# Table of Contents

Preface ................................................................................................................................................xvii

Section 1
Middleware Based Adaptive and Dependable Systems

Chapter 1
Resilient and Timely Event Dissemination in Publish/Subscribe Middleware ................................. 1
  Christian Esposito, University of Napoli “Federico II”, Italy
  Domenico Cotroneo, University of Napoli “Federico II”, Italy

Chapter 2
Towards Adaptive and Scalable Context Aware Middleware ........................................................... 21
  Antonio Corradi, Università di Bologna, Italy
  Mario Fanelli, Università di Bologna, Italy
  Luca Foschini, Università di Bologna, Italy

Chapter 3
Dynamic Reconfiguration of Middleware for Ubiquitous Computing .............................................. 38
  Antonio Corradi, University of Bologna, Italy
  Enrico Lodolo, University of Bologna, Italy
  Stefano Monti, University of Bologna, Italy

Chapter 4
A Multi-User Ad-Hoc Resource Manager for Public Urban Areas .................................................. 53
  Gonzalo Huerta-Canepa, KAIST, South Korea
  Dongman Lee, KAIST, South Korea

Section 2
Adaptation in Wireless Sensor Networks

Chapter 5
  Marcello Cinque, Università di Napoli Federico II, Italy
  Catello Di Martino, Università di Napoli Federico II, Italy
Chapter 6
iCAAS: An Interoperable and Configurable Architecture for Accessing Sensor Networks ........................ 93
Catello Di Martino, Università di Napoli Federico II, Italy
Gabriele D’Avino, STRAGO Spa, Italy
Alessandro Testa, Università di Napoli Federico II, Italy

Chapter 7
Self-Adapting Event Configuration in Ubiquitous Wireless Sensor Networks .................... 109
Steffen Ortmann, IHP microelectronics, Germany
Michael Maaser, IHP microelectronics, Germany
Peter Langendoerfer, IHP microelectronics, Germany

Section 3
Resilient Computing: Reflections and Challenges

Chapter 8
Technological and Educational Challenges of Resilient Computing................................. 128
Luca Simoncini, University of Pisa, Italy

Chapter 9
Adaptation and Dependability and Their Key Role in Modern Software Engineering ............. 145
Vincenzo De Florio, University of Antwerp, Belgium
Chris Blondia, University of Antwerp, Belgium

Section 4
Algorithms

Chapter 10
Optimizing User Quality of Experience through Overlay Routing, Bandwidth Management and Dynamic Trans-Coding ................................................................. 160
Maarten Wijnants, EDM - Hasselt University - tUL – IBBT, Belgium
Wim Lamotte, EDM - Hasselt University - tUL – IBBT, Belgium
Bart De Vleeschauwer, IBCN – INTEC - Ghent University – IBBT, Belgium
Filip De Turck, IBCN – INTEC - Ghent University – IBBT, Belgium
Bart Dhoedt, IBCN – INTEC - Ghent University – IBBT, Belgium
Piet Demeester, IBCN – INTEC - Ghent University – IBBT, Belgium
Peter Lambert, MMLab - ELIS - Ghent University – IBBT, Belgium
Dieter Van de Walle, MMLab - ELIS - Ghent University – IBBT, Belgium
Jan De Cock, MMLab - ELIS - Ghent University – IBBT, Belgium
Stijn Notebaert, MMLab - ELIS - Ghent University – IBBT, Belgium
Rik Van de Walle, MMLab - ELIS - Ghent University – IBBT, Belgium
Chapter 11
Web Distributed Computing Systems: Implementation and Modeling .............................................. 181

  Fabio Boldrin, University of Ferrara, Italy
  Chiara Taddia, Lepida S.p.A., Italy
  Gianluca Mazzini, University of Ferrara, Italy

Chapter 12
Efficient Adaptation Decision Making Algorithms for Context-Aware Applications ...................... 198

  Yves Vanrompay, Katholieke Universiteit Leuven, Belgium
  Tim Smits, Consultant at AE, Belgium
  Yolande Berbers, Katholieke Universiteit Leuven, Belgium

Section 5
Adaptation in the System and Network Layers

Chapter 13

  Satyakiran Munaga, IMEC/SSET and K.U. Leuven/ESAT, Belgium
  Francky Catthoor, IMEC/SSET and K.U. Leuven/ESAT, Belgium

Chapter 14
A Machine Learning Based Meta-Scheduler for Multi-Core Processors ........................................ 226

  Jitendra Kumar Rai, University of Hyderabad and ANURAG, India
  Atul Negi, University of Hyderabad, India
  Rajeev Wankar, University of Hyderabad, India
  K. D. Nayak, ANURAG, India

Chapter 15
Autonomic QoS Optimization of Real-Time Internet Audio Using Loss Prediction and Stochastic Control .......................................................... 239

  Lopamudra Roychoudhuri, Carroll University, USA
  Ehab S. Al-Shaer, University of North Carolina, USA

Chapter 16
Impact of Cross-Layer Adaptations of Mobile IP on IEEE 802.11 Networks on Video Streaming ...... 261

  P. De Cleyn, Universiteit Antwerpen, Belgium
  C. Blondia, Universiteit Antwerpen, Belgium

Chapter 17
Beernet: Building Self-Managing Decentralized Systems with Replicated Transactional Storage ....... 282

  B. Mejías, Université catholique de Louvain, Belgium
  P. Van Roy, Université catholique de Louvain, Belgium
Section 6
Models and Approaches for Adaptive and Dependable Services

Chapter 18
An Architecture-Based Adaptation Framework for Soft Real-Time Applications .................. 306
Ning Gui, University of Antwerp, Belgium & Central South University, China
Hong Sun, University of Antwerp, Belgium
Chris Blondia, University of Antwerp, Belgium

Chapter 19
Mixing Workflows and Components to Support Evolving Services ................................... 320
Françoise Baude, Université de Nice Sophia-Antipolis, France
Virginie Legrand, Université de Nice Sophia-Antipolis, France
Ludovic Henrio, Université de Nice Sophia-Antipolis, France
Paul Naoumenko, Université de Nice Sophia-Antipolis, France
Heiko Pfeffer, Technische Universität Berlin, Germany
Louay Bassbouss, Technische Universität Berlin, Germany
David Linner, Technische Universität Berlin, Germany

Chapter 20
Optimization of WS-BPEL Workflows through Business Process Re-Engineering Patterns ...... 345
Jonas Buys, University of Antwerp, Belgium
Vincenzo De Florio, University of Antwerp, Belgium
Chris Blondia, University of Antwerp, Belgium

Compilation of References ........................................................................................................... 362

About the Contributors ................................................................................................................ 386
