Information Systems Engineering: From Data Analysis to Process Networks

Table of Contents

Foreword ................................................................. vi

Preface ................................................................. ix

Chapter I
Translating Schemas Between Data Modelling Languages .......... 1
   Peter McBrien, Imperial College, London, UK

Chapter II
Intention Driven Conceptual Modelling ................................. 16
   Colette Rolland, Université Paris I Panthéon Sorbonne, France

Chapter III
Integrated Goal, Data and Process Modeling: From TEMPORA to Model-Generated Work-Places ....................................... 43
   John Krogstie, Norwegian University of Science and Technology, Norway

Chapter IV
Value and Intention Based Information Systems Engineering .......... 66
   Paul Johannesson, The Royal Institute of Technology, Sweden
   Prasad Jayaweera, University of Ruhuna, Matara, Sri Lanka
Chapter V
Pragmatic-Driven Approach for Service-Oriented Analysis and Design . . . 97
Remigijus Gustas, Karlstad University, Sweden
Prima Gustiene, Karlstad University, Sweden

Chapter VI
The Practice of Participatory Enterprise Modelling: A Competency Perspective. . . 129
Anne Persson, University of Skövde, Sweden

Chapter VII
How to Support Agile Development Projects with Enterprise Modelling . . 159
Janis Stirna, Jönköping University, Sweden
Marite Kirikova, Riga Technical University, Latvia

Chapter VIII
Experiences with Modelling Early Requirements . . . . . . . . . . . . 186
Pericles Loucopoulos, Loughborough University, UK

Chapter IX
Determining Requirements for Management Support Systems . . . . . . 207
Sven A. Carlsson, Lund University, Sweden

Chapter X
Towards a Holistic Approach to Validating Conceptual Models . . . . . . 229
Jörg Becker, European Research Center for Information Systems (ERCIS), Germany
Björn Niehaves, European Research Center for Information Systems (ERCIS), Germany
Daniel Pfeiffer, European Research Center for Information Systems (ERCIS), Germany

Chapter XI
New Software Methodologies and Techniques for Business Models with Evolutionary Aspects . . . . . . . . . . . . . 252
Hamido Fujita, Iwate Prefectural University, Japan
Chapter XII
Refining the Concept *Syndicate Data*: Categories and Characteristics, Definitions, and a View Ahead .................................................. 292
   Mattias Strand, University of Skövde, Sweden

Chapter XIII
Interconnecting E-Business Model Components .......................... 308
   Eva Söderström, University of Skövde, Sweden
   Vinay Kumar Mandala, HB Technologies Inc., USA

Chapter XIV
Experiences from Technology Transfer Initiatives at SISU .......... 331
   Janis Bubenko Jr., Royal Institute of Technology and Stockholm University, Sweden
   Eva Lindencrona, VINNOVA (Swedish Governmental Agency for Innovation Systems), Sweden

Chapter XV
On IT-Modelling in a Cross-Competence World ....................... 349
   Arne Solberg, NTNU - The Norwegian University of Science and Technology, Trondheim, Norway

Author Biographies ............................................................... 360

Index .......................................................... 367
