Acknowledgment

We would like to thank all the authors for their contributions to this project, and also to thank them for their patience and trust during the process. We would like to thank all the reviewers for their hard work, diligence, and time, and for lending us their expertise. We would also be remiss if we failed to extend our gratitude to Danielle S. McNamara, Arthur C. Graesser, and the FLAIRS organization for their key roles in the emergence and growth of ANLP as an independent field of research.
