Table of Contents

Preface............................................................................................................................................. xviii

Chapter 1
Using Ontology Languages for Conceptual Modeling................................................................. 1
Palash Bera, Texas A&M International University, USA
Anna Krasnoperova, Bootlegger, Canada
Yair Wand, University of British Columbia, Canada

Chapter 2
Modeling Design Patterns for Semi-Automatic Reuse in System Design................................. 29
Galia Shlezinger, Technion-Israel Institute of Technology, Israel
Iris Reinhartz-Berger, University of Haifa, Israel
Dov Dori, Technion-Israel Institute of Technology, Israel

Chapter 3
Energy and Latency Efficient Access of Wireless XML Stream ............................................. 57
Jun Pyo Park, Korea University, Korea
Chang-Sup Park, Dongduk Women’s University, Korea
Yon Dohn Chung, Korea University, Korea

Chapter 4
Toward a Unified Model of Information Systems Development Success ................................ 80
Keng Siau, University of Nebraska-Lincoln, USA
Yoanna Long, Colorado State University Pueblo, USA
Min Ling, University of Nebraska-Lincoln, USA

Chapter 5
Representing Classes of Things and Properties in General in Conceptual Modelling:
An Empirical Evaluation............................................................................................................. 103
Graeme Shanks, University of Melbourne, Australia
Daniel Moody, University of Twente, The Netherlands
Jasmina Nuredini, Simsion and Associates, Australia
Daniel Tobin, University of Melbourne, Australia
Ron Weber, Monash University, Australia
Chapter 6
Information Search Patterns in E-Commerce Product Comparison Services................................. 131
Fiona Fui-Hoon Nah, University of Nebraska-Lincoln, USA
Weiying Hong, University of Nevada, Las Vegas, USA
Liqiang Chen, University of Nebraska-Lincoln, USA
Hong-Hee Lee, Dankook University, South Korea

Chapter 7
Antecedents of the Closeness of Human-Avatar Relationships in a Virtual World.......................... 146
Yi Zhao, City University of Hong Kong, China
Wei Quinn Wang, City University of Hong Kong, China
Yan Zhu, Tsinghua University, China

Chapter 8
Antecedents of Online Game Dependency: The Implications of Multimedia Realism and Uses and Gratifications Theory................................................................. 176
Kaunchin Chen, Western Michigan University, USA
Jengchung V. Chen, National Cheng Kung University, Taiwan
William H. Ross, University of Wisconsin, La Crosse, USA

Chapter 9
Assigning Ontological Meaning to Workflow Nets................................................................. 209
Pnina Soffer, University of Haifa, Israel
Maya Kaner, Ort Braude College, Israel
Yair Wand, University of British Columbia, Canada

Chapter 10
Maintaining Mappings between Conceptual Models and Relational Schemas.............................. 245
Yuan An, Drexel University, USA
Xiaohua Hu, Drexel University, USA
Il-Yeol Song, Drexel University, USA

Chapter 11
Impact of Flow and Brand Equity in 3D Virtual Worlds .......................................................... 277
Fiona Fui-Hoon Nah, University of Nebraska-Lincoln, USA
Brenda Eschenbrenner, University of Nebraska-Lincoln, USA
David DeWester, University of Nebraska-Lincoln, USA
So Ra Park, University of Nebraska-Lincoln, USA

Chapter 12
Cost and Service Capability Considerations on the Intention to Adopt Application Service Provision Services........................................................................................................ 298
Yurong Yao, Suffolk University, USA
Denis M. Lee, Suffolk University, USA
Yang W. Lee, Northeastern University, USA
Chapter 13
Co-creation and Collaboration in a Virtual World: A 3D Visualization Design Project in Second Life

Keng Siau, University of Nebraska-Lincoln, USA
Fiona Fui-Hoon Nah, University of Nebraska-Lincoln, USA
Brian E. Mennecke, Iowa State University, USA
Shu Z. Schiller, Wright State University, USA

Chapter 14
Transforming Activity-Centric Business Process Models into Information-Centric Models for SOA Solutions

Rong Liu, IBM T.J. Watson Research Center, USA
Frederick Y. Wu, IBM T.J. Watson Research Center, USA
Santhosh Kumaran, IBM T.J. Watson Research Center, USA

Chapter 15
An Integrated Query Relaxation Approach Adopting Data Abstraction and Fuzzy Relation

Soon-Young Huh, Korea Advanced Institute of Science and Technology, Korea
Kae-Hyun Moon, Samsung Electronics Co., Korea
Jinsoo Park, Seoul National University, Korea

Chapter 16
Accelerating Web Service Workflow Execution via Intelligent Allocation of Services to Servers

Konstantinos Stamkopoulos, University of Ioannina, Greece
Evaggelia Pitoura, University of Ioannina, Greece
Panos Vassiliadis, University of Ioannina, Greece
Apostolos Zarras, University of Ioannina, Greece

Chapter 17
Matching Attributes across Overlapping Heterogeneous Data Sources Using Mutual Information

Huimin Zhao, University of Wisconsin-Milwaukee, USA

Chapter 18
Disclosure Control of Confidential Data by Applying Pac Learning Theory

Ling He, Saginaw Valley State University, USA
Haldun Aytug, University of Florida, USA
Gary J. Koehler, University of Florida, USA
