Foreword........................................................................................................................................... xvii
Preface ................................................................................................................................................ xix
Acknowledgment .............................................................................................................................. xxvi

Section 1
Regulatory Impacts

Chapter 1
Government Policies to Promote Production and Consumption of Renewable Electricity in the US 1
   Eun-Hee Kim, George Washington University, USA

Chapter 2
Assessing the Barriers to Greener Fiscal Measures and Ecological Tax Reform in the Transport Sector 19
   David Browne, Trinity College, The University of Dublin, Ireland
   Brian Caulfield, Trinity College, The University of Dublin, Ireland
   Margaret O’Mahony, Trinity College, The University of Dublin, Ireland

Chapter 3
European Energy Security and Sustainability: The Russian Perspective 38
   Anatoly Zhuplev, Loyola Marymount University, USA
   Dmitry A. Shtykhno, Plekhanov Russian University of Economics, Russia

Chapter 4
Renewable Energy in Italy: Incentives, Bureaucratic Obstacles and Nimby Syndrome 68
   Stefano Fanetti, University of Milan, Italy
Section 2
Policies and Incentives

Chapter 5
Technology Roadmapping—An Efficient Tool for Driving Regional Technological Changes: Case of Energy Efficiency in the NorthWest US ................................................................. 88
  Tugrul U. Daim, Portland State University, USA
  Terry Oliver, US Department of Energy, USA
  Ibrahim Iskin, Portland State University, USA
  Jisun Kim, US Department of Energy, USA

Chapter 6
Production Costs and Net Energy Balance of Liquid and Gaseous Biofuels: Some Regional Studies ....................................................................................................................... 114
  Filippo Randelli, University of Florence, Italy

Chapter 7
Climate Change, Fuel Efficiency and Tax Revenues: A Case Study of Brazil and the USA.......... 128
  Bruno Soares Moreira Cesar Borba, Federal University of Rio de Janeiro, Brazil
  Régis Rathmann, Federal University of Rio de Janeiro, Brazil
  David Alves Castelo Branco, Federal University of Rio de Janeiro, Brazil

Chapter 8
Globalization of the Environmental Issues: Response of the Arab Region................................. 147
  Ibrahim Abdel Gelil, Arabian Gulf University, Kingdom of Bahrain

Chapter 9
Energy, Environment and Socio-Economic Development: Africa’s Triple Challenge and Options......................................................................................................................... 166
  Divine Odame Appiah, Kwame Nkrumah University of Science and Technology, Ghana
  Francis Kemausuor, Kwame Nkrumah University of Science and Technology, Ghana

Section 3
Experiences, Actions, and Models

Chapter 10
Finding the Sweet Spot of Sustainability in the Energy Sector: A Systems Approach to Managing the Canadian Oil Sands......................................................................................... 184
  Nancy Higginson, University of Calgary, Canada
  Harrie Vredenburg, University of Calgary, Canada
Chapter 11
The Development of a Business Model for Exploiting Geothermal Energy:
A Finnish National Project

Esa Stenberg, University of Turku, Finland

202

Chapter 12
Use of Policy Instruments to Promote Sustainable Energy Practices and Implications for the Environment: Experiences from Singapore

Leo Tan Wee Hin, Singapore National Academy of Science, Singapore &
National University of Singapore, Singapore
R. Subramaniam, Singapore National Academy of Science, Singapore &
Nanyang Technological University, Singapore

219

Chapter 13

Young-Doo Wang, University of Delaware, USA
Wei-Ming Chen, University of Delaware, USA
Yong-Kyu Park, University of Delaware, USA

236

Chapter 14
Climate Change Policies—Mitigation and Adaptation at the Local Level:
The Case of the City of Madrid (Spain)

Lara Lázaro Touza, IE University, Spain & Verde Economista, Mexico
Elena López-Gunn, Water Observatory Botin Foundation, Spain & IE University, Spain

261

Chapter 15
EU—GCC Clean Energy Cooperation: From Concepts to Action

Haris Doukas, National Technical University of Athens, Greece
Ioanna Makarouni, National Technical University of Athens, Greece
Charikleia Karakosta, National Technical University of Athens, Greece
Vangelis Marinakis, National Technical University of Athens, Greece
John Psarras, National Technical University of Athens, Greece

288

Section 4
Communications Policies

Chapter 16
Community Opposition and Public Engagement with Wind Energy in the UK

Matthew Cotton, University of Leeds, UK

310
Chapter 17
Eleftheria Vasileiadou, VU University Amsterdam, The Netherlands

Chapter 18
Grenelle Environment Project: An Institutional Tool for Building Collaborative Environmental
Policies at a National Level ........................................................................................................348
Clara Pusceddu, University of Sassari, Italy

Chapter 19
Developing Sustainable Governance Systems for Regional Sustainability Programmes and
‘Green’ Business Practices: The Case of ‘Green’ Timber .........................................................365
Tim Cadman, University of Southern Qld, Australia
Margee Hume, University of Southern Qld, Australia

Compilation of References ........................................................................................................383

About the Contributors ............................................................................................................425

Index ........................................................................................................................................434
