Table of Contents

Foreword......................................................................................................................................................xiii

Preface.......................................................................................................................................................... xv

Section 1
Introduction to Industry Oriented Software Education

Chapter 1
Introduction to the Broad Concepts Underlying this Book ............................................................. 1
Matthew Hussey, Dublin Institute of Technology, Ireland

Section 2
International Higher Education Institution-Industry Co-Operation Models

Chapter 2
EMERSION: Education to Meet the Requirements of Software Industry and Beyond - Establishing, Implementing and Evaluating an Industry-Oriented Education Model in China ................................. 26
Bing Wu, Dublin Institute of Technology, Ireland
Kamal Bechkoum, University of Northampton, UK
Deirdre Lawless, Dublin Institute of Technology, Ireland
Xiaofei Xu, Harbin Institute of Technology, China

Chapter 3
Co-Operation Models for Industries and Software Education Institutions ........................................ 39
Yanqing Wang, Harbin Institute of Technology, China

Chapter 4
UB1-HIT Dual Master’s Programme: A Double Complementary International Collaboration Approach ........................................................................................................ 57
David Chen, IMS-University of Bordeaux 1, France
Bruno Vallespir, IMS-University of Bordeaux 1, France
Jean-Paul Bourrières, IMS-University of Bordeaux 1, France
Thècle Alix, IMS-University of Bordeaux 1, France
Section 3
Curriculum Issues

Chapter 5
A Holistic Approach to Software Engineering Education
Tugrul Esendal, De Montfort University, UK
Simon Rogerson, De Montfort University, UK

Chapter 6
Industry Oriented Curriculum and Syllabus Creation for Software Engineering Series
Courses in the School of Software
Yushan Sun, Harbin Institute of Technology at Wehei, China

Chapter 7
Problems First
Gary Hill, University of Northampton, UK
Scott Turner, University of Northampton, UK

Chapter 8
A New Industry-Centred Module on Structured Parallel Programming
Horacio González-Vélez, Robert Gordon University, UK

Chapter 9
Open and Closed Practicals for Enterprise Resource Planning (ERP) Learning
Andrés Boza, Universitat Politècnica de València, Spain
Llanos Cuenca, Universitat Politècnica de València, Spain

Chapter 10
Curriculum Issues in Industry Oriented Software Engineering Education
Alok Mishra, Atilim University, Turkey
Deepi Mishra, Atilim University, Turkey

Section 4
International Academic Quality Assurance

Chapter 11
Seven Factors for the Quality Assurance of International Higher Education
Ciarán O’Leary, Dublin Institute of Technology, Ireland
Section 5
E-Learning and Support Tools

Chapter 12
An Ontology-Based Learning System in IT Project Management ........................................... 191
  Constanta-Nicoleta Bodea, Academy of Economic Studies, Romania

Compilation of References ........................................................................................................ 211

About the Contributors .......................................................................................................... 226

Index ....................................................................................................................................... 231
