# Table of Contents

Preface ................................................................................................................................. xv

## Section I
Agent Technologies

### Chapter I
Employing Graph Network Analysis for Web Service Composition ........................................... 1
  *John Gekas, University of Essex, UK*
  *Maria Fasli, University of Essex, UK*

### Chapter II
Context-Aware Service Provisioning in Next-Generation Networks: An Agent Approach ............... 19
  *Vedran Podobnik, University of Zagreb, Croatia*
  *Krunoslav Trzec, University of Zagreb, Croatia*
  *Gordan Jezic, University of Zagreb, Croatia*

### Chapter III
A Mobile, Intelligent Agent-Based Architecture for E-Business .................................................. 39
  *Zhiyong Weng, University of Ottawa, Canada*
  *Thomas Tran, University of Ottawa, Canada*

### Chapter IV
A Multi-Agent Temporal Constraint Satisfaction System Based on Allen’s Interval Algebra and Probabilities .............................................................................................................................. 56
  *Elhadi Shakshuki, Acadia University, Canada*
  *André Trudel, Acadia University, Canada*
  *Yiqing Xu, Acadia University, Canada*
Chapter V
A Multiagent Approach for Configuring and Explaining Workflow of Semantic Web Services ........ 77
Vasco Furtado, University of Fortaleza, Brazil
Leonardo Ayres, University of Fortaleza, Brazil
Gustavo Fernandes, University of Fortaleza, Brazil

Section II
Collaboration

Chapter VI
A Subspace Clustering Framework for Research Group Collaboration ........................................ 96
Nitin Agarwal, Arizona State University, USA
Ehtesham Haque, Arizona State University, USA
Huan Liu, Arizona State University, USA
Lance Parsons, Arizona State University, USA

Chapter VII
E-Portfolio to Promote the Virtual Learning Group Communities on the Grid ......................... 117
Emilie Conté, Université de Pau et des Pays de l’Adour, France
Guy Gouardères, Université de Pau et des Pays de l’Adour, France

Chapter VIII
Incremental Learning for Interactive E-Mail Filtering ................................................................. 134
Ding-Yi Chen, University of Queensland, Australia
Xue Li, University of Queensland, Australia
Zhao Yang Dong, University of Queensland, Australia
Xia Chen, University of Queensland, Australia

Section III
Access

Chapter IX
eDAR Algorithm for Continuous KNN Queries Based on Pine ................................................ 154
Maytham Safar, Kuwait University, Kuwait
Dariush Ebrahimi, Kuwait University, Kuwait

Chapter X
A Deterministic Approach to XML Query Processing with Efficient Support for Pure and
Negated Containments .................................................................................................................. 175
Dunren Che, Southern Illinois University Carbondale, USA
Chapter XI
Text Summarization Based on Conceptual Data Classification .................................................. 195
Jihad M. ALJa’am, University of Qatar, Qatar
Ali M. Jaoua, University of Qatar, Qatar
Ahmad M. Hasnah, University of Qatar, Qatar
F. Hassan, University of Qatar, Qatar
H. Mohamed, University of Qatar, Qatar
T. Mosaaid, University of Qatar, Qatar
H. Saleh, University of Qatar, Qatar
F. Abdullah, University of Qatar, Qatar
H. Cherif, University of Qatar, Qatar

Chapter XII
Studying and Analysis of a Vertical Web Page Classifier Based on Continuous Learning
Naïve Bayes (CLNB) Algorithm ..................................................................................................... 210
H. A. Ali, Mansoura University, Egypt
Ali I. El Desouky, Mansoura University, Egypt
Ahmed I. Saleh, Mansoura University, Egypt

Chapter XIII
Building a Semantic-Rich Service-Oriented Manufacturing Environment ................................... 255
Zhonghua Yang, Nanyang Technological University, Singapore
Jing Bing Zhang, Singapore Institute of Manufacturing Technology (SIMTech), Singapore
Robert Gay, Nanyang Technological University, Singapore
Liqun Zhuang, Singapore Institute of Manufacturing Technology (SIMTech), Singapore
Hui Mien Lee, Nanyang Technological University, Singapore

Chapter XIV
A Survey of Web Service Discovery Systems .................................................................................. 266
Le Duy Ngane, Nanyang Technological University, Singapore
Angela Goh, Nanyang Technological University, Singapore
Cao Hoang Tru, Ho Chi Minh City University of Technology, Viet Nam

Chapter XV
Web Site Performance Analysis Success Assessment of Information Driven Web Site
on User Traces .................................................................................................................................. 282
Carsten Stolz, University Eichstaett-Ingolstadt, Germany
Michael Barth, Ludwig-Maximilian-University, Munich, Germany

Compilation of References ............................................................................................................... 297
Index................................................................................................................................................ 315
