**Foreword** ........................................................................................................................................... xviii

**Preface** ................................................................................................................................................ xix

## Section 1
Introduction and Surveys of Social Networks Mining and Analysis

**Chapter 1**
Social Multimedia Mining: Trends and Opportunities in Areas of Social and Communication Studies ................................................................................................................... 1

*Georgios Lappas, Technological Educational Institution of Western Macedonia, Greece*

**Chapter 2**
A Study of Homophily on Social Media........................................................................................................... 17

*Halil Bisgin, University of Arkansas at Little Rock, USA*

*Nitin Agarwal, University of Arkansas at Little Rock, USA*

*Xiaowei Xu, University of Arkansas at Little Rock, USA*

**Chapter 3**
Sociocognitive Inquiry.......................................................................................................................... 35

*Brian R. Gaines, University of Victoria, Canada*

*Mildred L. G. Shaw, University of Calgary, Canada*

**Chapter 4**
Community Discovery: From Web Pages to Social Networks ........................................................................... 56

*Damien Leprovost, University of Bourgogne, France*

*Lylia Abrouk, University of Bourgogne, France*

*David Gross-Amblard, University of Bourgogne, France*
Section 2
Measures, Methods and Techniques in Social Networks Mining and Analysis

Chapter 5
Large Scale Graph Mining with MapReduce: Diameter Estimation and Eccentricity
Plots of Massive Graphs with Mining Applications ......................................................... 66
Charalampos E. Tsourakakis, Carnegie Mellon University, USA

Chapter 6
Social Network Inspired Approach to Intelligent Monitoring of Intelligence Data .................. 79
Qiang Shen, Aberystwyth University, UK
Tossapon Boongoen, Royal Thai Air Force Academy, Thailand

Chapter 7
Detecting Pharmaceutical Spam in Microblog Messages.................................................... 101
Kathy J. Liszka, University of Akron, USA
Chien-Chung Chan, University of Akron, USA
Chandra Shekar, University of Akron, USA

Chapter 8
Exploiting Social Annotations for Resource Classification............................................... 116
Arkaitz Zubiaga, NLP & IR Group, UNED, Spain
Víctor Fresno, NLP & IR Group, UNED, Spain
Raquel Martínez, NLP & IR Group, UNED, Spain

Chapter 9
Social Network Construction in the Information Age: Views and Perspectives...................... 131
Michael Farrugia, University College Dublin, Ireland
Neil Hurley, University College Dublin, Ireland
Diane Payne, University College Dublin, Ireland
Aaron Quigley, University College Dublin, Ireland

Chapter 10
Dynamics and Evolutional Patterns of Social Networks.................................................... 156
Yingzi Jin, The University of Tokyo, Japan
Yutaka Matsuo, The University of Tokyo, Japan

Chapter 11
Modeling Customer Behavior with Analytical Profiles...................................................... 171
Jerzy Surma, Warsaw School of Economics, Poland
Chapter 12
Social Search and Personalization Through Demographic Filtering

Kamal Taha, Khalifa University, UAE
Ramez Elmasri, University of Texas at Arlington, USA

Chapter 13
Mining Organizations’ Networks: Multi-Level Approach

James A. Danowski, University of Illinois at Chicago, USA

Chapter 14
Universal Dynamics on Complex Networks, Really? A Comparison of Two Real-World Networks that Cross Structural Paths ... but Ever so Differently

Brigitte Gay, University Toulouse I, France

Chapter 15
A Social Network Model for Understanding Technology Use for Knowledge-Intensive Workers

Kon Shing Kenneth Chung, University of Wollongong, Australia

Chapter 16
Social Recommendations: Mentor and Leader Detection to Alleviate the Cold-Start Problem in Collaborative Filtering

Armelle Brun, Nancy Université, France
Sylvain Castagnos, Nancy Université, France
Anne Boyer, Nancy Université, France

Chapter 17
Capturing Market Mavens among Advergamers: A Case of Mobile-Based Social Networking Site in Japan

Shintaro Okazaki, Universidad Autónoma de Madrid, Spain
Jaime Romero, Universidad Autónoma de Madrid, Spain
Sara Campo, Universidad Autónoma de Madrid, Spain

Chapter 18
Semantic-Awareness for a Useful Digital Life

Johann Stan, Alcatel-Lucent Bell Labs, France
Myriam Ribière, Alcatel-Lucent Bell Labs, France
Jérôme Picault, Alcatel-Lucent Bell Labs, France
Lionel Natarianni, Alcatel-Lucent Bell Labs, France
Nicolas Marie, Alcatel-Lucent Bell Labs, France
Chapter 19
The Comparability of Event-Related and General Social Support....................................................... 339
Valentina Hlebec, University of Ljubljana, Slovenia
Maja Mrzel, University of Ljubljana, Slovenia
Tina Kogovšek, University of Ljubljana, Slovenia

Compilation of References .............................................................................................................. 360

About the Contributors .................................................................................................................... 393

Index................................................................................................................................................... 403
