# Human Factors in Information Systems

## Table of Contents

- **Foreword** ................................................................. vii  
  Edward Szewczak & Coral Snodgrass, Canisius College, USA

- **Preface** .......................................................................... x

- **Chapter 1. Beyond Models of National Culture in Information Systems Research** ........................................... 1  
  Michael D. Myers and Felix B. Tan  
  University of Auckland, New Zealand

- **Chapter 2. Human-Centred Methods in Information Systems: Boundary Setting and Methodological Choice** .......................................................... 20  
  Steve Clarke, University of Luton Business School, UK  
  Brian Lehaney, University of Coventry, UK

- **Chapter 3. The Human Side of Information Systems Development: A Case of an Intervention at a British Visitor Attraction** ............................... 31  
  Brian Lehaney, Steve Clarke and Vikki Kimberlee,  
  The University of Luton Business School, United Kingdom  
  Sarah Spencer-Matthews, Swinburne University of Technology, Australia

- **Chapter 4. Human Factors in Interface Design: An Analytical Survey and Perspective** ................................................................. 45  
  Qiyang Chen, Montclair State University, USA  
  Vinai Sharma, University of Medicine & Dentistry of New Jersey, USA

- **Chapter 5. Motivation for Using Information Technology** .................. 55  
  Donaldo de Souza Dias, Federal University of Rio de Janeiro, Brazil
Chapter 6. Toward a Theory-Based Measurement of Culture ........... 61
  Detmar Straub and Karen Loch, Georgia State University, USA
  Roberto Evaristo, University of Illinois, USA
  Elena Karahanna, University of Georgia, USA
  Mark Srite, University of Wisconsin-Milwaukee, USA

Chapter 7. Personal Information Privacy and Internet Technology ... 83
  Edward J. Szewczak, Canisius College, USA

Chapter 8. The Everyday Practice of Information: Tales from
  the Field ........................................................................................................ 93
  Andrew Wenn, Victoria University of Technology, Australia

Chapter 9. Cultural Problems in Applying SSM for IS
  Development .................................................................................................... 104
  Trevor T. Moores, Emporia State University, USA
  Frank H. Gregory, Independent Consultant, Chiang Mai, Thailand

Chapter 10. Between Individuals and Teams: Human Resource Manage-
  ment in the Software Sector ....................................................................... 117
  Pat Finnegan, University College Cork, Ireland
  John Murray, Deloitte & Touche Tomhatsu, Ireland

Chapter 11. Theoretical Classification of Technological Frames:
  A Diagnostic Tool to Incorporate Information Technology
  into Organizations ...................................................................................... 135
  Jeimy J. Cano, Newport University, USA

Chapter 12. Organizational Actions, Computer Attitudes and End-
  User Satisfaction in Public Organizations: An Empirical Study .......... 153
  Adel M. Aladwani, Kuwait University, Kuwait

Chapter 13. Hiring in the Post-Reengineering Environment:
  A Study Using Situationally Conditioned Belief ................................... 169
  Laura Lally, Hofstra University, USA
  Brian Garbushian, Frederic R. Harris, Inc., USA

Chapter 14. The Effect of Attitudes, Goal Setting and Self-
  Efficacy on End User Performance .......................................................... 180
  I. M. Jawahar and B. Elango, Illinois State University, USA

Chapter 15. Getting the Spirit of Office Technologies! Does the
  Internal Organization Environment Support or Constrain? ............. 194
  Huub J. M. Ruel, University of Twente, The Netherlands
Chapter 16. The Effect of Individual Differences on Computer Attitudes: An Empirical Study .................................................................211
Claudia Orr, David Allen and Sandra Poindexter
Northern Michigan University, USA

Chapter 17. The Importance of Having a Multidimensional View of IT End-User Relationships for the Successful Restructuring of IT Departments .................................................................................................241
A. C. Leonard, University of Pretoria, South Africa

Chapter 18. Computer Mediated Communication: The Power of Email as a Driver for Changing the Communication Paradigm ..........253
Dianne Willis, Leeds Metropolitan University, UK

Chapter 19. The Influence of Experience, Culture and Spatial Visualization Ability on Users’ Attitudes and Anxiety Towards Computer Use ........................................................................................................269
Pieter Blignaut, Theo McDonald and Janse Tolmie
University of Orange Free State, South Africa

Chapter 20. Ethics, Authenticity and Emancipation in Information Systems Development .................................................................281
Stephen K. Probert, Cranfield University, UK

Chapter 21. Deception and Reality: A Challenge for the Information and Knowledge Management Function .................................287
W. Hutchinson, Edith Cowan University, Western Australia
M. Warren, Deakin University, Australia

Elayne Coakes, University of Westminster, UK
Dianne Willis, Doncaster College, UK

Sofiane Sahraoui, American University of Sharjah, United Arab Emirates
