stephenie M. Hewett ......................................................................................................................... 437

Section III
Issues Related to Teacher Education and School-Based Matters

Chapter XXVI
Teachers and Technology: Engaging Pedagogy and Practice / Karen Cadiero-Kaplan .................... 452

Chapter XXVII
Literacy in K-12 Teacher Education: The Case Study of a Multimedia Resource / Kristina Love .... 469

Chapter XXVIII
Demystifying Constructivism: The Role for the Teacher in New Technology Exploiting Learning Situations / Paul Adams ........................................................................................................ 493

Chapter XXIX
K-12 Educators as Instructional Designers / Kendall Hartley .......................................................... 515

Chapter XXX
Creating a Virtual Literacy Community between High School and University Students / Tamara L. Jetton and Cathy Soenksen ................................................................. 531

Chapter XXXI
Online Learning Communities: Enhancing Learning in the K-12 Setting / Chris Brook and Ron Oliver ......................................................................................................................... 552

Chapter XXXII
Knowledge Management, Communities of Practice, and the Role of Technology: Lessons Learned from the Past and Implications for the Future / Wee Hin Leo Tan, Thiam Seng Koh, and Wei Loong David Hung ........................................................................................................ 573

Chapter XXXIII
The Emerging Use of E-Learning Environments in K-12 Education: Implications for School Decision Makers / Christopher O’Mahony ............................................................................................................ 586

Chapter XXXIV
A Socio-Technical Analysis of Factors Affecting the Integration of ICT in Primary and Secondary Education / Charoula Angeli and Nicos Valanides ............................................................... 604
