# Table of Contents

 Preface .................................................................................................................................................. xl
 Acknowledgment ................................................................................................................................... xliv

 Volume I

Section 1
Overview

Chapter 1
Web X.0: A Road Map ............................................................................................................................ 1
  San Murugesan, Multimedia University, Malaysia & University of Western Sydney, Australia

Chapter 2
An Overview and Differentiation of the Evolutionary Steps of the Web X.Y Movement:
The Web Before and Beyond 2.0 ........................................................................................................ 12
  Sebastian Weber, Fraunhofer Institute for Experimental Software Engineering (IESE), Germany
  Jörg Rech, Fraunhofer Institute for Experimental Software Engineering (IESE), Germany

Section 2
Web Modeling and Design

Chapter 3
A Model-Driven Engineering Approach for Defining Rich Internet Applications:
A Web 2.0 Case Study ........................................................................................................................... 40
  Francisco Valverde, Universidad Politécnica de Valencia, Spain
  Oscar Pastor, Universidad Politécnica de Valencia, Spain
  Pedro Valderas, Universidad Politécnica de Valencia, Spain
  Vicente Pelechano, Universidad Politécnica de Valencia, Spain
Chapter 4
Modular and Systematic Interface Design for Rich Internet Applications ........................................... 59
Gustavo Rossi, UNLP and Conicet, Argentina
Mattias Urbieta, UNLP and Conicet, Argentina
Jeronimo Ginzburg, FC EyN, UBA, Argentina

Chapter 5
Towards Web 2.0 Applications: A Conceptual Model for Rich Internet Applications ...................... 75
Alessandro Bozzon, Politecnico di Milano, Italy
Sara Comai, Politecnico di Milano, Italy
Piero Fraternali, Politecnico di Milano, Italy
Giovanni Toffetti Carughi, Università della Svizzera Italiana, Switzerland

Chapter 6
A Tool for Model-Driven Design of Rich Internet Applications Based on AJAX .......................... 96
Marco Brambilla, Politecnico di Milano, Italy
Piero Fraternali, Politecnico di Milano, Italy
Emanuele Molteni, Web Models S.r.l., Italy

Chapter 7
Web 2.0: Self-Managing System Based on SOA Model and Grid Computing Overlay ................... 119
Wail M. Omar, Sohar University, Sultanate of Oman

Section 3
Web Architecture

Chapter 8
An Overview of and Criteria for the Differentiation and Evaluation of RIA Architectures............... 135
Marcel Linnenfelser, Synflag Web Engineering, Germany
Sebastian Weber, Fraunhofer Institute for Experimental Software Engineering (IESE), Germany
Jörg Rech, Fraunhofer Institute for Experimental Software Engineering (IESE), Germany

Chapter 9
The Layered Virtual Reality Commerce System (LaVRCS): Proposing an Immersive
Web X.0 Framework for E-Commerce ........................................................................................................... 159
Alan Rea, Western Michigan University, USA

Chapter 10
Mobile Service Oriented Architecture (MSOA) for Businesses in the Web 2.0 Era ...................... 178
Ming-Chien (Mindy) Wu, University of Western Sydney, Australia
Bhuvan Unhelkar, University of Western Sydney & MethodScience.com, Australia
Chapter 11
Towards Web 3.0: A Unifying Architecture for Next Generation Web Applications ............................................... 192
Tzanetos Pomonis, University of Patras, Greece
Dimitrios A. Koutsomitropoulos, University of Patras, Greece
Sotiris P. Christodoulou, University of Patras, Greece
Theodore S. Papatheodorou, University of Patras, Greece

Section 4
Information Search, Bookmarking, and Tagging

Chapter 12
Web 2.0—Social Bookmarking: An Overview of Folksonomies ................................................................. 206
Richard Derham, University of Canterbury, New Zealand
Annette Mills, University of Canterbury, New Zealand

Chapter 13
Social Semantic Bookmarking with SOBOLEO ............................................................................................... 225
Valentin Zacharias, FZI Research Center for Information Technology, Germany
Simone Braun, FZI Research Center for Information Technology, Germany
Andreas Schmidt, FZI Research Center for Information Technology, Germany

Chapter 14
Social Bookmarking and Web Search ............................................................................................................ 242
Yusuke Yanbe, Kyoto University, Japan
Adam Jatowt, Kyoto University, Japan
Satoshi Nakamura, Kyoto University, Japan
Katsumi Tanaka, Kyoto University, Japan

Chapter 15
Social Tagging: Properties and Applications ................................................................................................. 260
Yong Yu, Shanghai Jiao Tong University, China
Rui Li, Shanghai Jiao Tong University, China
Shenghua Bao, Shanghai Jiao Tong University, China
Ben Fei, IBM China Research Lab, China
Zhong Su, IBM China Research Lab, China

