Foreword ................................................................................................................................. xiii

Preface ...................................................................................................................................... xv

Acknowledgment ................................................................................................................... xxii

Section 1
Privacy Protection Technology Applicable to Business

Chapter 1
Privacy Enhancing Technologies for Information Control .................................................. 1
   Martin Gilje Jaatun, SINTEF ICT, Norway
   Inger Anne Tøndel, SINTEF ICT, Norway
   Karin Bernsmed, SINTEF ICT, Norway
   Åsmund Ahlmann Nyre, SINTEF ICT, Norway

Chapter 2
User-Centric Privacy Management in Future Network Infrastructure ............................... 32
   Antonio F. Gomez-Skarmeta, University of Murcia, Spain
   Alejandro Perez Mendez, University of Murcia, Spain
   Elena Torroglosa Garcia, University of Murcia, Spain
   Gabriel Lopez Millán, University of Murcia, Spain

Chapter 3
Leveraging Access Control for Privacy Protection: A Survey ........................................... 65
   Anna Antonakopoulou, National Technical University of Athens, Greece
   Georgios V. Lioudakis, National Technical University of Athens, Greece
   Fotios Gogoulos, National Technical University of Athens, Greece
   Dimitra I. Kaklamani, National Technical University of Athens, Greece
   Iakovos S. Venieris, National Technical University of Athens, Greece
Chapter 4
Self-Protecting Access Control: On Mitigating Privacy Violations with Fault Tolerance................. 95
   Anne V. D. M. Kayem, University of Cape Town, South Africa
   Patrick Martin, Queen's University, Canada
   Selim G. Akl, Queen's University, Canada

Chapter 5
Privacy Hash Table ........................................................................................................................ 129
   Xiaoxun Sun, Australian Council for Educational Research, Australia
   Min Li, University of Southern Queensland, Australia

Chapter 6
Developing Secure Business Processes: A Model Driven Approach........................................... 146
   Alfonso Rodríguez, University of Bio-Bio, Chile
   Eduardo Fernández-Medina, University of Castilla-La Mancha, Spain
   Mario Piattinim, University of Castilla-La Mancha, Spain

Chapter 7
Privacy by Design: Origins, Meaning, and Prospects for Assuring Privacy and Trust in the Information Era.................................................................................................................. 170
   Ann Cavoukian, Information and Privacy Commissioner, Canada

Section 2
Privacy Protection in Specific Business Domains

Chapter 8
Privacy Considerations for Electronic Health Records ................................................................. 210
   Mary Kuehler, University of Tulsa, USA
   Nakeisha Schimke, University of Tulsa, USA
   John Hale, University of Tulsa, USA

Chapter 9
Privacy Protection Issues for Healthcare Wellness Clouds.......................................................... 227
   Tyrone Grandison, IBM Thomas J. Watson Research Center, USA
   Pei-yun S Hsueh, IBM Thomas J. Watson Research Center, USA
   Liangzhao Zeng, IBM Thomas J. Watson Research Center, USA
   Henry Chang, IBM Taiwan Corporation, Taiwan
   Yi-Hui Chen, Asia University, Taiwan
   Ci-Wei Lan, IBM Taiwan Corporation, Taiwan
   Hao-Ting (Howard) Pai, National Chung Cheng University, Taiwan
   Li-Feng Tseng, IBM Taiwan Corporation, Taiwan
Chapter 10
Ensuring Privacy and Confidentiality in Digital Video Surveillance Systems ......................... 245
  Aniello Castiglione, Università degli Studi di Salerno, Italy
  Alfredo De Santis, Università degli Studi di Salerno, Italy
  Francesco Palmieri, Seconda Università degli Studi di Napoli, Italy

Chapter 11
Protecting Privacy by Secure Computation: Privacy in Social Network Analysis ......................... 268
  Florian Kerschbaum, SAP Research Karlsruhe, Germany
  Daniel Funke, SAP Research Karlsruhe, Germany

Chapter 12
A Dynamic Privacy Manager for Compliance in Pervasive Computing ........................................ 285
  Riccardo Bonazzi, University of Lausanne, Switzerland
  Zhan Liu, University of Lausanne, Switzerland
  Simon Ganière, Deloitte SA, Switzerland
  Yves Pigneur, University of Lausanne, Switzerland

Section 3
Privacy Related Analyses and Evaluations

Chapter 13
Harm Mitigation from the Release of Personal Identity Information .............................................. 309
  Andrew S. Patrick, Office of the Privacy Commissioner of Canada & Carleton University, Canada
  L. Jean Camp, Indiana University, USA

Chapter 14
Consumer Privacy Protection in the European Union: Legislative Reform Driven by Current
Technological Challenges ........................................................................................................... 331
  Faye Fangfei Wang, Brunel University, UK

Compilation of References ........................................................................................................... 350

About the Contributors ................................................................................................................ 385

Index ........................................................................................................................................... 394
