# Table of Contents

Foreword ................................................................................................................................. xxxviii

Preface ........................................................................................................................................ xl

Acknowledgment .................................................................................................................... xlv

Volume I

## Section I

### Basic Mobile Multimedia

#### Chapter I
An Introduction to Wireless Multimedia Sensor Networks .................................................. 1

*Elhadi Shakshuki, Acadia University, Canada*

*Xinyu Xing, Acadia University, Canada*

*Haroon Malik, Queen’s University, Canada*

#### Chapter II
Enabling Wireless Multimedia Sensor Networks ................................................................. 17

*Jing Wang, University of Texas at Arlington, USA*

*Guohua Zhang, University of Texas at Arlington, USA*

*Yonghe Liu, University of Texas at Arlington, USA*

#### Chapter III
Research Challenges in Multimedia WiMAX ........................................................................ 36

*Julio Aráu, NEC Laboratories Europe, Germany*

*Paolo Favaro, NEC Laboratories Europe, Germany*

*Daniel Camps-Mur, NEC Laboratories Europe, Germany*

*Xavier Pérez-Costa, NEC Laboratories Europe, Germany*

#### Chapter IV
Engineering Mobile Group Decision Support ..................................................................... 51

*Reinhard Kronsteiner, Johannes Kepler University, Austria*
Chapter V
The Ubiquitous Grid
Patricia Sedlar, Johannes Kepler University, Austria

Chapter VI
Next Generation Mobile Multimedia
Paul Fergus, Liverpool John Moores University, UK
Madjid Merabti, Liverpool John Moores University, UK
Omar Abuelma’atti, Liverpool John Moores University, UK
Amjad Shaheed, Liverpool John Moores University, UK

Chapter VII
Opportunities and Risks for Mobile Decision Support
Reinhard Kronsteiner, Johannes Kepler University, Austria
Bettina Thurnher, Universität Augsburg, Germany

Chapter VIII
Business Model Typology for Mobile Commerce
Volker Derballa, Universität Augsburg, Germany
Key Pousttchi, Universität Augsburg, Germany
Klaus Turowski Universität Augsburg, Germany

Chapter IX
Security, Trust, and Privacy on Mobile Devices and Multimedia Applications
Edgar R. Weippl, Secure Business Austria, Austria
Bernhard Riedl, Secure Business Austria, Austria

Section II
Standards and Protocols

Chapter X
Comparison of Video Coding Standards Used in Mobile Applications
Goran Gvozden, RTL Televizija, Croatia
Mislav Grgic, University of Zagreb, Croatia
Sonja Grgic, University of Zagreb, Croatia
Miran Gosta, Croatian Telecommunication Agency, Croatia

Chapter XI
Routing Algorithms for Mobile Ad Hoc Networks
Saad Harous, University of Sharjah, UAE
Qassim Nasir, University of Sharjah, UAE
Chapter XII
Performance Analysis and Evaluation of IEEE 802.11E MAC in WLANs with Hidden Stations and Multimedia Applications .................................................. 161
Mamun I. Abu-Tair, University of Bradford, UK
Geyong Min, University of Bradford, UK

Chapter XIII
High Speed Packet Access .................................................................................................................. 175
Mario Cvitkovic, University of Zagreb, Croatia
Borivoj Modlic, University of Zagreb, Croatia
Gordan Sisul, University of Zagreb, Croatia

Chapter XIV
Exploring Coverage within Wireless Sensor Networks through Evolutionary Computations .......... 191
Sami Habib, Kuwait University, Kuwait
Maytham Safar, Kuwait University, Kuwait
Mohammed Taha, Kuwait University, Kuwait

Chapter XV
Mobile Image Communication: New Concepts Using JPEG2000 .................................................. 201
René Rosenbaum, University of Rostock, Germany

Chapter XVI
Topic-Based Transparent Replication of Digital Assets ..................................................................... 217
Ulf Wehling, University of Luxembourg, Luxembourg
Steffen Rothkugel, University of Luxembourg, Luxembourg

Section III
Multimedia Information

Chapter XVII
Perception-Based Speech Quality Measurement in Modern Telecommunications ......................... 235
Abdulhussain E. Mahdi, University of Limerick, Ireland

Chapter XVIII
Adaptive Retransmission Scheme for Video Streaming Applications ............................................. 248
Árpád Huszák, Budapest University of Technology and Economics, Hungary
Sándor Imre, Budapest University of Technology and Economics, Hungary

