Table of Contents

Foreword ........................................................................................................................................... xxxii
Preface ............................................................................................................................................... xxxiv
Acknowledgment ............................................................................................................................. xlviii

Volume I

Chapter 1
Efficient and Interoperable E-Business Based on Frameworks, Standards and Protocols:
An Introduction ........................................................................................................................................ 1
  Frank-Dieter Dorloff, University of Duisburg-Essen, Germany
  Ejub Kajan, State University of Novi Pazar, Serbia

Section 1
General Approaches to E-Business Interoperability: Standards, Data Exchange, Semantics

Chapter 2
The Reality of Using Standards for Electronic Business Document Formats ........................................ 21
  Tim McGrath, Document Engineering Services, Australia

Chapter 3
Analysis of Interoperability of e-Business Documents ........................................................................ 33
  Ivan Magdalenić, University of Zagreb, Croatia

Chapter 4
Harmonized and Reversible Development Framework for HLA based Interoperable Application ............... 58
  Zhiying Tu, IMS-LAPS, Université de Bordeaux, France
  Gregory Zacharewicz, IMS-LAPS, Université de Bordeaux, France
  David Chen, IMS-LAPS, Université de Bordeaux, France
Chapter 5
Concepts for Enhancing Content Quality and eAccessibility: In General and in the Field of eProcurement ................................................. 84

Christian Galinski, International Information Centre for Terminology (Infoterm), Austria
Helmut Beckmann, Heilbronn University, Germany

Chapter 6
BOMOS: Management and Development Model for Open Standards .............................. 102

Erwin Folmer, TNO, The Netherlands; University of Twente, The Netherlands;
& Netherlands in Connection, The Netherlands

Section 2
General Approaches to E-Business Interoperability: Interdisciplinary and Applications-Oriented Concepts

Chapter 7
Interoperability Support for E-Business Applications through Standards, Services, and Multi-Agent Systems ............................................... 129

Rainer Unland, Institute for Computer Science and Business Information Systems (ICB), University of Duisburg-Essen, Germany

Chapter 8
Ontologies for Guaranteeing the Interoperability in e-Business: A Business Economics Point of View .......................................................... 154

Stephan Zelewski, University of Duisburg-Essen, Institute for Production and Industrial Information Management, Germany
Adina Silvia Bruns, University of Duisburg-Essen, Institute for Production and Industrial Information Management, Germany
Martin Kowalski, University of Duisburg-Essen, Institute for Production and Industrial Information Management, Germany

Chapter 9
How Semantic Web Technologies can Support the Mediation between Supply and Demand in the ICT Market: The Case of Customer Relationship Management ....... 185

Anna Goy, University of Torino, Italy
Diego Magro, University of Torino, Italy

Chapter 10
Customer Decision Making in Web Services ................................................................. 210

Zhao Hao Sun, University of Ballarat, Australia
Ping Zhang, CSIRO, Australia
Dong Dong, Hebei Normal University, China
Chapter 11
The Metaphorical Foundation of Interoperability Artifacts: The Case of Public Services............. 233
Veit Jahns, University of Duisburg-Essen, Germany

Chapter 12
Standards for Achieving Interoperability of eGovernment in Europe........................................ 249
Marc Wilhelm Küster, Worms University of Applied Sciences, Germany

Section 3
Standards for Security and Trust in E-Business

Chapter 13
Fundamental Building Blocks for Security Interoperability in e-Business....................... 269
Muhammad Asim, Philips Electronics, The Netherlands
Milan Petković, Philips Electronics, The Netherlands & Eindhoven University of Technology, The Netherlands

Chapter 14
Automatic Transformation of Generic, Validated Business Process Security Models to WS-
SecurityPolicy Descriptions............................................................... 293
Sven Feja, Christian-Albrechts-University of Kiel, Germany
Sven August, Christian-Albrechts-University of Kiel, Germany
Andreas Speck, Christian-Albrechts-University of Kiel, Germany
Meiko Jensen, Ruhr-University Bochum, Germany
Jörg Schwenk, Ruhr-University Bochum, Germany

Chapter 15
Trust Management and User’s Trust Perception in e-Business........................................ 321
Elisa Costante, TU/e Eindhoven University of Technology, The Netherlands
Milan Petkovic, TU/e Eindhoven University of Technology, The Netherlands & Philips Research Europe, The Netherlands
Jerry den Hartog, TU/e Eindhoven University of Technology, The Netherlands

Section 4
Dealing with E-Business Data: Classification, Exchange, Harmonization

Chapter 16
Privacy-Conscious Data Mashup: Concepts, Challenges and Directions.......................... 343
Mahmoud Barhamgi, Claude Bernard Lyon 1 University, France
Chirine Ghedira, Claude Bernard Lyon 1 University, France
Salah-Eddine Tbahriti, Claude Bernard Lyon 1 University, France
Michael Mrissa, Claude Bernard Lyon 1 University, France
Djamal Benslimane, Claude Bernard Lyon 1 University, France
Brahim Medjahed, University of Michigan-Dearborn, USA
Chapter 17
Co-ordination and Specialisation of Semantics in a B2B Relation ............................................................... 365
  Fred van Blommestein, University of Groningen, The Netherlands

Chapter 18
An Examination of Standardized Product Identification and Business Benefit........................................ 387
  Douglas S. Hill, University of Southampton, UK

