Acknowledgment

SIGIGE’s IDM research program has been funded by the National Research Foundation of Singapore. We are grateful to the authors of the chapters for working with us in our journey. We are also grateful to the institutions involved – NTU, USC, SMU, MSU, Leipzig University, MMTC (Jonkoping) – for allowing us the discretion to pursue what were then the lonely by-ways of new media research. Our delightful undergraduate assistants – Alyssa Lee and Ma Vengmov – are deeply thanked for their patience and persistence with proofreading and formatting the documents. As SIGIDE moves into its second phase of active industry and international engagements, we welcome contact with likeminded researchers in the IDM eco-system.
