# Table of Contents

Foreword ................................................................................................................................................. viii  
Preface .................................................................................................................................................... x  
Acknowledgment .................................................................................................................................... xviii  

## Chapter 1  
E-Simulations for Educating the Professions in Blended Learning Environments ....................... 1  
  Dale Holt, Deakin University, Australia  
  Stephen Segrave, Deakin University, Australia  
  Jacob Cybulski, Deakin University, Australia  

## Section 1  
Theorising the Nature of Design for Authentic Learning and E-Simulations  

## Chapter 2  
Reappraising Design Practice ............................................................................................................. 25  
  Roderick C. Sims, University of New England, Australia  

## Chapter 3  
Real Experiences with Virtual Worlds ............................................................................................... 41  
  Andrew Cram, Macquarie University, Australia  
  John G. Hedberg, Macquarie University, Australia  

## Chapter 4  
Design of an Authentic E-Learning Environment ............................................................................. 57  
  Theo J. Bastiaens, Fernuniversität in Hagen, Germany
Section 2
E-Simulation Learning Designs in Action

Chapter 5
E-Simulations for the Purpose of Training Forensic (Investigative) Interviewers
Belinda Guadagno, Deakin University, Australia
Martine Powell, Deakin University, Australia

Chapter 6
Professional Midwifery Education: Blended Teaching and Learning Approaches
Diane Phillips, Deakin University, Australia

Chapter 7
Evaluating the Impact of a Virtual Emergency Room Simulation for Learning
Luke Rogers, University of Ballarat, Australia
Charlynn Miller, University of Ballarat, Australia
Sally Firmin, University of Ballarat, Australia

Chapter 8
Designing Simulations for Professional Skill Development in Distance Education: A Holistic Approach for Blended Learning
Deborah Murdoch, Charles Sturt University, Australia
Chris Bushell, Charles Sturt University, Australia
Stephanie Johnson, Charles Sturt University, Australia

Chapter 9
Peter Kandlbinder, University of Technology Sydney, Australia
Scott Brunero, Prince of Wales Hospital, Australia

Chapter 10
Blended Learning Designs Facilitated by New Media Technologies Including E-Simulations for Pharmacy and Other Health Sciences
Gregory Duncan, Monash University, Australia
Ian Larson, Monash University, Australia

Chapter 11
Integrating E-Simulations in Teaching Business Information Systems
Jacob Cybulski, Deakin University, Australia
Lemai Nguyen, Deakin University, Australia
Chapter 12
Developing Professional Competence in Project Management Using E-Simulation on Campus...... 198
Ian Searle, RMIT University, Australia
Hossein Zadeh, RMIT University, Australia

Chapter 13
Using E-Simulations in Retail Sales Training: Benefits of Blended Learning Design...................... 215
Virpi Slotte, AAC Global, Finland
Anne Herbert, Aalto University School of Economics, Finland

Chapter 14
Based on Gaming Technology within a Problem-Based Learning Pedagogy ........................................ 233
Michael Garrett, Edith Cowan University, Australia
Mark McMahon, Edith Cowan University, Australia

Chapter 15
Media Effects: E-Simulations and Authentic “Blended” Learning .................................................. 255
Kristin Demetrious, Deakin University, Australia

Chapter 16
Through the Looking Glass: Immersive Interfaces for Participant Engagement
in Blended E-Learning Environments ................................................................................................ 271
Janette Grenfell, Deakin University, Australia
Ian Warren, Deakin University, Australia

Section 3
Developing Knowledge and Building Capacities for E-Simulations

Chapter 17
A Framework for Designing Mainstream Educational E-Simulations ............................................ 293
Jacob Cybulski, Deakin University, Australia

Chapter 18
Supporting the Design of Interactive Scenarios in a University Environment:
Techniques, Issues and Constraints ................................................................................................. 316
T. M. Stewart, Massey University, New Zealand

Chapter 19
Scenario-Based Learning: Experiences in the Development and Application
of a Generic Teaching Software Tool............................................................................................. 346
Audrey Jinks, The University of Queensland, Australia
Geoff Norton, The University of Queensland, Australia
Matt Taylor, The University of Queensland, Australia
Terry Stewart, Massey University, New Zealand
