# Table of Contents

Preface ............................................................................................................................................ xvi

Acknowledgment ........................................................................................................................... xxi

Chapter 1
Research Methods for Urban Planning in the Digital Age .......................................................... 1
Carlos Nunes Silva, University of Lisbon, Portugal

Chapter 2
Infrastructure for Survey Data Processing in Urban and Planning Studies .............................. 17
Randall J. Olsen, Ohio State University, USA

Chapter 3
Volunteer Panel Web Surveys in Urban Planning ...................................................................... 37
Sunghee Lee, University of Michigan, USA

Chapter 4
Online Qualitative Interviews: Opportunities and Challenges for Urban and Planning Studies .... 53
Kathleen J. Hanrahan, Indiana University of Pennsylvania, USA
Mathew T. Smith, Indiana University of Pennsylvania, USA
Judith E. Sturges, Penn State Fayette, USA

Chapter 5
Towards a Method for Research Interviews using E-Mail .......................................................... 70
Peter Petocz, Macquarie University, Australia
Sue Gordon, The University of Sydney, Australia
Anna Reid, The University of Sydney, Australia

Chapter 6
The Story of Ethnochat: Designing an Instant Messaging Program to Conduct Semi-Structured or Unstructured Interviews ......................................................................................... 86
Jason Zalinger, Rensselaer Polytechnic Institute, USA
Chapter 7
Video-Enhanced Self-Administered Computer Interviews ........................................ 99
   Joachim Gerich, Johannes Kepler University, Austria

Chapter 8
Unveiling Space by using Participatory Photo Interview ........................................... 120
   Bettina Kolb, University of Vienna, Austria

Chapter 9
Brainstorming in Virtual Teams .................................................................................. 138
   Mary T. Dzindolet, Cameron University, USA
   Paul B. Paulus, University of Texas at Arlington, USA
   Courtney Glazer, Cameron University, USA

Chapter 10
The use of Electronic Brainstorming for Collecting Ideas in Scientific Research Teams:
A Challenge for Future Online Research ..................................................................... 157
   Nicolas Michinov, University Rennes 2, France

Chapter 11
The Delphi Technique: Use, Considerations, and Applications in the Conventional, Policy, and
On-Line Environments .................................................................................................. 173
   Chia-Chien Hsu, Kainan University, Republic of China
   Brian A. Sandford, Pittsburg State University, USA

Chapter 12
Designing Online Laddering Studies .......................................................................... 193
   Thorsten Gruber, Manchester Business School, UK
   Alexander E. Reppel, Royal Holloway, University of London, UK
   Isabelle Szmigin, Birmingham Business School, UK
   Rödiger Voss, HWZ University of Applied Sciences of Zurich, Switzerland

Chapter 13
Search Conferences and Future Search Conferences: Potential Tools for Urban Planning in
an On-Line Environment ............................................................................................. 216
   Rosalind Hurworth, The University of Melbourne, Australia

Chapter 14
Netnography: An Assessment of a Novel Research Approach and its Underlying
Philosophical Assumptions ......................................................................................... 233
   Guido Lang, The City University of New York, USA
   Stanislav Mamonov, The City University of New York, USA
   Karl R. Lang, The City University of New York, USA
Chapter 15
Citizens on YouTube: Research-Method Issues
Stefano Pace, Bocconi University, Italy

Chapter 16
Online Opportunities for Mobile and Visual Research
Lesley Murray, University of Brighton, UK

Chapter 17
Using Digital Tools in Qualitative Research: Supporting Integrity, Simplicity, Deep Insight and Social Change
Susan Crichton, University of British Columbia, Canada

Chapter 18
Empirical Research Methods in Virtual Worlds
Travis L. Ross, Indiana University, USA
Edward Castronova, Indiana University, USA, & German Institute for Economic Research (DIW Berlin), Germany
Gert G. Wagner, German Institute for Economic Research (DIW Berlin), Max Planck Institute for Human Development, & Berlin University of Technology (TUB), Germany

Chapter 19
Monitoring Pedestrian Spatio-Temporal Behaviour using Semi-Automated Shadowing
Alexandra Millonig, Austrian Institute of Technology, Austria
Markus Ray, Austrian Institute of Technology, Austria
Helmut Schrom-Feiertag, Austrian Institute of Technology, Austria

Chapter 20
Mobile Phones as a Lens into Slum Dynamics
Amy Wesolowski, The Santa Fe Institute, USA & Carnegie Mellon University, USA
Nathan Eagle, The Santa Fe Institute, USA & Massachusetts Institute of Technology, USA

Chapter 21
Archiving Audio and Video Interviews
Almut Leh, FernUniversität in Hagen, Germany
Doris Tausendfreund, Freie Universität Berlin, Germany

Chapter 22
Addressing Legal Issues in Online Research, Publication and Archiving: A UK Perspective
Andrew Charlesworth, University of Bristol, UK
Chapter 23
Ethical Considerations in Online Research Methods

Harsh Suri, The University of Melbourne, Australia
Fay Patel, Dalhousie University, Canada
