Table of Contents

Foreword ............................................................................................................................................xvi
Preface ..............................................................................................................................................xviii
Acknowledgment ..............................................................................................................................xxx

Section 1
Aspects of the Research Field

Chapter 1
The Influence Upon Design of Differing Conceptions of Teaching and Learning with Technology .......... 1
  Adrian Kirkwood, The Open University, UK
  Linda Price, The Open University, UK

Chapter 2
The Outcomes-Based Approach: Concepts and Practice in Curriculum and Educational Technology Design ...........................................................................................................................21
  Maureen Tam, The Hong Kong Institute of Education, Hong Kong

Chapter 3
Instructional Design for Technology-Based Systems .................................................................................38
  Gary R. Morrison, Old Dominion University, USA
  Gary J. Anglin, University of Kentucky, USA

Chapter 4
The Next Generation: Design and the Infrastructure for Learning in a Mobile and Networked World ............................................................................................................................57
  Agnes Kukulska-Hulme, The Open University, UK
  Chris Jones, The Open University, UK
Section 2
Integrating Arenas Through Designed Learning and Teaching

Chapter 5
Using Online Data for Student Investigations in Biology and Ecology .................................................. 80
Nancy M. Trautmann, Cornell Lab of Ornithology, USA
Colleen M. McLinn, Cornell Lab of Ornithology, USA

Chapter 6
Towards an Activity-Driven Design Method for Online Learning Resources................................. 101
Trond Eiliv Hauge, University of Oslo, Norway
Jan Arild Dolonen, University of Oslo, Norway

Chapter 7
Informed Design of Educational Activities in Online Learning Communities....................................... 118
Urban Carlén, University of Skövde, Sweden
Berner Lindström, University of Gothenburg, Sweden

Chapter 8
Boundless Writing: Applying a Transactional Approach to Design of a Thesis Course in Higher Education ................................................................. 135
Jimmy Jaldemark, Mid Sweden University, Sweden

Chapter 9
Authentic Tasks Online: Two Experiences .............................................................................................. 152
Tel Amiel, Universidade Estadual de Campinas (UNICAMP), Brazil
Jan Herrington, Murdoch University, Australia

Section 3
Emerging Educational Technologies

Chapter 10
Designing for Learning in Computer-Assisted Health Care Simulations ........................................ 167
Lars O. Häll, Umeå University, Sweden
Tor Söderström, Umeå University, Sweden

Chapter 11
The Impact of Instructional Simulation Use on Teaching and Learning: A Case Study .................... 193
Michael C. Johnson, Brigham Young University, USA
Charles R. Graham, Brigham Young University, USA
Su-Ling Hsueh, Brigham Young University, USA
Chapter 12
3D Virtual Worlds in Higher Education ................................................................. 212
   Lucia Rapanotti, The Open University, UK
   Shailey Minocha, The Open University, UK
   Leonor Barroca, The Open University, UK
   Maged N. Kamel Boulos, University of Plymouth, UK
   David R. Morse, The Open University, UK

Chapter 13
Debating Across Borders ...................................................................................... 241
   Mats Deutschmann, Umeå University, Sweden

Chapter 14
Designing Learning Ecosystems for Mobile Social Media ........................................ 270
   Jari Multisilta, University of Helsinki, Finland

Chapter 15
Mobile Learning in Higher Education ..................................................................... 292
   Rui Zeng, University of Texas Health Science Center at Houston, USA
   Eunice Luyegu, Franklin University, USA

Chapter 16
Designing for Active Learning: Putting Learning into Context with Mobile Devices ........ 307
   Carl Smith, London Metropolitan University, UK
   Claire Bradley, London Metropolitan University, UK
   John Cook, London Metropolitan University, UK
   Simon Pratt-Adams, Anglia Ruskin University, UK

Section 4
Informed Design Models and Educational Technology

Chapter 17
Fostering NCL in Higher Education: New Approaches for Integrating Educational
Technology Instructional Design into Teachers’ Practice ........................................... 331
   Serena Alvino, Institute for Educational Technologies, National Research Council, Italy
   Guglielmo Trentin, Institute for Educational Technologies, National Research Council, Italy

Chapter 18
Social Network Informed Design for Learning with Educational Technology ............... 352
   Caroline Haythornthwaite, University of British Columbia, Canada
   Maarten de Laat, Open Universiteit Nederland, The Netherlands
Chapter 19
Designing a Model for Enhanced Teaching and Meaningful E-Learning ........................................ 375
  Heli Ruokamo, University of Lapland, Finland
  Päivi Hakkarainen, University of Lapland, Finland
  Mikka Eriksson, University of Lapland, Finland

Chapter 20
An Ecological Approach to Instructional Design: The Learning Synergy of Interaction and Context .......................................................................................................................... 393
  Paul Resta, The University of Texas at Austin, USA
  Debby Kalk, The University of Texas at Austin, USA

Chapter 21
Multi-Faceted Professional Development Models Designed to Enhance Teaching and Learning within Universities .......................................................................................................................... 412
  Donald E. Scott, University of Calgary, Canada
  Shelleyann Scott, University of Calgary, Canada

Section 5
Changing Educational Practices Through Informed Choices of Design

Chapter 22
  Michael Hammond, University of Warwick, UK
  Jie Hu, University of Chongqing, China

Chapter 23
Instructional Technical and Pedagogical Design: Teaching Future Teachers Educational Technology .......................................................................................................................... 452
  Anne T. Ottenbreit-Leftwich, Indiana University, USA
  Mark O. Millard, Indiana University, USA
  Peter van Leusen, Indiana University, USA

Chapter 24
Priorities in the Classroom: Pedagogies for High Performance Learning Spaces ........................................ 474
  Robert Emery Smith, Stanford University, USA
  Helen L. Chen, Stanford University, USA
  Menko Johnson, Stanford University, USA
  Alyssa J. O'Brien, Stanford University, USA
  Cammy Huang-DeVoss, Stanford University, USA

About the Contributors .................................................................................................................. 496
