# Table of Contents

Foreword ........................................................................................................................................... xiv

Preface ................................................................................................................................................ xvi

Acknowledgment ............................................................................................................................. xviii

## Section 1
Informatic Tools in Oral Medical Research

### Chapter 1
Development of Artificial mouths for In Vitro Studies of Aroma from Liquid and Solid Foods......... 1  
*Gaëlle Arvisenet, Food Aroma Research Laboratory, ENITIAA, France*  
*Pauline Poinot, Food Aroma Research Laboratory, ENITIAA, France*  
*Carole Prost, Food Aroma Research Laboratory, ENITIAA, France*

### Chapter 2
Proteomics and Related Applications in Oral Cancer and Sjögren’s Syndrome ................................. 17  
*Shen Hu, University of California, USA*

### Chapter 3
Systems Approach to Understanding Oral Diseases ........................................................................... 29  
*Amit Chattopadhyay, NIDCR, National Institutes of Health, USA*

### Chapter 4
Novel Approaches to Study Activity-Dependent Regulation of Neurotrophins and Neuropeptides in Sensory Pathways from Orofacial Tissues ................................................................................. 46  
*Agnieszka Balkowiec, Oregon Health & Science University, USA*  
*Ewa Balkowiec-Iskra, Medical University of Warsaw, Poland*
Section 2
Informatic Tools in Oral Diagnostic Technologies

Chapter 5
Current Molecular Technologies for Assessing the Amount of Microbial Pathogens in Oral Plaque Biofilms

Hans-Peter Horz, RWTH Aachen University Hospital, Germany
Georg Conrads, RWTH Aachen University Hospital, Germany

Chapter 6
HPV Detection and Genotyping Using the Luminex xMAP Technology

Marios Kambouris, Yale University School of Medicine, USA
Vasiliki Chini, Shafallah Medical Genetics Center, Qatar
Andriani Daskalaki, Max-Planck-Institute for Molecular Genetics, Germany

Chapter 7
Time Sequencing and Force-Mapping with Integrated Electromyography to Measure Occlusal Parameters

Robert B. Kerstein, Tufts University School of Dental Medicine, USA

Chapter 8
Selective Laser Melting in Dentistry

Roland Strietzel, BEGO Bremer Goldschlaegerei, Germany

Section 3
3D-Visualization in Oral Diagnosis

Chapter 9
Techniques for the Generation of 3D Finite Element Meshes of Human Organs

C. Lobos, Joseph Fourier University, France
Y. Payan, Joseph Fourier University, France
N. Hitschfeld, Universidad de Chile, Chile

Chapter 10
Finite Element Analysis and Its Application in Oral Surgery Research

Mercedes Gallas, University of Santiago de Compostela, Spain

Chapter 11
The Use of Three-Dimensional Reconstructions in the Diagnosis of Impacted Teeth

M. M. Bornstein, University of Bern, Switzerland
P. Pazera, University of Bern, Switzerland
C. Katsaros, University of Bern, Switzerland
Chapter 12
Accuracy of the First Integrated Cone-Beam System for Computer Aided Implantology
Timo Dreiseidler, University of Cologne, Germany
Jörg Neugebauer, University of Cologne, Germany
Lutz Ritter, University of Cologne, Germany
Daniel Rothamel, University of Cologne, Germany
Robert A. Mischkowski, University of Cologne, Germany
Jochim E. Zöller, University of Cologne, Germany

Chapter 13
Imaging in Periodontology: 2D versus 3D Visualization Techniques
B. Vandenberghe, Katholieke Universiteit Leuven, Belgium
O. Nackaerts, Katholieke Universiteit Leuven, Belgium

Section 4
Bioinformatic Applications in Bacterial Identification

Chapter 14
Meta-Analysis Approach for the Identification of Molecular Networks Related to Infections of the Oral Cavity
Andriani Daskalaki, Max-Planck-Institute for Molecular Genetics, Germany
Axel Rasche, Max-Planck-Institute for Molecular Genetics, Germany

Chapter 15
A Comprehensive Evaluation of the Virulence of Oral Flora
Yoshihisa Yamashita, Kyushu University Faculty of Dental Science, Japan
Toru Takeshita, Kyushu University Faculty of Dental Science, Japan

Section 5
Informatic Tools in the Management of Dental Care

Chapter 16
Automated Telephone Services in Dentist Appointment Management
Reima Suomi, Helsinki University of Technology Lahti Center, Finland
Ari Serkkola, Helsinki University of Technology Lahti Center, Finland
Markku Mikkonen, Social and Health Affairs Department in the City of Lahti, Finland