Chapter 16
Improving Cross-Language Information Retrieval by Harnessing the Social Web .......................................... 277
Diana Irina Tanase, University of Westminster, UK
Epaminondas Kapetanios, University of Westminster, UK
Chapter 17
Leveraging User-Specified Metadata to Personalize Image Search .................................................. 296
Kristina Lerman, USC Information Sciences Institute, USA
Anon Plangprasopchok, USC Information Sciences Institute, USA

Section 5
Semantic Analysis and Semantic Web

Chapter 18
Accessing, Analyzing, and Extracting Information from User Generated Contents ......................... 312
Paolo Casoto, University of Udine, Italy
Antonina Dattolo, University of Udine, Italy
Paolo Omero, University of Udine, Italy
Nirmala Pudota, University of Udine, Italy
Carlo Tasso, University of Udine, Italy

Chapter 19
Wiki Semantics via Wiki Templating................................................................. 329
Angelo Di Iorio, University of Bologna, Italy
Fabio Vitali, University of Bologna, Italy
Stefano Zacchirolì, Università Paris Diderot, France

Chapter 20
Towards Disambiguating Social Tagging Systems........................................................................... 349
Antonina Dattolo, University of Udine, Italy
Silvia Duca, University of Bologna, Italy
Francesca Tomasi, University of Bologna, Italy
Fabio Vitali, University of Bologna, Italy

Section 6
Web Quality, Trust, Security, and Effort Estimation

Chapter 21
Modeling Content Quality for the Web 2.0 and Follow-on Applications........................................... 371
Roberto Sassano, University of Trento, Italy
Luis Olsina, National University of La Pampa, Argentina
Luisa Mich, University of Trento, Italy
Chapter 22
A New Web Site Quality Assessment Model for the Web 2.0 Era................................................................. 387

Minseok Pang, University of Michigan at Ann Arbor, USA
Woojong Suh, Inha University, South Korea
Jinwon Hong, Inha University, South Korea
Jongho Kim, Hyundai Research Institute, South Korea
Heeseok Lee, Korea Advanced Institute of Science and Technology, South Korea

Chapter 23
Electronic Reputation Systems ......................................................................................................................... 411

Mario Paolucci, LABSS-ISTC-CNR, Italy
Stefano Picascia, LABSS-ISTC-CNR, Italy
Samuele Marmo, LABSS-ISTC-CNR, Italy

Chapter 24
Improving the Information Security of Collaborative Web Portals via Fine-Grained Role-Based Access Control........................................................................................................................ 430

S. Demurjian, University of Connecticut, USA
H. Ren, University of Connecticut, USA
S. Berhe, University of Connecticut, USA
M. Devineni, Serebrum Cooperation, USA
Sushil Vegad, Serebrum Cooperation, USA
K. Polineni, Serebrum Cooperation, USA

Chapter 25
Web 2.0 Effort Estimation .............................................................................................................................. 449

Emilia Mendes, The University of Auckland, New Zealand

Volume II

Section 7
Educational Applications

Chapter 26
A Social Web Perspective of Software Engineering Education........................................................................... 472

Pankaj Kamthan, Concordia University, Canada

Chapter 27
University 2.0: Embracing Social Networking to Better Engage the Facebook-Generation in University Life.......................................................................................................................... 496

David Griffin, Leeds Metropolitan University, UK
Chapter 28
On Using Wiki as a Tool for Collaborative Online Blended Learning................................. 511
Steve Wheeler, University of Plymouth, UK

Chapter 29
Integration of Web 2.0 Collaboration Tools into Education: Lessons Learned.................. 522
Phillip Olla, Madonna University, USA
Elena Qureshi, Madonna University, USA

Chapter 30
ECHO: A Layered Model for the Design of a Context-Aware Learning Experience........... 539
Hadas Weinberger, HIT – Holon Institute of Technology, Israel

Chapter 31
Advancing Learning Through Virtual Worlds ....................................................................... 556
Steve Mahaley, Duke Corporate Education, USA
Robin Teigland, Stockholm School of Economics, Sweden

Chapter 32
Virtual Reality 2.0 and Its Application in Knowledge Building........................................ 573
Johannes Moskaliuk, University of Tuebingen, Germany
Joachim Kimmerle, University of Tuebingen, Germany
Ulrike Cress, Knowledge Media Research Center, Germany

Chapter 33
Student and Faculty Use and Perceptions of Web 2.0 Technologies in Higher Education...... 593
Haya Ajjan, University of North Carolina at Charlotte, USA
Richard Hartshorne, University of North Carolina at Charlotte, USA
Richard E. Ferdig, Kent State University, USA

Chapter 34
Social Issues and Web 2.0: A Closer Look at Culture in E-Learning.................................. 613
Bolanle A. Olaniran, Texas Tech University, USA
Hansel Burley, Texas Tech University, USA
Maiga Chang, Athabasca University, Canada

