Acknowledgment

The editors would like to thank all members of the Editorial Advisory Board. Their contributions and suggestions have made a positive impact on this book. Specifically, due recognition goes to Fabrice Meriaudeau of University of Bourgogne, Naeem Azeemi of COMSATS Institute of Information Technology, Kishore Pochiraju of Stevens Institute of Technology, Martin Reczko of Synaptic Ltd., Ifikhar Ahmad of Nokia, Nidal Kamel of Universiti Teknologi Petronas, Umer Zeeshan Ijaz of University of Cambridge, and Asifullah Khan of Pakistan Institute of Engineering and Applied Sciences.

The editors would also like to acknowledge all the reviewers for providing their professional support to this book through their valuable and constructive reviews. Each chapter in the book went through multiple reviews, and the editors appreciate the time and the technical support provided by the reviewers in this regard. The reviewers include Abdul Majid of Pakistan Institute of Engineering and Applied Sciences, Andreas F. Koschan of University of Tennessee, Antonios Gasteratos of Democritus University of Thrace, Aurelian Ovidius Trufasu of Politehnica University of Bucharest, Fakhreddine Ababsa of University of Evry Val d’Essonne, Hiroki Takada of University of Fukui, Ibrahima Faye of Universiti Teknologi Petronas, Mannan Saeed of Gwangju Institute of Science and Technology, Mercedes Farjas of Universidad Politécnica de Madrid, Muzaffar Dajalov of Yeungnam University, Song Zhang of Iowa State University, and Tae-Seong Kim of Kyung Hee University.

The editors acknowledge support of Department of Electrical and Electronic Engineering at Universiti Teknologi Petronas, Bio Imaging Research Center at Gwangju Institute of Science and Technology, Department of Electronic Engineering, Faculty of Engineering and Green Technology at Universiti Tunku Abdul Rahman, Perak, Malaysia, and Center for Intelligent Signal and Imaging Research at Universiti Teknologi Petronas.

Finally the editors express their appreciation for IGI Global who gave us the opportunity for editing this book. We would like to acknowledge IGI Global and its entire staff for providing professional support during all the phases of book development. Specifically, we would like to mention Michael Killian (Assistant Development Editor), who provided us assistance during all the phases in the preparation of this book.

Aamir Saeed Malik, Tae-Sun Choi, Humaira Nisar
