Preface .......................................................................................................................................................................... xii

Acknowledgment ............................................................................................................................................................... xv

## Section 1
### Technologies

**Chapter 1**
Distributed Multiresolution Transform Based Framework for Watermarking ...... 1  
  *Gaurav Bhatnagar, University of Windsor, Canada*  
  *Jonathan Wu, University of Windsor, Canada*  
  *Balasubramanian Raman, Indian Institute of Technology Roorkee, India*

**Chapter 2**
Masking Models and Watermarking: A Discussion on Methods and Effectiveness ........................................................................................................... 30  
  *Mirko Luca Lobina, University of Cagliari, Italy*  
  *Daniele D. Giusto, University of Cagliari, Italy*  
  *Davide Mula, European University of Rome, Italy*

**Chapter 3**
Multimedia Content Encryption for Secure Multimedia Communication .......... 64  
  *Shiguo Lian, France Telecom (Orange Labs) Beijing, China*

**Chapter 4**
Advancement on Damage-Less Watermark Extraction Using Non-Linear Feature Extraction Scheme Trained on Frequency Domain ...................... 98  
  *Kensuke Naoe, Keio University, Japan*  
  *Yoshiyasu Takefuji, Keio University, Japan*
Chapter 5
Property Protection and User Authentication in IP Networks through Challenge-Response Mechanisms: Present, Past and Future Trends................. 133

Giaime Ginesu, University of Cagliari, Italy
Mirko Luca Lobina, University of Cagliari, Italy
Daniele D. Giusto, University of Cagliari, Italy

Chapter 6
Access Control on Semantic Web Data Using Query Rewriting.................. 164

Jian Li, Hong Kong Baptist University, China
William K. Cheung, Hong Kong Baptist University, China

Chapter 7
An Auction Mechanism Considering Seat Reservations in Movie Theater Services................................................................. 193

Nariaki Nishino, The University of Tokyo, Japan
Koji Fukuya, The University of Tokyo, Japan
Kanji Ueda, National Institute of Advanced Industrial Science and Technology, Japan & The University of Tokyo, Japan

Section 2
Institutional Studies

Chapter 8
Legal Protection of the Web Page................................................................. 213

Davide Mula, European University of Rome, Italy
Mirko Luca Lobina, University of Cagliari, Italy

Chapter 9
Collaborative Production, the Knowledge Commons and the Application of Open Content Licenses.................................................. 237

Natalie Pang, Nanyang Technological University, Singapore

Chapter 10
Managing Collective Intelligence in Semantic Communities of Interest ....... 261

Stefano Montanelli, Università degli Studi di Milano, Italy
Silvana Castano, Università degli Studi di Milano, Italy
Alfio Ferrara, Università degli Studi di Milano, Italy
Gaia Varese, Università degli Studi di Milano, Italy
Chapter 11
A Social Bookmarking-Based People Search Service: Building Communities of Practice with Collective Intelligence ........................................ 289

Jeff J.S. Huang, National Central University, Taiwan
Stephen J.H. Yang, National Central University, Taiwan
Jeng C.C Chen, National Central University, Taiwan
Irene Y.S. Li, National Central University, Taiwan
Indy Y.T. Hsiao, National Central University, Taiwan

Compilation of References ........................................................................................................ 306

About the Contributors ............................................................................................................ 337
