Table of Contents

Preface .................................................................................................................................................. xv

Chapter 1
Implement VoIP Based IP Telephony with Open Source Asterisk Architecture.......................... 1
   Chirag K. Gohel, Atmiya Institute of Technology & Science, India
   Kamaljit I. Lakhtaria, Atmiya Institute of Technology & Science, India

Chapter 2
A Beaconless Minimum Interference Based Routing Protocol to Minimize End-to-End Delay per
Packet for Mobile Ad hoc Networks............................................................................................. 11
   Natarajan Meghanathan, Jackson State University, USA
   Meena Sugumar, Jackson State University, USA

Chapter 3
Real-Time Query Processing on Live Videos in Networks of Distributed Cameras........................ 27
   Rui Peng, University of Central Florida, USA
   Alex J. Aved, University of Central Florida, USA
   Kien A. Hua, University of Central Florida, USA

Chapter 4
Competitive Landscape of Mobile Telecommunications Tower Companies in India.................. 49
   N.P. Singh, Management Development Institute, India

Chapter 5
An Analysis of Traffic and Throughput for UMTS Packet Core Networks.................................... 82
   Ye Ouyang, Stevens Institute of Technology, USA
   M. Hosein Fallah, Stevens Institute of Technology, USA

Chapter 6
Welfare Implications of Deviation from Network Neutrality: A Price Discrimination
Application........................................................................................................................................ 108
   Emin Koksal, Bahcesehir University, Turkey
Chapter 7
A Multi-Pass Algorithm for Adjusting a Network Topology in Multipoint Communications .......... 132
   Boris Peltsverger, Georgia Southwestern State University, USA
   Svetlana Peltsverger, Southern Polytechnic State University, USA
   Michael Bartolacci, Penn State University - Berks, USA

Chapter 8
Network Analyzer Development Comparison with Independent Data and Benchmark Products:
Network Traffic Utilization........................................................................................................ 139
   Mohd Nazri Ismail, University of Kuala Lumpur, Malaysia
   Abdullah Mohd Zin, University of Kebangsaan Malaysia, Malaysia

Chapter 9
Users’ Perceptions of Wireless Networks Usage ....................................................................... 148
   Arleen Saluja, Illinois State University, USA
   Pruthikrai Mahatanankoon, Illinois State University, USA
   Tibor Gyires, Illinois State University, USA

Chapter 10
A Data Gathering Algorithm Based on Energy-Aware Connected Dominating Sets to Minimize
Energy Consumption and Maximize Node Lifetime in Wireless Sensor Networks.................... 161
   Natarajan Meghanathan, Jackson State University, USA

Chapter 11
Why Mobile Wireless Carriers Share Networks and Services Provisioning ............................ 178
   Hemant K. Sabat, Coscend Communications Solutions, USA

Chapter 12
Performance Analysis of Optimum Interleaver based on Prime Numbers for Multiuser Iterative
IDMA Systems....................................................................................................................... 212
   M. Shukla, Harcourt Butler Technological Institute, India
   Ruchir Gupta, Rohelkhand University, India

Chapter 13
Optimizing the Traffic of Voice Core Domain in UMTS Network through RNC Re-Homing ........ 227
   Ye Ouyang, Stevens Institute of Technology, USA
   Hosein Fallah, Stevens Institute of Technology, USA

Chapter 14
Fractional Reuse Partitioning Schemes for Overlay Cellular Architectures ............................. 241
   Hazar Aki, University of South Florida, USA
   M. Cenk Erturk, University of South Florida, USA
   Huseyin Arslan, University of South Florida, USA