Chapter XIX
Terminals for the Smart Information Retrieval ................................................................................. 263
Gregor Rozinaj, Slovak University of Technology, Slovak Republic
Ján Vrabec, Slovak University of Technology, Slovak Republic
Jozef Čepko, Slovak University of Technology, Slovak Republic
Renata Talafová, Slovak University of Technology, Slovak Republic
Chapter XX
Streaming Multimedia via Peer-to-Peer Systems

Oredope Adetola, University of Essex, UK
Florence Agboma, University of Essex, UK
Antonio Liotta, University of Essex, UK

Chapter XXI
Event-Condition-Action (ECA) Rules for Maintaining the Integrity Constraints of Mobile Databases

Hamidah Ibrahim, Universiti Putra Malaysia, Malaysia
Zarina Dzolkhifli, Universiti Putra Malaysia, Malaysia

Chapter XXII
Context-Aware Capture and Sharing of Mobile Videos

Janne Lahti, VTT Technical Research Centre of Finland, Finland
Sari Järvinen, VTT Technical Research Centre of Finland, Finland
Johannes Peltola, VTT Technical Research Centre of Finland, Finland
Elena Vildjiounaite, VTT Technical Research Centre of Finland, Finland
Marko Palola, VTT Technical Research Centre of Finland, Finland

Chapter XXIII
Video and Data Dissemination in Mobile Broadcasting Environments

Panayotis Fouliras, University of Macedonia, Greece
Christos K. Georgiadis, University of Macedonia, Greece
Athanasios Manitsaris, University of Macedonia, Greece

Chapter XXIV
A Practical Perspective of Building Identification from Low-Resolution Mobile Images

Wanji Mai, Queen’s University Belfast, Northern Ireland
Chris Tweed, Welsh School of Architecture, UK
Peter Hung, National University of Ireland Maynooth, Ireland
Seán McLoone, National University of Ireland Maynooth, Ireland
Ronan Farrell, National University of Ireland Maynooth, Ireland

Chapter XXV
Ubiquitous Access to Adaptive Hypermedia

Chris Stary, University of Linz, Austria

Chapter XXVI
Context Modelling Approaches for Mobile Systems

Danilo Avola, Istituto di Ricerca sulla Popolazione e le Politiche Sociali, Italy
Stefano Paolozzi, Istituto di Ricerca sulla Popolazione e le Politiche Sociali, Italy
Section IV
Mobile Networks

Chapter XXVII
Mobility Support in 4G Heterogeneous Networks for Interoperable M-Health Devices ............... 379
  Eduardo Antonio Viruete Navarro, University of Zaragoza, Spain
  José Ruiz Mas, University of Zaragoza, Spain
  Julián Fernández Navajas, University of Zaragoza, Spain
  Ignacio Martínez Ruiz, University of Zaragoza, Spain

Chapter XXVIII
Novel Results on MBMS Service Provisioning in UMTS/WLAN Heterogeneous Architectures ..... 394
  László Bokor, Budapest University of Technology and Economics, Hungary
  Zoltán Németh, Budapest University of Technology and Economics, Hungary
  István Dudás, Budapest University of Technology and Economics, Hungary
  Sándor Imre, Budapest University of Technology and Economics, Hungary

Chapter XXIX
Quality of Service of Data Broadcasting Algorithms on Erroneous Wireless Channels ............... 421
  Paolo Barsocchi, ISTI-CNR, Italy
  Alan A. Bertossi, University of Bologna, Italy
  M. Cristina Pinotti, University of Perugia, Italy
  Francesco Potortì, ISTI-CNR, Italy

Chapter XXX
Traitor Tracing in Mobile Multimedia Communication ............................................................. 437
  Shiguo Lian, France Telecom R& D Beijing Center, China

Chapter XXXI
Advanced Mobile Multimedia Services with IMS ........................................................................... 452
  Do van Thanh, Norwegian University of Science and Technology & Telenor, Norway
  Ivar Jørstad, Ubisafe AS, Norway

Chapter XXXII
Movement Prediction Oriented Adaptive Location Management .................................................. 464
  Tania Das, West Bengal University of Technology, India
  Abantika Choudhury, West Bengal University of Technology, India
  Debrasish De, West Bengal University of Technology, India

