Table of Contents

Preface................................................................................................................................................... xvii

Acknowledgment.................................................................................................................................... xxii

Section 1
Foundations

Chapter 1
Service Level Agreement (SLA) in Utility Computing Systems....................................................... 1
  Linlin Wu, The University of Melbourne, Australia
  Rajkumar Buyya, The University of Melbourne, Australia

Chapter 2
SLA-Aware Enterprise Service Computing.......................................................................................... 26
  Longji Tang, University of Texas at Dallas, USA
  Jing Dong, University of Texas at Dallas, USA
  Yajing Zhao, University of Texas at Dallas, USA

Chapter 3
Dependability Modeling ......................................................................................................................... 53
  Paulo R. M. Maciel, Federated University of Pernambuco, Brazil
  Kishor S. Trivedi, Duke University, USA
  Rivalino Matias Jr., Federal University of Uberlândia, Brazil
  Dong Seong Kim, Duke University, USA

Chapter 4
Trends and Research Issues in SOA Validation .................................................................................... 98
  Antonia Bertolino, Consiglio Nazionale delle Ricerche, Italy
  Guglielmo De Angelis, Consiglio Nazionale delle Ricerche, Italy
  Antonino Sabetta, Consiglio Nazionale delle Ricerche, Italy
  Andrea Polini, University of Camerino, Italy
Chapter 5
Service-Oriented Collaborative Business Processes .......................................................... 116
Lai Xu, Bournemouth University, UK
Paul de Vrieze, Bournemouth University, UK
Athman Bouguettaya, CSIRO ICT Centre, Australia
Peng Liang, Wuhan University, China
Keith Phalp, Bournemouth University, UK
Sherry Jeary, Bournemouth University, UK

Section 2
Performance

Chapter 6
Performance Management of Composite Applications in Service Oriented Architectures .......... 134
Vinod K. Dubey, Booz Allen Hamilton, USA
Daniel A. Menascé, George Mason University, USA

Chapter 7
High-Quality Business Processes Based on Multi-Dimensional QoS ...................................... 152
Qianhui Liang, HP Labs, Singapore
Michael Parkin, Tilburg University, The Netherlands

Chapter 8
A Game Theoretic Solution for the Optimal Selection of Services ........................................ 172
Salah Merad, Office for National Statistics, UK
Rogério de Lemos, University of Kent, UK
Tom Anderson, Newcastle University, UK

Chapter 9
A Tool Chain for Constructing QoS-Aware Web Services ................................................... 189
Bernhard Hollunder, Furtwangen University of Applied Sciences, Germany
Ahmed Al-Moayed, Furtwangen University of Applied Sciences, Germany
Alexander Wahl, Furtwangen University of Applied Sciences, Germany

Chapter 10
Performance, Availability and Cost of Self-Adaptive Internet Services .................................... 212
Jean Arnaud, INRIA – Grenoble, France
Sara Bouchenak, University of Grenoble & INRIA, France
Section 3
Dependability

Chapter 11
Performability Evaluation of Web-Based Services
Magnos Martinello, Federal University of Espírito Santo (UFES), Brazil
Mohamed Kaâniche, CNRS; LAAS & Université de Toulouse, France
Karama Kanoun, CNRS; LAAS & Université de Toulouse, France

Chapter 12
Measuring and Dealing with the Uncertainty of the SOA Solutions
Yuhui Chen, University of Oxford, UK
Anatoliy Gorbenko, National Aerospace University, Ukraine
Vyacheslav Kharchenko, National Aerospace University, Ukraine
Alexander Romanovsky, Newcastle University, UK

Chapter 13
Achieving Dependable Composite Services Through Two-Level Redundancy
Hailong Sun, Beihang University, China
Jin Zeng, China Software Testing Center, China
Huipeng Guo, Beihang University, China
Xudong Liu, Beihang University, China
Jinpeng Huai, Beihang University, China

Chapter 14
Building Web Services with Time Requirements
Nuno Laranjeiro, University of Coimbra, Portugal
Marco Vieira, University of Coimbra, Portugal
Henrique Madeira, University of Coimbra, Portugal

Chapter 15
Dependability and Security on Wireless Self-Organized Networks: Properties, Requirements, Approaches and Future Directions
Michele Nogueira, Universidade Federal do Paraná, Brazil
Aldri Santos, Universidade Federal do Paraná, Brazil
Guy Pujolle, Sorbonne Universités, France
Section 4
Security

Chapter 16
Engineering Secure Web Services ................................................................. 360
Douglas Rodrigues, Universidade de São Paulo, Brazil
Julio Cezar Estrella, Universidade de São Paulo, Brazil
Francisco José Monaco, Universidade de São Paulo, Brazil
Kalinka Regina Lucas Jaquie Castelo Branco, Universidade de São Paulo, Brazil
Nuno Antunes, Universidade de Coimbra, Portugal
Marco Vieira, Universidade de Coimbra, Portugal

Chapter 17
Approaches to Functional, Structural and Security SOA Testing.......................... 381
Cesare Bartolini, Consiglio Nazionale delle Ricerche, Italy
Antonia Bertolino, Consiglio Nazionale delle Ricerche, Italy
Francesca Lonetti, Consiglio Nazionale delle Ricerche, Italy
Eda Marchetti, Consiglio Nazionale delle Ricerche, Italy

Chapter 18
Detecting Vulnerabilities in Web Services: Can Developers Rely on Existing Tools?......... 402
Nuno Antunes, University of Coimbra, Portugal
Marco Vieira, University of Coimbra, Portugal

Compilation of References .................................................................................. 427

About the Contributors ......................................................................................... 459

Index...................................................................................................................... 472
