Acknowledgment

We encountered many challenges and had to make sacrifices in the development of this book. I would like to thank my lovely family and fiancée for their wholehearted and unconditional support, encouragement, and sincere advice not only throughout this project but in each and every aspect of my personal and professional life. I humbly dedicate all the efforts I put into this book to them. Thank you to each member of my family especially to my Grandmother Reyna, my Father Porfirio, my nephew Sebastián and my daughter Mimma and you, Jacqueline to put in me the “Leguízamo-Povedano Syndrome.”

I would like to thank my colleagues and friends from different parts of the world whom have supported me in my academic endeavors, and particularly those who contributed to this book. Their assistance and advice have been very valuable. Finally to my family who support all my dreams.

I am thankful to my parents who taught me the value of the education; Special thanks are due to my wife Celia, whose endless understanding and support have been profound throughout the difficult times. Without her love and encouragement I am sure that I would not have been able to achieve so much. I also dedicate this book to my daughters, for filling my life with happiness.

I would like to thank the many people who have helped me grow professionally. I would also like to acknowledge to my team support in CIMAT Research Center whom are very special to me. However, I would like to especially acknowledge my wife, whom has been so patient with me during the edition of this book.
