Advances in Web-Based Education: Personalized Learning Environments

Table of Contents

Foreword ................................................................. vi
Preface ........................................................................ ix

Section I: Modeling the Learner

Chapter I
Gender Differences and Hypermedia Navigation: Principles for Adaptive Hypermedia Learning Systems .......................................................... 1
  Jing Ping Fan, Brunel University, UK
  Robert D. Macredie, Brunel University, UK

Chapter II
Modeling Learner’s Cognitive Abilities in the Context of a Web-Based Learning Environment ...................................................... 21
  Maria Aparecida M. Souto, Instituto de Informática, Brazil
  Regina Verdin, PPGIE/UFRGS, Brazil
  José Palazzo M. de Oliveira, Instituto de Informática, Brazil

Chapter III
Dominant Meanings Approach Towards Individualized Web Search for Learning Environments .................................................. 46
  Mohammed A. Razek, El-Azhar University, Cairo, Egypt
  Claude Frasson, University of Montreal, Canada
  Marc Kaltenbach, University of Montreal, Canada
Chapter IV
An Adaptive Predictive Model for Student Modeling .................... 70
Gladys Castillo, University of Aveiro, Portugal
João Gama, University of Porto, Portugal
Ana M. Breda, University of Aveiro, Portugal

Chapter V
Giving Learners a Real Sense of Control Over Adaptivity, Even
If They Are Not Quite Ready For It Yet ............................................. 93
Marek Czarkowski, University of Sydney, Australia
Judy Kay, University of Sydney, Australia

Section II: Designing Instruction

Chapter VI
Building an Instructional Framework to Support Learner
Control in Adaptive Educational Systems ........................................ 127
Kyparisia A. Papanikolaou, University of Athens, Greece
Maria Grigoriadou, University of Athens, Greece

Chapter VII
Bridging the Gap with MAID: A Method for Adaptive
Instructional Design ............................................................................. 147
Jacopo Armani, Università della Svizzera italiana, Switzerland
Luca Botturi, Università della Svizzera italiana, Switzerland

Chapter VIII
An Adaptive Feedback Framework to Support Reflection,
Guiding and Tutoring ............................................................................. 178
Evangelia Gouli, University of Athens, Greece
Agoritsa Gogoulou, University of Athens, Greece
Kyparisia A. Papanikolaou, University of Athens, Greece
Maria Grigoriadou, University of Athens, Greece

Chapter IX
Adaptable Navigation in a SCORM Compliant Learning
Module ...................................................................................................... 203
Boris Gauss, Center of Human-Machine-Systems, Technische
Universität, Berlin, Germany
Leon Urbas, Center of Human-Machine-Systems, Technische
Universität, Berlin, Germany
Section III: Authoring and Exploring Content

Chapter X
Authoring of Adaptive Hypermedia ................................................... 225
A. Cristea, Eindhoven University of Technology,
The Netherlands
Craig Stewart, University of Nottingham, Jubilee Campus, UK

Chapter XI
Authoring of Adaptive Hypermedia Courseware Using AHyCO
System ....................................................................................................... 253
Natasa Hoic-Bozic, University of Rijeka, Croatia
Vedran Mornar, University of Zagreb, Croatia

Chapter XII
TEXT-COL: A Tool for Active Reading ............................................ 277
Anders Broberg, Umeå University, Sweden

Section IV: Approaches to Integration

Chapter XIII
From Non-Adaptive to Adaptive Educational Hypermedia:
Theory, Research, and Methodological Issues .............................. 302
Michael J. Jacobson, National Institute of Education, Nanyang
Technological University, Singapore

Chapter XIV
Contextualized Learning: Supporting Learning in Context ........ 331
Marcus Specht, Fraunhofer FIT-ICON, Denmark

Glossary .................................................................................................... 353

About the Authors ................................................................................. 361

Index ....................................................................................................... 369