Chapter 19
Towards Crowd-Driven Business Processes.......................................................... 412
  Maja Vuković, IBM T. J. Watson Research, USA
  Claudio Bartolini, HP Labs, USA

Volume II

Chapter 20
Unified Data Model for Large-Scale Multi-Schema Integration (ULMI) .................................................. 430
  Michael Dietrich, SAP Research Karlsruhe, Germany
  Jens Lemcke, SAP Research Karlsruhe, Germany

Chapter 21
Flexible Classification Standards for Product Data Exchange ........................................................... 448
  Wolfgang Wilkes, Fernuniversität Hagen, Germany
  Peter J. A. Reusch, Fachhochschule Dortmund, Germany
  Laura Esmeralda Garcia Moreno, Fachhochschule Dortmund, Germany

Section 5
Business Process Modeling, Validation, and Monitoring

Chapter 22
Semantic Monitoring of Service-Oriented Business Processes .......................................................... 467
  Roman Vaculin, T.J. Watson Research Center, IBM Research, USA

Chapter 23
Supporting Semantic Verification of Process Models.......................................................... 495
  Michael Fellmann, University of Osnabrueck, Germany
  Oliver Thomas, University of Osnabrueck, Germany
  Frank Hogrebe, Hessische Hochschule für Polizei und Verwaltung, Germany
Chapter 24
Tool Based Integration of Requirements Modeling and Validation into Business Process Modeling..............................................................................................................................................512
   Sven Feja, Christian-Albrechts-University of Kiel, Germany
   Sören Witt, Christian-Albrechts-University of Kiel, Germany
   Andreas Speck, Christian-Albrechts-University of Kiel, Germany

Section 6
Research on Service Quality and Service-Oriented E-Business Architectures

Chapter 25
Service Quality: Status and Research Directions ..........................................................................................................................................................................................537
   Sue Conger, University of Dallas, USA & Rhodes University, South Africa

Chapter 26
An Event-Based Middleware for the Management of Choreographed Services .................567
   Liliana Ardissono, Università di Torino, Italy
   Roberto Furnari, Università di Torino, Italy
   Giovanna Petrone, Università di Torino, Italy
   Marino Segnan, Università di Torino, Italy

Chapter 27
Collaboration-Based Model-Driven Approach for Business Service Composition ...............594
   Surya Bahadur Kathayat, Norwegian University of Science and Technology, Norway
   Hien Nam Le, Norwegian University of Science and Technology, Norway
   Rolf Bræk, Norwegian University of Science and Technology, Norway

Chapter 28
Enterprise Service Bus for Building Integrated Enterprises .............................................618
   M. Antonia Martínez-Carreras, Universidad de Murcia, Spain
   Francisco J. García-Jiménez, Universidad de Murcia, Spain
   Antonio F. Gómez-Skarmeta, Universidad de Murcia, Spain

Chapter 29
Measuring Quality of Electronic Services: Moving from Business-to-Consumer into Business-to-Business Marketplace ..........................................................................................................................................................................................637
   Mahmoud Amer, Carl von Ossietzky University of Oldenburg, Germany
   Jorge Marx Gómez, Carl von Ossietzky University of Oldenburg, Germany
Section 7
Semantically-Enabled E-Business Architectures

Chapter 30
Bahareh Rahmanzadeh Heravi, Brunel University, UK
Mark Lycett, Brunel University, UK

Chapter 31
Semantic Alignment of E-Business Standards and Legacy Models
Janina Fengel, University of Applied Sciences Darmstadt, Germany

Chapter 32
Towards Supporting Interoperability in e-Invoicing Based on Semantic Web Technologies
José Manuel Gómez-Pérez, Intelligent Software Components (iSOCO) S.A., Spain
Víctor Méndez, Intelligent Software Components (iSOCO) S.A., Spain

Section 8
Applications Fields and Experiences

Chapter 33
Ioannis Savvas, Agricultural University of Athens, Greece & Aristotle University of Thessaloniki, Greece
Nick Bassiliades, Aristotle University of Thessaloniki, Greece
Kalliopi Kravari, Aristotle University of Thessaloniki, Greece
Georgios Meditskos, Aristotle University of Thessaloniki, Greece

Chapter 34
Towards a Healthcare Interoperability Framework Based on Medical Business Artifacts, Social Networks, and Communities of Healthcare Professionals
Zakaria Maamar, Zayed University, U.A.E
Youcef Baghdadi, Sultan Qaboos University, Oman

Chapter 35
Emerging Standards and Protocols for Governance, Risk, and Compliance Management
Marcus Spies, LMU University of Munich, Germany
Said Tabet, EMC Corporation, USA
Chapter 36
Governmental Service Transformation through Cost Scenarios Simulation: The eGOVSIM Model ................................................................................................................................................... 791

Yannis Charalabidis, University of the Aegean, Greece

Chapter 37
SIGA3D: Semantic Combination of IFC and GIS to Support Urban Facilities Management ........ 806

Clément Mignard, Active3D, France
Christophe Nicolle, LE2I, France

Chapter 38
Challenges for Adoption of e-Procurement: An SME Perspective ...................................................... 829

Kelly Liljemo, University of Agder, Norway
Andreas Prinz, University of Agder, Norway
