Human Computer Interaction
Development and Management

Table of Contents

Foreword ...............................................................................................vii

Preface ..................................................................................................viii

Chapter 1. Towards User-Oriented Control of End-User Computing in Large Organizations ................................................................. 1
  Neil McBride, DeMontfort University, United Kingdom
  A. Trevor Wood-Harper, University of Salford, United Kingdom
  and University of South Australia, Australia

Chapter 2. On-Line User Interaction with Electronic Catalogs:
  Language Preferences Among Global Users ..................................18
  Aryya Gangopadhyay and Zhensen Huang
  University of Maryland Baltimore County, USA

Chapter 3. End Users as Expert System Developers? .................31
  Christian Wagner, City University of Hong Kong, China

Chapter 4. Designing End-User Geographic Information
  Systems .................................................................................................53
  Lawrence West, Jr., University of Central Florida, USA

Chapter 5. Hypermedia Document Management: A Metadata and
  Meta-Information System .................................................................71
  Woojong Suh and Heeseok Lee
  Korea Advanced Institute of Science and Technology, Korea

Chapter 6. An Adaptive Probe-Based Technique to Optimize Join
  Queries in Distributed Internet Databases .....................................93
  Latifur Khan, University of Texas at Dallas, USA
  Dennis McLeod and Cyrus Shahabi, University of Southern California, USA
Chapter 7. Strategies for Managing EUC on the Web .......... 117
R. Ryan Nelson, University of Virginia, USA
Peter Todd, University of Houston, USA

Chapter 8. Exploring the Measurement of End User Computing Success ......................................................... 134
Conrad Shayo, California State University of San Bernardino, USA
Ruth Guthrie, California Polytechnic University of Pomona, USA
Magid Igbaria, Claremont Graduate University, USA

John G. Gammack, Murdoch University, Australia

Chapter 10. An Information Systems Design Framework for Facilitating TQM Implementation ........................................ 174
Nazim U. Ahmed, Ball State University, USA
Ramarathnam Ravichandran, Design Systems, USA

Chapter 11. Methodology of Schema Integration for New Database Applications: A Practitioner’s Approach .................. 194
Joseph Fong, City University of Hong Kong, China
Kamalakar Karlapalem, Hong Kong University of Science & Technology, China
Qing Li and Irene Kwan, Hong Kong Polytechnic University, China

Chapter 12. CMU-WEB: A Conceptual Model for Designing Usable Web Applications ............................................ 219
Akhilesh Bajaj and Ramayya Krishnan
Carnegie Mellon University

Chapter 13. The Effects of Using a Triangulation Approach of Evaluation Methodologies to Examine the Usability of a University Website ................................................................. 243
Dana H. Smith, Zhensen Huang, Jennifer Preece and Andrew Sears
University of Maryland, Baltimore County, USA

Arno Scharl, Vienna University of Economics, Austria
Chapter 15. Usability: Changes in the Field – A Look at the System Quality Aspect of Changing Usability Practices ........................................ 261
Leigh Ellen Potter, Griffith University, Queensland, Australia

Chapter 16. Facilitating End User Database Development by Working with Users’ Natural Representations of Data .................. 271
Valerie J. Hobbs and Diarmuid J. Pigott
Murdoch University, Australia

Chapter 17. User Developed Applications: Can End Users Assess Quality? ........................................................................................................... 289
Tanya J. McGill, Murdoch University, Australia

Chapter 18. Toward an Understanding of the Behavioral Intention to Use A Groupware Application ................................................ 304
Yining Chen and Hao Lou, Ohio University, USA

About the Editor .................................................................................. 314

Index .................................................................................................. 315
