Table of Contents

Preface .................................................................................................................................................... v

Chapter 1
Low Carbon Economy-Finance and Technology Models ................................................................. 1
    S. Sureshkukar, National Institute for Interdisciplinary Science and Technology, India

Chapter 2
Carbon Markets and Investments: EcoSecurities Investment Case Analysis ............................. 15
    J. Zambujal-Oliveira, Technical University of Lisbon, Portugal
    Miguel R. Henriques, IST, Technical University of Lisbon, Portugal
    Rui Henriques, IST, Technical University of Lisbon, Portugal

Chapter 3
Firms’ Banking and Pooling in the EU ETS (2005-2007) .............................................................. 34
    Julien Chevallier, Université Paris Dauphine, France
    Johanna Etner, Université Paris Descartes & ESG Management School, France
    Pierre-André Jouvet, Université Paris Ouest Nanterre La Défense, France

Chapter 4
Mind the Gap Please! Contrasting Renewable Energy Investment Strategies between the World Bank and Poor Customers in Developing Countries ........................................ 50
    Sam Wong, University of Liverpool, UK

Chapter 5
Alternatives to the Global Financial Sector: Local Complementary Currencies, LETS, and Time Backed Currencies ........................................................................................................ 64
    Carl Adams, University of Portsmouth, UK
    Simon Mouatt, Southampton Solent University, UK

Chapter 6
Low Carbon Economy and Developing Countries: A Case of Nepalese Forest .......................... 79
    Raghu Bir Bista, Tribhuvan University, Nepal
Chapter 7
Transition to Low-Carbon Hydrogen Economy in America: The Role of Transition Management
Jacqueline C.K. Lam, The University of Hong Kong, China
Peter Hills, The University of Hong Kong, China

Chapter 8
Operational Hedging Strategies to Overcome Financial Constraints during Clean Technology Start-Up and Growth
S. Sinan Erzurumlu, Babson College, USA
Fehmi Tanrisever, Eindhoven University of Technology, The Netherlands
Nitin Joglekar, Boston University, USA

Chapter 9
Warehouse Financing Risk Analysis and Measurement with Case Study in Carbon Trading
Ying Yin, The University of Hong Kong, China
Zongwei Luo, The University of Hong Kong, China

Chapter 10
Modeling Closed Loop Supply Chain Systems
Roberto Poles, University of Melbourne, Australia

Chapter 11
Bike Transportation System Design
Avninder Gill, Thompson Rivers University, Canada

Chapter 12
Data Center Technology Roadmap
Tugrul Daim, Portland State University, USA
Timothy R. Anderson, Portland State University, USA
Mukundan Thirumalai, Portland State University, USA
Ganesh Subramanian, Portland State University, USA
Nitin Katarya, Portland State University, USA
Dhanabal Krishnaswamy, Portland State University, USA
Neelu Singh, Portland State University, USA