Section 8
Enterprise 2.0, Healthcare, Finance, and Other Applications

Chapter 35
Enterprise 2.0: Leveraging Prosumerism 2.0 Using Web 2.0 and Web 3.0....................... 630
Chaka Chaka, Walter Sisulu University, South Africa
Chapter 36
Capturing Online Collaboration in the Design Elements Model for Web 2.0 and Beyond
T. Andrew Yang, University of Houston-Clear Lake, USA
Dan J. Kim, University of Houston-Clear Lake, USA
Tri Vu, University of Houston-Clear Lake, USA
Vishal Dhalwani, University of Houston-Clear Lake, USA

Chapter 37
A Comparative Analysis of Online Social Networking Sites and Their Business Models
T. Andrew Yang, University of Houston-Clear Lake, USA
Dan J. Kim, University of Houston-Clear Lake, USA

Chapter 38
Healthcare 2.0: The Use of Web 2.0 in Healthcare
Shakib Manouchehri, University of Kassel, Germany
Udo Winand, University of Kassel, Germany

Chapter 39
Using a Web-Based Collaboration Portal and Wiki for Making Health Information Technology Decisions
R. Crowell, University of Connecticut Health Center, USA
T. Agresta, University of Connecticut Health Center, USA
M. J. Cook, University of Connecticut Health Center, USA
J. Fifield, University of Connecticut Health Center, USA
S. Demurjian, University of Connecticut, USA
S. Carter, Community Health Centers, Inc., USA
I. Becerra-Ortiz, Fair Haven Community Health Center, USA
L. Tracey, StayWell Health Care, Inc., USA
S. Vegad, Serebrum Corporation, USA
K. Polineni, Serebrum Corporation, USA

Chapter 40
Assessing the Total Cost of Ownership of Virtual Communities: The Case of the Berlin Stock Exchange
Jan vom Brocke, University of Liechtenstein, Principality of Liechtenstein
Christian Sonnenberg, University of Liechtenstein, Principality of Liechtenstein
Christoph Lattemann, University of Potsdam, Germany
Stefan Stieglitz, University of Potsdam, Germany
Chapter 41
Connecting the Real World with the Virtual World: The SmartRFLib RFID-Supported Library System on Second Life .......................................................... 720
Katinka Kromwijk, ETH Zurich, Switzerland
Çağrı Balkesen, ETH Zurich, Switzerland
Gautier Boder, ETH Zurich, Switzerland
Nihal Dindar, ETH Zurich, Switzerland
Florian Keusch, ETH Zurich, Switzerland
Ali Şengül, ETH Zurich, Switzerland
Nesime Tatbul, ETH Zurich, Switzerland

Chapter 42
Embracing the Social Web for Managing Patterns ............................................. 733
Pankaj Kamthan, Concordia University, Canada

Chapter 43
Extending and Applying Web 2.0 and Beyond for Environmental Intelligence .......... 748
Bhuvan Unhelkar, University of Western Sydney & MethodScience.com, Australia
Bharti Trivedi, DD University, India

Section 9
Social Web: Foundations, Analysis, and Visualisation

Chapter 44
Social Software and Web 2.0: Their Sociological Foundations and Implications ............ 764
Christian Fuchs, University of Salzburg, Austria

Chapter 45
Sociology of Virtual Communities and Social Software Design .............................. 790
Daniel Memmi, University of Quebec in Montreal, Canada

Chapter 46
Online Human Activity Networks (OnHANs): An Analysis Based on Activity Theory .......... 804
Dan J. Kim, University of Houston-Clear Lake, USA
T. Andrew Yang, University of Houston-Clear Lake, USA
Ninad Naik, University of Houston-Clear Lake, USA

Chapter 47
Visualising Social Networks in Collaborative Environments ..................................... 817
Stephen T. O’Rourke, The University of Sydney, Australia
Rafael A. Calvo, The University of Sydney, Australia
Chapter 48
The Discourses of Empowerment and Web 2.0: The Dilemmas of User-Generated Content ............. 828
Yasmin Ibrahim, University of Brighton, UK

Chapter 49
How Employees Can Leverage Web 2.0 in New Ways to Reflect on Employment and Employers ......................................................................................................................... 846
James Richards, Heriot-Watt University, UK

Chapter 50
Privacy Implications and Protection in the New Ubiquitous Web Environment ......... 863
Charalampos Z. Patrikakis, National Technical University of Athens, Greece
Ioannis G. Nikolakopoulos, National Technical University of Athens, Greece
Athanasios S. Voulodimos, National Technical University of Athens, Greece

Epilogue ............................................................................................................................................. 878

Compilation of References ............................................................................................................. 880
