Table of Contents

Preface ................................................................................................................................................... xiv

Section 1
Foundations of Research Methods and Paradigms

Chapter 1
Philosophical Framing and Its Impact on Research................................................................. 1
   Eileen M. Trauth, The Pennsylvania State University, USA
   Lee B. Erickson, The Pennsylvania State University, USA

Chapter 2
Rigor and Relevance in Information Systems Research: A Comprehensive IS Research Process
Model .................................................................................................................................................... 18
   Damodar Konda, RGIS, LLC., USA

Chapter 3
Postmodernism, Interpretivism, and Formal Ontologies......................................................... 43
   Jan H. Kroeze, University of South Africa, South Africa

Chapter 4
Critical Realism and IS Research: Some Methodological Implications ................................ 63
   Philip J. Dobson, Edith Cowan University, Australia

Chapter 5
Practice vs. Possession: Epistemological Implications on the Nature of Organizational Knowledge and Cognition............................................................... 82
   Lucio Biggiero, L’Aquila University, Italy
Chapter 6
Software Engineering Research: The Need to Strengthen and Broaden the Classical Scientific Method

Gonzalo Génova, Universidad Carlos III de Madrid, Spain
Juan Llorens, Universidad Carlos III de Madrid, Spain
Jorge Morato, Universidad Carlos III de Madrid, Spain

Chapter 7
Process Theory: Components and Guidelines for Development

Martha García-Murillo, Syracuse University, USA
Ezgi Nur Gozen, Syracuse University, USA

Chapter 8
On IT and SwE Research Methodologies and Paradigms: A Systemic Landscape Review

Manuel Mora, Autonomous University of Aguascalientes, Mexico
Annette L. Steenkamp, Lawrence Technological University, USA
Ovsei Gelman, CCADET-UNAM, Mexico
Mahesh S. Raisinghani, TWU School of Management, USA

Section 2
Contemporary Research Methods and Techniques

Chapter 9
Contemporary Reporting Practices Regarding Covariance-Based SEM with a Lens on EQS

Theresa M. Edgington, Baylor University, USA
Peter M. Bentler, University of California – Los Angeles, USA

Chapter 10
Variance-Based Structural Equation Modeling: Guidelines for Using Partial Least Squares in Information Systems Research

José L. Roldán, Universidad de Sevilla, Spain
Manuel J. Sánchez-Franco, Universidad de Sevilla, Spain

Chapter 11
Models for Interpretive Information Systems Research, Part 1: IS Research, Action Research, Grounded Theory – A Meta-Study and Examples

M. R. (Ruth) De Villiers, University of South Africa, South Africa

Chapter 12
Models for Interpretive Information Systems Research, Part 2: Design Research, Development Research, Design-Science Research, and Design-Based Research – A Meta-Study and Examples

M. R. (Ruth) De Villiers University of South Africa, South Africa
Chapter 13
Using Grounded Theory Coding Mechanisms to Analyze Case Study and Focus Group Data in the
Context of Software Process Research ................................................................. 256
Rory V. O’Connor, Dublin City University, Ireland

Chapter 14
A Practical Approach to Theory Structuring and Analysis: A way to Structure Research and Perform
Sub-Problem Solving in a Changing IS Landscape .................................................. 271
T. Schwartzel, University of South Africa, South Africa
M. M. Eloff, University of South Africa, South Africa

Chapter 15
Integrating Conceptual and Empirical Approaches for Software Engineering Research ............. 298
Annette L. Steenkamp, Lawrence Technological University, USA
Theresa Kraft, University of Michigan-Flint, USA

Section 3
Innovative Research Methods and Techniques

Chapter 16
Visualization and Analysis of Frames in Collections of Messages: Content Analysis and the
Measurement of Meaning ....................................................................................... 321
Esther Vlieger, University of Amsterdam, The Netherlands
Loet Leydesdorff, University of Amsterdam, The Netherlands

Chapter 17
System Approach to MIS and DSS and its Modeling within SD .................................... 340
Miroljub Kljajić, University of Maribor, Slovenia
Mirjana Kljajić Borštnar, University of Maribor, Slovenia
Andrej Škraba, University of Maribor, Slovenia
Davorin Kofjač, University of Maribor, Slovenia

Chapter 18
Project Contexts and the Possibilities for Mixing Software Development and Systems
Approaches .............................................................................................................. 360
D. Petkov, Eastern Connecticut State University, USA
S. Alter, University of San Francisco, USA
J. Wing, Durban University of Technology, South Africa
A. Singh, Durban University of Technology, South Africa
O. Petkova, Central Connecticut State University, USA
T. Andrew, Durban University of Technology, South Africa
K. Sewchurran, University of Cape Town, South Africa
Chapter 19
Selecting Strategies and Approaches in Systems Engineering: Applying the Descriptive Research Method

Moti Frank, Holon Institute of Technology, Israel

Chapter 20
Engineering Design as Research

Timothy L.J. Ferris, Defence and Systems Institute, University of South Australia, Australia

Chapter 21
Validation and Design Science Research in Information Systems

Rafael A. Gonzalez, Javeriana University, Colombia
Henk G. Sol, University of Groningen, The Netherlands
