Acknowledgment

The making of this handbook has been an enjoyable experience, and was realized through collaborative efforts of several outstanding individuals.

The Editor would like to express his genuine gratitude to all thirty-nine renowned international authors who have contributed their valuable time and effort in writing state-of-the-art specialized chapters.

The Editor would also like to extend his sincere thanks to the team of Peer Reviewers for their remarkable work, as well as to each and every notable member of the Editorial Advisory Board.

A special thanks goes to Mr. Joel Gamon, Development Manager at IGI-Global, for his continuous support and for being readily available for any inquiry during the development process.

Lastly, a deep appreciation is to be extended to Mrs. Henriette Skaff, in the Editorial Department at the American University of Science and Technology, for her assistance in every step of the editorial process.