Chapter XXXIII
Subjective and Objective Trustworthiness of Acquaintance Peers ............................................. 484
  Yoshio Nakajima, Tokyo Denki University, Japan
  Alireza Goudarzi Nemati, Seikei University, Japan
  Tomoya Enokido, Rissho University, Japan
  Makoto Takizawa, Seikei University, Japan
Chapter XXXIV
An Improved Particle Swarm Optimization for Indoor Positioning............................... 501

Hui Zhu, Waseda University, Japan
Huan Wang, Waseda University, Japan
Bo Huang, Waseda University, Japan
Yuji Tanabe, Waseda University, Japan
Takaaki Baba, Waseda University, Japan

Volume II

Section V
Applications and Services

Chapter XXXV
Processor for Mobile Applications................................................................. 510

Ben Abdallah Abderazek, University of Aizu, Japan
Arquimedes Canedo, University of Electro-Communications, Japan
Kenichi Kuroda, University of Aizu, Japan

Chapter XXXVI
A Model for Providing Mobile Multimedia Services Over 4G Networks...................... 523

Kashinath Basu, Oxford Brookes University, UK
Muhammad Younas, Oxford Brookes University, UK

Chapter XXXVII
Context-Awareness in Mobile Tourist Guides..................................................... 534

Wieland Schwinger, Johannes Kepler University, Austria
Christoph Grün, Vienna University of Technology, Austria
Birgit Pröll, Johannes Kepler University, Austria
Werner Retschitzegger, Johannes Kepler University, Austria

Chapter XXXVIII
Unlocking the Hidden Power of the Mobile....................................................... 553

Daniel C. Doolan, University College Cork, Ireland
Sabin Tabirca, University College Cork, Ireland
Laurence T. Yang, St. Francis Xavier University, Canada

Chapter XXXIX
Parallel Computing on a Mobile Device.......................................................... 566

Daniel C. Doolan, University College Cork, Ireland
Sabin Tabirca, University College Cork, Ireland
Laurence T. Yang, St. Francis Xavier University, Canada
Chapter XL
From Single to Multiplayer Mobile Bluetooth Gaming ................................................................. 584
   Daniel C. Doolan, University College Cork, Ireland
   Kevin Duggan, University College Cork, Ireland
   Sabin Tabirca, University College Cork, Ireland
   Laurence T. Yang, St. Francis Xavier University, Canada

Chapter XLI
Mobile Agents and Personalized Multimedia Services ............................................................... 595
   Christos K. Georgiadis, University of Macedonia, Greece
   Panayotis Fouliras, University of Macedonia, Greece
   Athanasios Manitsaris, University of Macedonia, Greece

Chapter XLII
Enhancing User Experience with Context-Dependent Tasks in Smart Home .............................. 612
   Hongbo Ni, Northwestern Polytechnical University, China
   Xingshe Zhou, Northwestern Polytechnical University, China
   Zhwen Yu, Kyoto University, Japan
   Daqing Zhang, National Institute of Telecommunications, France

Chapter XLIII
Practical Experience with New Services and Applications Supported by NGN ........................... 628
   Pavol Podhradský, Slovak University of Technology, Slovakia
   Eugen Mikóczy, Slovak University of Technology, Slovakia
   Juraj Matejka, T-Com, Slovak Telekom, a.s., Slovakia
   Ondrej Lábai, Slovak University of Technology, Slovakia
   Róbert Tomek, Slovak University of Technology, Slovakia
   Michal Dungel, Slovak University of Technology, Slovakia
   Ivan Kotuliak, Slovak University of Technology, Slovakia

Chapter XLIV
A Gesture-Based Intuitive Interaction System and its Target Selection Algorithm ....................... 646
   Jong-Woon Yoo, KAIST, Korea
   Yo-Won Jeong, KAIST, Korea
   Yong Song, KAIST, Korea
   Jupyung Lee, KAIST, Korea
   Seung-Ho Lim, KAIST, Korea
   Ki-Woong Park, KAIST, Korea
   Gyudong Shim, KAIST, Korea
   Kyu Ho Park, KAIST, Korea

Chapter XLV
Attention Facilitation via Multimedia Stimulation ........................................................................ 657
   Diego Liberati, Italian National Research Council, Italy
Chapter XLVI
Context Aware Urban Exploration: A Paradigm for Non-Directed Exploration in Mobile Computing .......................................................... 662

Mercedes Paulini, University of Sydney, Australia
Marc Aurel Schnabel, University of Sydney, Australia

