Human Computer Interaction Research in Web Design and Evaluation

Table of Contents

Preface .............................................................................................................................................. vi

Section I: Introduction and Theoretical Foundations

Chapter I
The Usability Engineering Behind User-Centered Processes for Web Site Development Lifecycles .................................................................................................................................................. 1
Theresa A. O’Connell, Humans & Computers, Inc., USA
Elizabeth D. Murphy, U.S. Census Bureau, USA

Chapter II
How Users View Web Pages: An Exploration of Cognitive and Perceptual Mechanisms .................................................................................................................................................... 22
Rebecca A. Grier, Aptima, Inc., USA
Philip Kortum, Rice University, USA
James T. Miller, AT&T Labs, USA
Chapter III
A Qualitative Study in User’s Information-Seeking Behaviors on Web Sites:
A User-Centered Approach to Web Site Development ............................................. 42
Napawan Sawasdichai, King Mongkut’s Institute of Technology, Ladkrabang, Thailand

Section II: Analysis

Chapter IV
Understanding the Nature of Task Analysis in Web Design ..................................... 78
Rod Farmer, The University of Melbourne, Australia
Paul Gruba, The University of Melbourne, Australia

Section III: Design

Chapter V
From Behavior to Design: Answering the Questions of Who and What to Build
Human-Centered Products and Information Systems ............................................. 108
Catherine Forsman, USA

Chapter VI
Design Methods for Experience Design ...................................................................... 130
Marie Jefsioutine, University of Central England - Birmingham, UK
John Knight, University of Central England - Birmingham, UK

Chapter VII
Innovations in Collaborative Web Design: Methods to Facilitate
Team Learning During Design .................................................................................... 148
Madelon Evers, Human Shareware, Kapelstraat, The Netherlands

Chapter VIII
Information Architecture and Navigation Design for Web Sites .............................. 165
David Benyon, Napier University, Scotland

Chapter IX
A Methodology for Web Accessibility Development and Maintenance ............... 185
Julio Abascal, University of the Basque Country, Spain
Myriam Arrue, University of the Basque Country, Spain
Markel Vigo, University of the Basque Country, Spain
Section IV: Evaluation

Chapter X
Usability Evaluation

Zhijun Zhang, UsabilityHome.com, USA

Chapter XI
Walkthroughs in Web Usability: Cognitive, Activity, and Heuristic Walkthrough

Hokyoung Ryu, Massey University, New Zealand

Chapter XII
User-Centered Evaluation of Personalized Web Sites:
What’s Unique?

Sherman R. Alpert, IBM T. J. Watson Research Center, USA
John G. Vergo, IBM T. J. Watson Research Center, USA

Chapter XIII
Remote Usability Evaluation of Web Interfaces

Naouel Moha, University of Montreal, Canada
Ashraf Gaffar, Concordia University, Canada
Gabriel Michel, University of Metz, France

Chapter XIV
Modelling Interactive Behavior with a Rational Cognitive Architecture

David Peebles, University of Huddersfield, UK
Anna L. Cox, University College London, UK