Chapter XLVII
Content Adaptation for Heterogeneous Mobile Devices .......................................................... 673

Robert Schmohl, Technische Universität München, Germany
Uwe Baumgarten, Technische Universität München, Germany
Lars Köthner, Comnos GmbH, Germany

Chapter XLVIII
Mobile SNS from the Perspective of Human Self-Extension .......................................................... 688

Roman Y. Shtyk, Waseda University, Japan
Qun Jin, Waseda University, Japan
Shunichi Nakadate, Waseda University, Japan
Norihiro Kandou, Waseda University, Japan
Takeshi Hayata, Waseda University, Japan
Jianhua Ma, Hosei University, Japan

Chapter XLIX
Context-Aware Collaborative Working Environments .......................................................... 702

Stephan Reiff-Marganiec, University of Leicester, UK
Yi Hong, University of Leicester, UK
Hong Qing Yu, University of Leicester, UK
Schahram Dustdar, Vienna University of Technology, Austria
Christoph Dorn, Vienna University of Technology, Austria
Daniel Schall, Vienna University of Technology, Austria
Hong-Linh Truong, Vienna University of Technology, Austria
Sebastien Peray, European Microsoft Innovation Center GmbH, Germany
Marcel Tilly, European Microsoft Innovation Center GmbH, Germany
Giovanni Giuliani, HP European Innovation Center, Italy
Christian Melchiorre, Softeco Sismat SpA, Italy
Simona Stringa, Softeco Sismat SpA, Italy

Chapter L
Design and Implementation of a Mobile and Portable Lifelog Media System .......................................................... 718

Baud Haryo Prananto, Korea Institute of Science and Technology, Korea
Ig-Jae Kim, Korea Institute of Science and Technology, Korea
Hyoung-Gon Kim, Korea Institute of Science and Technology, Korea
Chapter LI
Speech Synthesis and Recognition Based on Mobile Computing Application ........................................ 730
Diego Moreira Alves, Luteran University of Brasil, Brasil
Adriano Petry, Luteran University of Brasil, Brasil
Gilberto Fernandes Marchioro, Luteran University of Brasil, Brasil

Chapter LII
Creating Successful Mobile Viral Marketing Strategies ........................................................................... 743
Dietmar G. Wiedemann, University of Augsburg, Germany
Key Pousttchi, University of Augsburg, Germany

Chapter LIII
Customizable Viewlets: A Generic Approach for the Mobile Web.......................................................... 759
Henrik Stormer, University of Fribourg, Switzerland

Chapter LIV
Text Entry System for Semitic Languages on Mobile Devices ............................................................... 772
Mahieddine Djoudi, University of Poitiers, France
Saad Harous, University of Sharjah, UAE

Chapter LV
Concepts and Architectures for Mobile Context-Aware Applications.................................................. 783
Patrícia Dockhorn Costa, Federal University of Espírito Santo, Brazil
Luís Ferreira Pires, University of Twente, The Netherlands
Marten van Sinderen, University of Twente, The Netherlands

Chapter LVI
Mobility within Rich Multimedia Services.............................................................................................. 804
Frédéric Lassabe, University of Franche-Comté, France
Philippe Canalda, University of Franche-Comté, France
Damien Charlet, Research Associate at INRIA-Rocquencourt (ARLES Project), France
Pascal Chatonnay University of Franche-Comté, France
François Spies, University of Franche-Comté, France

Section VI
Further Readings

Chapter LVII
Mobile Computing: Technology Challenges, Constraints, and Standards........................................... 820
Anastasis A. Sofokleous, Brunel University, UK
Marios C. Angelides, Brunel University, UK
Christos N. Schizas, University of Cyprus, Cyprus
Chapter LXVI
Mobility Prediction for Multimedia Services ................................................................. 961

Damien Charlet, INRIA-Rocquencourt (ARLES Project), France
Frédéric Lassabe, University of Franche-Comté, France
Philippe Canalda, University of Franche-Comté, France
Pascal Chatonnay, University of Franche-Comté, France
François Spies, University of Franche-Comté, France

Chapter LXVII
Distribution Patterns for Mobile Internet Applications .................................................. 975

Roland Wagner, Johannes Kepler University, Austria
Franz Gruber, RISC Software GmbH, Austria
Werner Hartmann, FAW Software Engineering GmbH, Austria
